In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the

news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

'Poetry, always foremost of the arts in traditional Africa, has continued to compete for primacy against the newer forms of prose fiction and theatre drama.' This wonderfully comprehensive anthology of African poetry has been expanded to include ninety-nine poets from twenty-seven countries, thirty-one of whom appear for the first time. Equally wide-ranging is the content of the poetry itself: war songs and political protests jostle with poems about human love, African nature and the surprises that life offers; all are represented in these rich and colourful pages.

A timely new edition of the classic journalism text, now featuring updated material on the importance of reporting in the age of media mistrust and fake news—and how journalists can use technology to navigate its challenges More than two decades ago, the Committee of Concerned Journalists gathered some of America's most influential newspeople and asked them, "What is journalism for?" Through exhaustive research, surveys, interviews, and public forums, the committee identified the essential elements that define journalism and its role in our society. The result is one of the most important books on media ever written—winner of the Goldsmith Book Prize from Harvard, a Society of Professional Journalists Award, and the Bart Richards Award for Media Criticism from Penn State University.
