Set in Los Angeles in the early 1980's, *Less than Zero* has become a timeless classic. This coolly mesmerizing novel is a raw, powerful portrait of a lost generation who have experienced sex, drugs, and disaffection at too early an age. They live in a world shaped by casual nihilism, passivity, and too much money in a place devoid of feeling or hope. Clay comes home for Christmas vacation from his Eastern college and re-enters a landscape of limitless privilege and absolute moral entropy, where everyone drives Porches, dines at Spago, and snorts mountains of cocaine. He tries to renew feelings for his girlfriend, Blair, and for his best friend from high school, Julian, who is careering into hustling and heroin. Clay's holiday turns into a dizzying spiral of desperation that takes him through the relentless parties in glitzy mansions, seedy

bars, and underground rock clubs and also into the seamy world of L.A. after dark.

The author of American Psycho and Less Than Zero continues to shock and haunt us with his incisive and brilliant dissection of the modern world. In his most ambitious and gripping book yet, Bret Easton Ellis takes our celebrity obsessed culture and increases the volume exponentially. Set in 90s Manhattan, Victor Ward, a model with perfect abs and all the right friends, is seen and photographed everywhere, even in places he hasn't been and with people he doesn't know. He's living with one beautiful model and having an affair with another on the eve of opening the trendiest nightclub in New York City history. And now it's time to move to the next stage. But the future he gets is not the one he had in mind. With the same deft satire and savage wit he has brought to his other fiction, Bret Ellis gets beyond the facade and introduces us, unsparingly, to what we always feared was behind it. Glamorama shows us a shadowy looking-glass reality, the juncture where fame and fashion and terror and mayhem meet and then begin to resemble the familiar surface of our lives.

The basis of the major motion picture starring Billy Bob Thornton, Kim Basinger and Mickey Rourke, The Informers is a seductive and chillingly nihilistic novel, in which Bret Easton Ellis, returns to Los Angeles, the city whose moral badlands he portrayed so unforgettably in Less Than Zero. This time is the early eighties. The characters go to the same schools and eat at the same restaurants. Their voices enfold us as seamlessly as those of DJs heard over a car radio. They have sex with the same boys and girls and buy from the same dealers. In short, they are connected in the only way people can be in that city. Dirk sees his best friend killed in a desert car wreck, then rifles through his pockets for a last joint before the ambulance comes. Cheryl, a wannabe newscaster, chides her future stepdaughter, "You're tan but you don't look happy." Jamie is a clubland carnivore with a taste for human blood. As rendered by Ellis, their interactions compose a chilling, fascinating, and outrageous descent into the abyss beneath L.A.'s gorgeous surfaces.

In the last century it was argued that men are from Mars and women are from Venus - but things have moved on a long way since then. In this timely new approach to the debate, Tom Whipple travels far and wide - from a Home Counties swingers' party to a gay penguin sanctuary in Germany - and draws on the latest studies in behavioural science as well as fascinating explorations into anthropology to present a surprising tale of expectations and mismatches. If you are currently single, this book is about your place in the dating market - your successes, your failures and what they mean. If you are in a relationship, it is about why you chose the person you are with, why they chose you - and the circumstances in which either of you might put it all at risk and stray. In X and Why, Tom Whipple delves into the sexual subconscious to explain the inner workings of character and desire. It will change the way you see yourself and everyone around you.

When he returns to Illinois and the gang culture on the south side of Fairfield after six years in Colorado, Luis Fuentes falls for a girl and enters a dark world after learning some disturbing news about his family.

When she found out who he was, she knew she had to stay away from him. Their families had a history, and the best thing to do was to avoid him. With every unexpected encounter the attraction between them grew. Will the rift between their families curb the growing attraction between them? Don't fight Attraction... Those were the words Alex spoke to capture me at hello. I'd never met a man like this before. Sexy as hell, hot like sin. A man who came with his own rules. Attraction. That's what he called the insane chemistry that sparked between us. After the disaster of my last relationship I should have run a mile from the gorgeous, god-like man who called me angel. But ...I allowed him to tempt me. I should say no but I can't resist the irresistible ...

