Walter Lippmann began his career as a brilliant young man at Harvard studying under George Santayana, taking tea with William James, a radical outsider arguing socialism with anyone who would listen and he ended it in his eighties, writing passionately about the agony of rioting in the streets, war in Asia, and the collapse of a presidency. In between he lived through two world wars, and a depression that shook the foundations of American capitalism. Walter Lippmann (1889-1974) has been hailed as the greatest journalist of his age. For more than sixty years he exerted unprecedented influence on American public opinion through his writing, especially his famous newspaper column "Today and Tomorrow." Beginning with *The New Republic* in the halcyon days prior to Woodrow Wilson and the First World War, millions of Americans gradually came to rely on Lippmann to comprehend the vital issues of the day. In this absorbing biography, Ronald Steel meticulously documents the philosophers and politics, the friendships and quarrels, the trials and triumphs of this man who for six decades stood at the center of American political life. Lippmann's experience spanned a period when the American empire was born, matured, and began

to wane, a time some have called "the American Century." No one better captured its possibilities and wrote about them so wisely and so well, no one was more the mind, the voice, and the conscience of that era than Walter Lippmann: journalist, moralist, public philosopher.

Book Four of Robert A. Caro's monumental *The Years of Lyndon Johnson* displays all the narrative energy and illuminating insight that led the *Times* of London to acclaim it as "one of the truly great political biographies of the modern age. A masterpiece." *The Passage of Power* follows Lyndon Johnson through both the most frustrating and the most triumphant periods of his career—1958 to 1964. It is a time that would see him trade the extraordinary power he had created for himself as Senate Majority Leader for what became the wretched powerlessness of a Vice President in an administration that disdained and distrusted him. Yet it was, as well, the time in which the presidency, the

goal he had always pursued, would be thrust upon him in the moment it took an assassin's bullet to reach its mark. By 1958, as Johnson began to maneuver for the presidency, he was known as one of the most brilliant politicians of his time, the greatest Senate Leader in our history. But the 1960 nomination would go to the young senator from Massachusetts, John F. Kennedy. Caro gives us an unparalleled account of the machinations behind both the nomination and Kennedy's decision to offer Johnson the vice presidency, revealing the extent of Robert Kennedy's efforts to force Johnson off the ticket. With the consummate skill of a master storyteller, he exposes the savage animosity between Johnson and Kennedy's younger brother, portraying one of America's great political feuds. Yet Robert Kennedy's overt contempt for Johnson was only part of the burden of humiliation and isolation he bore as Vice President. With a singular understanding of Johnson's heart and mind, Caro describes what it was like for this mighty politician to find himself altogether powerless in a world in which power is the crucial commodity. For the first time, in Caro's breathtakingly vivid narrative, we see the Kennedy assassination through Lyndon Johnson's eyes. We watch Johnson step into the presidency, inheriting a staff fiercely loyal to his slain predecessor; a Congress determined to retain its power over the executive branch; and a nation in

shock and mourning. We see how within weeks—grasping the reins of the presidency with supreme mastery—he propels through Congress essential legislation that at the time of Kennedy’s death seemed hopelessly logjammed and seizes on a dormant Kennedy program to create the revolutionary War on Poverty. Caro makes clear how the political genius with which Johnson had ruled the Senate now enabled him to make the presidency wholly his own. This was without doubt Johnson’s finest hour, before his aspirations and accomplishments were overshadowed and eroded by the trap of Vietnam. In its exploration of this pivotal period in Johnson’s life—and in the life of the nation—*The Passage of Power* is not only the story of how he surmounted unprecedented obstacles in order to fulfill the highest purpose of the presidency but is, as well, a revelation of both the pragmatic potential in the presidency and what can be accomplished when the chief executive has the vision and determination to move beyond the pragmatic and initiate programs designed to transform a nation. It is an epic story told with a depth of detail possible only through the peerless research that forms the foundation of Robert Caro’s work, confirming Nicholas von Hoffman’s verdict that “Caro has changed the art of political biography.”

