New York Times bestseller! Blade never asked for a life of the rich and famous. In fact, he'd give anything not to be the son of Rutherford Morrison, a washed-up rock star and drug addict with delusions of a comeback. Or to no longer be part of a family known most for lost potential, failure, and tragedy, including the loss of his mother. The one true light is his girlfriend, Chapel, but her parents have forbidden their relationship, assuming Blade will become just like his father. In reality, the only thing Blade and Rutherford have in common is the music that lives inside them. And songwriting is all Blade has left after Rutherford, while drunk, crashes his high school graduation speech and effectively rips Chapel away forever. But when a long-held family secret comes to light, the music disappears. In its place is a letter, one that could bring Blade the freedom and love he's been searching for, or leave him feeling even more adrift. "A contemporary hero's journey, brilliantly told." —Kirkus Reviews, starred review "A rhythmic, impassioned ode to family, identity, and the history of rock and roll." —Booklist, starred review "Many readers will identify with Blade's struggle to find his place in a family where he feels like an outsider." —Publishers Weekly "The authentic character development and tone will strike a chord with young adults." —School Library Journal

As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Rich Dad's Guide to Investing is a guide to understanding the real earning power of money by learning some of the investing secrets of the wealthy.

Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become

rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.
