Christopher Ricks is one of the best-known living critics of English, and was described by W. H. Auden as 'the kind of critic every poet dreams of finding'. Though published independently over many years, each of the essays in this collection of his writings asks how a poet's words reveal the 'force of poetry', that force - in Dr Johnson's words - 'which calls new power into being, which embodies sentiment, and animates matter'. The poets covered range from John Gower, Marvell, and Milton to Wordsworth, Empson, Stevie Smith, Lowell, and Larkin, and the book contains four wider essays on clichés, lies, misquotations, and American English. Covers written and spoken British and American English and reviews grammar, usage, punctuation, and phonetics

The nature and scope of English poetry is illuminated in this collection of works by twentieth-century poets including Hardy, Yeats, Lawrence, Eliot, and Auden. Essential reading for all armchair detectives, this collection of 33 classic whodunits is the cream of crime writing.

There can be no area of human experience that has generated a wider range of powerful feelings than war. The 250 poems included in this acclaimed anthology span centuries of human conflict from David's lament for Saul and Jonathan, and Homer's Iliad, to the finest poems of the First and Second World Wars, and beyond. Reflecting the feelings of poets as diverse as Byron,

Hardy, Owen, Sassoon, and Heaney, they reveal a great shift in social awareness from man's early celebratory 'war-songs' to the more recent 'anti-war' attitudes of poets responding to 'man's inhumanity to man' - and to women and children.

A collection of forty-two stories, written between 1829 and 1968, by such authors as Walter Scott, M.R. James, Bram Stoker, Rudyard Kipling, Somerset Maugham, and T.H. White

An impressive selection of some of the best work of Canadian poets and Atwood's brilliant introductory survey of Canadian poetry make this an excellent textbook choice.

Our vast and often neglected literature of poetic translation is represented in this anthology by some 600 poems or extracts. The choice encompasses many languages, including the Hebrew of the Bible, the Greek of Homer, the Latin of Virgil and Ovid, Persian, French, German, Russian, Italian, Anglo-Saxon, Icelandic, Irish, and the American Indian, all rendered into English.

The thrill and chill of the ghost story is displayed in all its variety and vitality through this marvellous anthology. Ranging from the early 19th century to the 1960s, the collection reveals the development of the genre, and showcases many of its greatest expositors - from Sir Walter Scott, H. G. Wells, M. R. James, T. H. White, Walter de la Mare, and Elizabeth Bowen in the UK to Edith Wharton in America. Though its heyday coincided with the

golden age of Empire in the nineteenth century, the ghost story enjoyed a second flowering between the two World Wars and its popularity is as great as ever.

Health foods and dietary supplements are widely used throughout the world - it is estimated that more than seventy million people in Europe regularly buy these products, and it is a billion dollar business in the USA. Health foods include vitamins, minerals, cereals, nuts, herbal medicines, functional foods, and many others. A large number of people use these foods in the belief that they contribute to their general health, while, in most countries, little or no information is given on products explaining their therapeutic values. The Oxford Book of Health Foods begins with an account of modern concepts of human nutrition, followed by a series of over one

hundred accounts of individual health foods and dietary supplements. In all cases the importance of these products in human health is explained, and, for herbal medicines, the evidence for their claimed therapeutic value is given, and toxic effects are described. Full-colour illustrations accompany these accounts. The Oxford Book of Health Foods will be of interest not just to health professionals, but to all people with an interest in health foods and healthy eating. The text is supplemented throughout by beautifully drawn botanical illustrations.

have something pertinent and illuminating to say about an aspect of theatrical life—whether it is the art of playwriting, the craft of covering up missed cues, the drama of the First Night, the nightmare of touring, or the secret ingredients of star quality. Edmund Kean, Henry Irving, John Gielgud, Laurence Olivier, Ellen Terry, Edith Evans, Maggie Smith, Helen Mirren—the great 'names' are all here, of course, but there are tales of the unexpected, too—and the unknown. This is a book—presented in five acts, with a suitably anecdotal and personal prologue from Gyles Brandreth—where, once in a while, the understudy takes centre-stage and Gyles Brandreth treats triumph and disaster just the same, including stories from the tattiest touring companies as well as from Broadway, the West End and theatres, large and small, in Australia, India, and across Europe.

This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more 'visible'.

Concentrating on major writers and works, it covers translations out of many languages, from Greek to Hungarian, Korean to Turkish. For some works (e.g. Virgil's Aeneid) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available.