In *Means of Ascent*, Book Two of *The Years of Lyndon Johnson*, Robert A. Caro brings alive Lyndon Johnson in his wilderness years. Here, Johnson's almost mythic personality—part genius, part behemoth, at once hotly emotional and icily calculating—is seen at its most nakedly ambitious. This multifaceted book carries the President-to-be from the aftermath of his devastating defeat in his 1941 campaign for the Senate—the despair it engendered in him, and the grueling test of his spirit that followed as political doors slammed shut—through his service in World War II (and his artful embellishment of his record) to the foundation of his fortune (and the actual facts behind the myth he created about it). The culminating drama—the explosive heart of the book—is Caro's illumination, based on extraordinarily detailed investigation, of one of the great political mysteries of the century. Having immersed himself in Johnson's life and world, Caro is able to reveal the true story of the fiercely contested 1948 senatorial election, for years shrouded in rumor, which Johnson was not believed capable of winning, which he "had to" win or face certain political death, and which he did win—by 87 votes, the "87 votes that changed history." Telling that epic story "in riveting and eye-opening detail," Caro returns to the American consciousness a magnificent lost hero. He focuses closely not only on Johnson, whom we see harnessing every last particle of his

strategic brilliance and energy, but on Johnson's "unbeatable" opponent, the beloved former Texas Governor Coke Stevenson, who embodied in his own life the myth of the cowboy knight and was himself a legend for his unfaltering integrity. And ultimately, as the political duel between the two men quickens—carrying with it all the confrontational and moral drama of the perfect Western—Caro makes us witness to a momentous turning point in American politics: the tragic last stand of the old politics versus the new—the politics of issue versus the politics of image, mass manipulation, money and electronic dazzle.

Harry Olferman de Jonge was born on the 21st of February 1989 and grew up in a small town in South Africa with his grandparents. Growing up he found he had a love for a good book, which sparked the obsessive collection of as many books as possible. Critics have maintained that John Rawls's theory of justice is unrealistic and undemocratic. Andrius Gališanka's incisive intellectual biography argues that in misunderstanding the origins and development of Rawls's argument, previous narratives fail to explain the novelty of his philosophical approach and so misunderstand his political vision.

What are rising powers? Do they challenge the international order? Why do some countries but not others become rising powers? In *Why Nations Rise*, Manjari Chaterjee Miller answers these questions and shows that some countries rise not just because they develop the military and economic power to do so but because they develop particular narratives about how to become a great power in the style of the great power du jour. These active rising powers accept the prevalent norms of the international order in order to become great powers. On the other hand, countries which have military and economic power but not these narratives do not rise enough to become great powers--they stay reticent powers. An examination of the narratives in historical (the United States, the Netherlands, Meiji Japan) and contemporary (Cold War Japan, post-Cold War China and India) cases, *Why Nations Rise* shows patterns of active and reticent rising powers and

The book aims to reignite the sense of wonder that permeated this remarkable era, as rulers and ruled navigated overwhelming cultural, political and technological changes. It was a time where what was seen as modern with amazing speed appeared old-fashioned, where huge cities sprang up in a generation, new European countries were created and where, for the first time, humans could communicate almost instantly over thousands of miles. In the period bounded by the Battle of Waterloo and the outbreak of World War I, Europe dominated the rest of the world as never before or

since: this book breaks new ground by showing how the continent shaped, and was shaped by, its interactions with other parts of the globe. Richard Evans explores fully the revolutions, empire-building and wars that marked the nineteenth century, but the book is about so much more, whether it is illness, serfdom, religion or philosophy. *The Pursuit of Power* is a work by a historian at the height of his powers: essential for anyone trying to understand Europe, then or now.