From the bestselling author of Less Than Zero and American Psycho, The Rules of Attraction is a startlingly funny, kaleidoscopic novel about three students at a small, affluent liberal-arts college in New England with no plans for the future--or even the

present--who become entangled in a curious romantic triangle. Bret Easton Ellis trains his incisive gaze on the kids at self-consciously bohemian Camden College and treats their sexual posturings and agonies with a mixture of acrid hilarity and compassion while exposing the moral vacuum at the center of their lives. Lauren changes boyfriends every time she changes majors and still pines for Victor who split for Europe months ago and she might or might not be writing anonymous love letter to ambivalent, hard-drinking Sean, a hopeless romantic who only has eyes for Lauren, even if he ends up in bed with half the campus, and Paul, Lauren's ex, forthrightly bisexual and whose passion masks a shrewd pragmatism. They waste time getting wasted, race from Thirsty Thursday Happy Hours to Dressed To Get Screwed parties to drinks at The Edge of the World or The Graveyard. The Rules of Attraction is a poignant, hilarious take on the death of romance. The basis for the major motion picture starring James Van Der Beek, Shannyn Sossamon, Jessica Biel, and Kate Bosworth.

Incisive, controversial and startlingly funny, The Rules of Attraction examines a group of affluent students at a small, self-consciously bohemian, liberal-arts college on America's East Coast. Lauren, who changes the man in her bed even more often than she changes course, is dating Victor but sleeping with Sean. Sean - cool, ambivalent and deeply cynical - might be in love with Lauren, but he's not going to let that stop him from bedding Paul. Paul, as shrewd as he is passionate, is Lauren's ex-lover and the final point in this curious triangle. This is a breathtaking tale of sex, expectation, desire and frustration.

How southern universities presently contend with an inherited panoply of words and symbols that embody and perpetuate Old South traditions In *Heritage and Hate: Old South Rhetoric at Southern Universities*, Stephen M. Monroe presents the US South as a pulsating rhetorical landscape, a place where words and symbols rooted in a deeply problematic past litter the ground and contaminate the soil. This provocative text focuses on predominantly white southern universities where Old South rhetoric still reverberates, empowering rebel flags to stifle racial harmony, school cheers to reinforce racial barriers, and student yearbooks to create and protect an oppressive culture of exclusion. Across the region, in college towns like Oxford, Mississippi, Athens, Georgia, and Tuscaloosa, Alabama, communities remain locked in a difficult, recursive, and inherently rhetorical struggle wrestling with this troubling legacy. Words, images, and symbols are not merely passive artifacts of southern history, Monroe argues, but formative agents that influence human behavior and shape historical events. Drawing on research from many disciplines, including rhetoric, southern studies, history, sociology, and African American studies, Monroe develops the concept of confederate rhetoric: the collection of Old South words and symbols that have been and remain central to the identity conflicts of the South. He charts examples of such rhetoric at work in southern universities from Reconstruction to the present day. Tracing the long life and legacy of Old South words and symbols at southern universities, this book provides close and nuanced analysis of the rhetorical conflicts that have resulted at places like the University of Mississippi and the University of Missouri. Some conflicts erupted during the civil rights movement, when the first African American students pushed their way into all-white southern universities and colleges, and others are brewing now, as African Americans (and their progressive white peers) begin to cement genuine agency and voice in these communities. Tensions have been, and remain, high. Remnants of the old majority continue to recruit modern adherents. The white majority may be in decline by many measures, but it is also powerful and resilient, still standing guard in defense of Old South traditions. Ultimately, Monroe offers hope and optimism, contending that if words and symbols can be used to damage and divide, then words and symbols can also be used to heal and unify. Racist rhetoric can be replaced by antiracist rhetoric. The old South can become new. While resisting naive or facile arguments, *Heritage and Hate* ultimately finds the promise of progress within the tremendous power of language.

Donna Tartt, winner of the 2014 Pulitzer Prize for her most recent novel, *The Goldfinch*, established herself as a major talent with *The Secret History*, which has become a contemporary classic.