Gathers poems by Swift, Byron, Tennyson, Holmes, Carroll, Gilbert, Harte, Housman, Chesterton, Wodehouse, Eliot, Graves, Auden, Amis, and De Uries

Traces the development of English and American prose from the end of the Middle Ages to the present through the work of its finest writers, from Sir Thomas Malory to Salman Rushdie

As the most widely documented language in human history, English holds a unique key to unlocking some of the mysteries of the uniquely human endowment of language. Yet the field of World Englishes has remained somewhat marginal in linguistic theory. This collection heralds a more direct and mutually constructive engagement with current linguistic theories, questions, and methodologies. It achieves this through areal overviews, theoretical chapters, and case studies. The 36 articles are divided between four themes: Foundations, World Englishes and Linguistic Theory, Areal Profiles, and Case Studies. Part I sets out the complex history of the global spread of English. This is followed, in Part II, by chapters addressing the mutual relevance and importance of World Englishes and numerous theoretical subfields of Linguistics. Part III offers detailed accounts of the structure and social histories of specific varieties of English spoken across the globe, highlighting points of theoretical interest. The collection closes with a set of case studies that exemplify the type of analysis encouraged by the volume. As attention is focused on innovative work at the interface of dialect description and theoretical explanation, the book is more succinct in its treatment of applied themes, which

The essay is one of the richest of literary forms. Its most obvious characteristics are freedom, informality, and the personal touch--though it can also find room for poetry, satire, fantasy, and sustained argument. All these qualities, and many others, are on display in *The Oxford Book of Essays*. The most wide-ranging collection of its kind to appear for many years, it includes 140 essays by 120 writers: classics, curiosities, meditations, diversions, old favorites, recent examples that deserve to be better

known. A particularly welcome feature is the amount of space allotted to American essayists, from Benjamin Franklin to John Updike and beyond. This is an anthology that opens with wise words about the nature of truth, and closes with a consideration of the novels of Judith Krantz. Some of the other topics discussed in its pages are anger, pleasure, Gandhi, Beau Brummell, wasps, party-going, gangsters, plumbers, Beethoven, potato crisps, the importance of being the right size, and the demolition of Westminster Abbey. It contains some of the most eloquent writing in English, and some of the most entertaining.

Gathers witty quotations about nature, religion, fear, hope, fame, wealth, politics, marriage, happiness, knowledge, language, and death

The Oxford Handbook of English Prose 1500-1640 is the only current overview of early modern English prose writing. The aim of the volume is to make prose more visible as a subject and as a mode of writing. It covers a vast range of material vital for the understanding of the period: from jestbooks, newsbooks, and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing; from diaries, tracts on witchcraft, and domestic conduct books to rhetorical treatises designed for a courtly audience; from little known works such as William

Baldwin's *Beware the Cat*, probably the first novel in English, to *The Bible*, *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief, *The Laws of Ecclesiastical Polity*. The work not only deals with the range and variety of the substance and types of English prose, but also analyses the forms and styles of writing adopted in the early modern period, ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel, to the aggressive polemic of the Marprelate controversy; from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age; and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection. Each essay provides an overview as well as comment on key passages, and a select guide to further reading. Assemblage of lyrical works by such poets as Chaucer, Gower, and Langland survey poetic concerns and artistry from the twelfth to the fifteenth century

The Oxford Book of English Short Stories, edited by A. S. Byatt, who has published several collections of short stories, is the first anthology to take the English short story as its theme. The thirty-seven stories featured here are selected from the nineteenth and twentieth centuries, by authors ranging from Dickens, Trollope, and Hardy to J. G. Ballard, Angela Carter, and Ian McEwan, though many draw ingeniously from the richness of earlier English literary writing. There are allsorts of threads of connection and contrast

running through these stories. Their subjects vary from the sublime to the ridiculous, from the momentous to the trivial, from the grim to the farcical. There is English empiricism, English pragmatism, English starkness, English humour, English satire, English dandyism, English horror, and English whimsy. There are examples of social realism, from rural poverty to blitzed London; ghost stories and tales of the supernatural; surreal fantasy and science fiction. There are stories of sensibility, precisely delineated, from Hardy's reluctant bride to the shocked heroine of Elizabeth Taylor's *The Blush*, from H. E. Bates's brilliant fusion of class, sex, death, and landscape, to D. H. Lawrence's exploration of a consciousness slowly detaching itself from its world. There are exuberant stories by Saki and Waugh, Wodehouse and Firbank, with a particularly English range from high irony to pure orchestrated farce. The very range and scope of the collection celebrates the eccentric differences and excellences of English short stories. Some of A. S. Byatt's choices clearly take their place in the grand tradition of storytelling, while others are more unusual. Many break all the rules of unity of tone and narrative, appearing to be one kind of story before unexpectedly turning into another. They pack together comedy and tragedy, farce and delicacy, elegance and the grotesque, with language as various as the subject-matter. As A. S. Byatt explains: 'My only criterion was that those stories I selected should be startling and satisfying, and if possible make the hairs on the neck prickle with excitement, aesthetic or narrative.'