In *The Downing Street Wars*, Margaret Thatcher gave her own account of her prime ministership from 1979 to 1990. That book justly became a bestseller all over the world. the temptation to line your pockets or seek revenge against your enemies? To answer these questions, *Corruptible* draws on over 500 interviews with some of the world's top leaders—from the noblest to the dirtiest—including presidents and philanthropists as well as rebels, cultists, and dictators. Some of the fascinating insights include: how facial appearance determines who we pick as leaders, why narcissists make more money, why some people don't want power at all and others are drawn to it out of a psychopathic impulse, and why being the "beta" (second in command) may actually be the optimal place for health and well-being. *Corruptible* also features a wealth of counterintuitive examples from history and social science: you'll meet the worst bioterrorist in American history, hit the slopes with a ski instructor who once ruled Iraq, and learn why the inability of chimpanzees to play baseball is central to the development of human hierarchies. Based on deep, unprecedented research from around the world, *Corruptible* will challenge your most basic assumptions about becoming a leader and what might happen to your head when you get there. It also provides a roadmap to avoiding classic temptations, suggesting a series of reforms that would facilitate better people finding a path to power—and ensuring that power purifies rather than corrupts.

Napoleon Hill first wrote *The Path to Personal Power* in 1941, intending it as a handbook for people lifting themselves out of the Great Depression. But upon the bombing of Pearl Harbor and America's entrance into World War II, these lessons were put aside and largely forgotten--until today. By analyzing specific challenges faced by the American government in the post-Cold War period--Iran, Iraq, Afghanistan, North Korea, Syria, Libya, Russia, China and others--Gates deconstructs the ways in which leaders have used the instruments of power available to them. With forthright judgments of the performance of past presidents and their senior-most advisors, first-hand knowledge, and insider stories, Gates argues that U.S. national security in the future will require learning, and abiding by, the lessons of the past, and re-creating those capabilities that the misuse of power has cost the nation."--

children mostly out of the nest. With that, she found her calling. Nancy Pelosi has lived on the cutting edge of the revolution in both women's roles and in the nation's movement to a fiercer and more polarized politics. She has established herself as a crucial friend or formidable foe to U.S. presidents, a master legislator, and an indefatigable political warrior. She took on the Democratic establishment to become the first female Speaker of the House, then battled rivals on the left and right to consolidate her power. She has soared in the sharp-edged inside game of politics, though she has struggled in the outside game—demonized by conservatives, second-guessed by progressives, and routinely underestimated by nearly everyone. All of this was preparation for the most historic challenge she would ever face, at a time she had been privately planning her retirement. When Donald Trump was elected to the White House, Nancy Pelosi became the Democratic counterpart best able to stand up to the disruptive president and to get under his skin. The battle between Trump and Pelosi, chronicled in this book with behind-the-scenes details and revelations, stands to be the titanic political struggle of our time.

An essential guide to building transformative movements to address the challenges of our time, from one of the country's leading organizers and a co-creator of Black Lives Matter "Excellent and provocative . . . a gateway [to] urgent debates."--Keeanga-Yamahtta Taylor, *The New Yorker* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *Time* * *Marie Claire* * *Kirkus Reviews* In 2013, Alicia Garza wrote what she called "a love letter to Black people" on Facebook, in the aftermath of the acquittal of the man who murdered seventeen-year-old Trayvon Martin. Garza wrote: Black people. I love you. I love us. Our lives matter. With the speed and networking capacities of social media, #BlackLivesMatter became the hashtag heard 'round the world. But Garza knew even then that hashtags don't start movements--people do. Long before #BlackLivesMatter became a rallying cry for this generation, Garza had spent the better part of two decades learning and unlearning some hard lessons about organizing. The lessons she offers are different from the "rules for radicals" that animated earlier generations of activists, and diverge from the charismatic, patriarchal model of the American civil rights movement. She reflects instead on how making room amongst the woke for those who are still awakening can inspire and activate more people to fight for the world we all deserve.
