THE NEW YORK TIMES BESTSELLER The only comprehensive, firsthand account of the fourteen-hour firefight at the Battle of Keating in Afghanistan by Medal of Honor recipient Clinton Romesha, for readers of *Black Hawk Down* by Mark Bowden and *Lone Survivor* by Marcus Luttrell. “It doesn't get better.’ To us, that phrase nailed one of the essential truths, maybe even the essential truth, about being stuck at an outpost whose strategic and tactical vulnerabilities were so glaringly obvious to every soldier who had ever set foot in that place that the name itself—Keating—had become a kind of backhanded joke.” In 2009, Clinton Romesha of Red Platoon and the rest of the Black Knight Troop were preparing to shut down Command Outpost (COP) Keating, the most remote and inaccessible in a string of bases built by the US military in Nuristan and Kunar in the hope of preventing Taliban insurgents from moving freely back and forth between Afghanistan and Pakistan. Three years after its construction, the army was finally ready to concede what the men on the ground had known immediately: it was simply too isolated and too dangerous to defend. On October 3, 2009, after years of constant smaller attacks, the Taliban finally decided to throw everything they had at Keating. The ensuing fourteen-hour battle—and eventual victory—cost eight men their lives. *Red Platoon* is the riveting firsthand account of the Battle of Keating, told by Romesha, who spearheaded both the defense of the outpost and the counterattack that

drove the Taliban back beyond the wire and received the Medal of Honor for his actions.

In a far corner of space, on the very borders between humanity's Polity worlds and the kingdom of the vicious crab-like prador, is an immediate threat to all sentient life: an accretion disc, a solar system designed by the long-dead Jain race and swarming with living technology powerful enough to destroy entire civilizations. Neither the Polity or the prador want the other in full control of the disc, so they've placed an impartial third party in charge of the weapons platform guarding the technology from escaping into the galaxy: Orlandine, a part-human, part-AI haiman. She's assisted by Dragon, a mysterious, spaceship-sized alien entity who has long been suspicious of Jain technology and who suspects the disc is a trap lying-in-wait. Meanwhile, the android Angel is planning an attack on the Polity, and is searching for a terrible weapon to carry out his plans? a Jain super-soldier. But what exactly the super-soldier is, and what it could be used for if it fell into the wrong hands, will bring Angel and Orlandine's missions to a head in a way that could forever change the balance of power in the Polity universe. In *The Soldier*, British science fiction writer Neal Asher kicks off another Polity-based trilogy in signature fashion, concocting a mind-melting plot filled with far-future technology, lethal weaponry, and bizarre alien creations.

The remarkable story of a Japanese American who served in a top-secret team in World War II that coaxed Japanese Imperial soldiers from their bunkers on the front

lines of the war in the Pacific. Masao Abe was a second-generation Japanese American who was swept up in the momentum of history during World War II. Born in southern California but educated as a teenager in Japan during the 1930s, he returned to the US and was drafted into the US Army. As he completed basic training, the attack on Pearl Harbor put his military career in limbo because the US government didn't know what to do with him or how to think about him--was he an enemy or a patriot? Masao was eventually recruited to join the secretive Military Intelligence Service: he was trained to accompany American soldiers as they fought their way across the islands in the Pacific. His assignment was to convince Japanese Imperial soldiers to lay down their arms, and to read captured documents looking for enemy strategies. He went to war with a bodyguard because his commanders knew he wore a target on his front and his back. This little-known slice of history reveals how the confluence of race, war, and loyalty played out when the nation called for the service of those it judged most harshly. Her mission is vital. Her failure is unthinkable. A hidden corner of space is swarming with lethal alien technology, a danger to all sentient life. It's guarded by Orlandine, who must keep it contained at any cost – as it has the power to destroy entire civilizations. She schemes from her state-of-the-art weapons station, with only an alien intelligence to share her vigil. But she doesn't share everything with Dragon . . . Orlandine is hatching a plan to obliterate this technology, removing its threat forever. For some will do anything to exploit this ancient weaponry, created by a long-dead race called the

Jain. This includes activating a Jain super-soldier, which may breach even Orlandine's defences. Meanwhile, humanity and the alien prador empire keep a careful watch over this sector of space, as neither can allow the other to claim its power. However, things are about to change. The Jain might not be as dead as they seemed – and interstellar war is just a heartbeat away. *The Soldier* is the first novel in the *Rise of the Jain* series, by bestselling science fiction author Neal Asher.

It has been three years since the wars against Arminius and the Cherusci. Gaius Silius, Legate of the Twentieth Legion, is concerned that the barbarians-though shattered by the war-may be stirring once again. He also seeks to confirm the rumors regarding Arminius' death. What Silius does not realize is that there is a new threat to the Empire, but it does not come from beyond the frontier; it is coming from within, where a disenchanting nobleman looks to sow the seeds of rebellion in Gaul. Legionary Artorius has greatly matured during his five years in the legions. He has become stronger in mind; his body growing even more powerful. Like the rest of the Legion, he is unaware of the shadow growing well within the Empire's borders, where a disaffected nobleman seeks to betray the Emperor Tiberius. A shadow looms; one that looks to envelope the province of Gaul as well as the Rhine legions. The year is A.D. 20.

straight. The old aristocracy looks down on him as the son of a "new noble" and, unprepared for the political and social maneuvering of the deeply competitive school and city, the young man finds himself entangled in a web of injustice, discrimination, and foul play. In addition, he is disquieted by his unconventional girl-cousin Epiny—who challenges his heretofore unwavering world view—and by the bizarre dreams that haunt his nights. For twenty years the King's cavalry has pushed across the grasslands, subduing and settling its nomads and claiming the territory in Gernia's name. Now they have driven as far as the Barrier Mountains, home to the Speck people, a quiet, forest-dwelling folk who retain the last vestiges of magic in a world that is rapidly becoming modernized. From childhood Nevare has been taught that the Specks are a primitive people to be pitied for their backward ways—and feared for their indigenous diseases, including the deadly Speck plague, which has ravaged the frontier towns and military outposts. The Dark Evening brings the carnival to Old Thares, and with it an unknown magic, and the first Specks Nevare has ever seen . . .

The dramatic, untold story of how the American Army was mobilized from scattered outposts two years before Pearl Harbor into the disciplined and mobile fighting force that helped win World War II In September 1939, when Nazi Germany invaded Poland and initiated World War II, a strong strain of isolationism existed in Congress and across the country. The U.S. Army stood at fewer than 200,000 men—unprepared to defend the country, much less carry the fight to Europe and the Far East. And yet, less than a year after Pearl Harbor, the American army led the Allied invasion of North

Africa, beginning the campaign that would defeat Germany, and the Navy and Marines were fully engaged with Japan in the Pacific. The story of America's astounding industrial mobilization during World War II has been told. But what has never been chronicled before Paul Dickson's *The Rise of the G. I. Army, 1940-1941* is the extraordinary transformation of America's military from a disparate collection of camps with dilapidated equipment into a well-trained and spirited army ten times its prior size in little more than eighteen months. From Franklin Roosevelt's selection of George C. Marshall to be Army Chief of Staff to the remarkable peace-time draft of 1940 and the massive and unprecedented mock battles in Tennessee, Louisiana, and the Carolinas by which the skill and spirit of the Army were forged and out of which iconic leaders like Eisenhower, Bradley, and Clark emerged; Dickson narrates America's urgent mobilization against a backdrop of political and cultural isolationist resistance and racial tension at home, and the increasingly perceived threat of attack from both Germany and Japan. An important addition to American history, *The Rise of the G. I. Army, 1940-1941* is essential to our understanding of America's involvement in World War II. The first thing that caught my eye was the geezer with the gold tooth - the second was that he was holding a shooter - and the third that he was pointing it at me.' Born and raised in East London, Carlton was a key member of the notorious Essex Boys gang and the West Ham InterCity Firm, one of the most violent hooligan gangs to trouble the football terraces during the eighties. He's been shot at, stabbed, glassed - he's even had an axe in his head. Yet the event that really brought turmoil into his life was the murder of his best friend in the infamous Range Rover murders. Carlton vowed that he would find those responsible and make them pay. There isn't much that Carlton hasn't seen or experienced in his life and his tales of violence, gang wars and close calls with death will have you on the edge of your seat. He knows how close he has come to dying and has therefore shut the door on a gangland life. He may have changed but, as he himself says, 'I'll always need to exercise the Carlton Leach brand of justice. It's in me -

But others are suspicious of her motives, and both the Polity AIs and the leaders of the alien prador kingdom dispatch fleets of warships in anticipation of conflict. This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including

analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.

Right from the start, when the train carrying British soldier Sam Richardson home to Wigton after his service in the Burma campaign breaks down two miles from town and he and his army comrades have to walk home, it is clear we are in the hands of a

compassionate, clear-sighted writer. Bragg's work has been compared to that of Hardy and D.H. Lawrence, not without some justice. His smalltown people are closely and warmly observed, but without a shred of sentimentality, and although this story is familiar—a man home from a dehumanizing war finds it hard to readjust—it has seldom been imbued with such rueful humanity. For Sam, England after WWII, and after the sufferings he and his men endured in the frightful jungle campaigns, is stuffy and limiting; soon he starts dreaming of wider horizons. His adored wife, Ellen, however, is happily rooted in the little northern town where she grew up; their small son, Joe, who has hardly known his father, is bewitched but also terrified of him. How the family works out its fate in the shabby postwar years is Bragg's story, and he makes of it something at once endearing and heroic. So many scenes, the regimental reunion, Joe's efforts to win friends among the tough town kids, a final scene at a railway station as heartrending as the movie *Brief Encounter*, linger in the mind. The book is a small classic, deeply touching and true.
