Winner of the 2014 Newbery Medal Holy unanticipated occurrences! A cynic meets an unlikely superhero in a genre-breaking new novel by master storyteller Kate DiCamillo. It begins, as the best superhero stories do, with a tragic accident that has unexpected consequences. The squirrel never saw the vacuum cleaner coming, but self-described cynic Flora Belle Buckman, who has read every issue of the comic book *Terrible Things Can Happen to You!*, is just the right person to step in and save him. What neither can predict is that Ulysses (the squirrel) has been born anew, with powers of strength, flight, and misspelled poetry — and that Flora will be changed too, as she discovers the possibility of hope and the promise of a capacious heart. From #1 New York Times best-selling author Kate DiCamillo comes a laugh-out-loud story filled with eccentric, endearing characters and featuring an exciting new format — a novel interspersed with comic-style graphic sequences and full-page illustrations, all rendered in black-and-white by up-and-coming artist K. G. Campbell.

Around you the world is swirling - you pass through a submerged town; the bakery, a wheelbarrow, a bike floating on its side on the main street, its steeples and trees barely visible through the thick water. In the distance the wreck of the gunship HMS Elizabeth lolls on a sandbank a couple of miles from the shore. Oil slicks the canals of the capital and even now in the midst of the bombing, the old men still tell tales of mermaids in the shallows. A pool, empty of water save for a brackish puddle at one end that has escaped the summer heat. A mess of fine bones and hanks of fur - the remains of mice or possums that have tumbled in, lured perhaps by the water. Two boys stand by its edge, watching a stolen

bracelet flash through the humid air into the deep end. In bestselling author Chris Womersley's first short fiction collection, twenty macabre and deliciously enjoyable tales linked by the trickle of water that runs through them all will keep readers spellbound until their final, unexpected and unsettling twist... PRAISE FOR CHRIS WOMERSLEY 'By interweaving the trivial, the humorous and the grisliest of the grisly, Chris Womersley straps us in for a shivery ride.' New York Times 'Unrepentantly daring.' The Age 'Poetic and original.' The Monthly 'Brilliantly compelling.' Australian Women's Weekly 'A master storyteller.' Australian Book Review PRAISE FOR A LOVELY AND TERRIBLE THING 'Womersley has the chops to write prose that looks realist, then seamlessly turns vertiginously weird. His deployment of the macabre has sufficient restraint, his imagination sufficient turn, that these stories maintain the power to shock' The Australian 'There is a formal elegance to his writing, even when the language is vernacular and the settings are domestic. This creates gloomily atmospheric stories with creepy momentum that bring to mind shades of Shirley Jackson and Edgar Allan Poe, but these are not horror stories per se.' The Age 'These stories, published between 2006 and 2017, stand the test of time and assert Womersley as a powerful writer of the short form.... This collection is playful, and skips between the known and unknown, the palatable and uncomfortable. Like water, these stories are unpredictable, often turbulent, and contain great depth.' Readings Books 'The stories are weird and wonderful, heartbreaking and inspiring ... It's one with the lot.' Herald Sun 'A Lovely and Terrible Thing is a collection of taut, dark-edged, and very successful stories. Chris Womersley's novels have a well-deserved following, and this transition to short fiction will add to his readership and acclaim.' Australian Book Review 'There is a poetic lilt to Womersley's prose. And he certainly knows how to end a story. In this collection the excellent endings are masterful: some leave you contemplating what might happen even after the story ends; others effect a satisfactory full stop to the narrative.' Artshub

When devastating news rattles a young girl's community, her normally attentive parents and neighbors are suddenly exhausted and distracted. At school, her teacher tells the class to look for the helpers—the good people working to make things better in big and small ways. She wants more than anything to help in a BIG way, but maybe she can start with one small act of kindness instead . . . and then another, and another. Small things can compound, after all, to make a world of difference. *The Breaking News* by Sarah Lynne Reul touches on themes of community, resilience, and optimism with an authenticity that will resonate with readers young and old.

Ms. Snowden introduces the THiNK Test to Tyaja's class. Mrs. Snowden tells the kids that T = True, H = Helpful, N = Necessary, and K = Kind. If what you're about to say isn't any of these things, she tells them, you shouldn't say it. Later that day, when Tyaja is about to criticize her friend Dhavi's new haircut, she is stopped by four little elves sporting the letters T, H, N, and K, who reinforce Ms. Snowden's lesson and remind Tyaja how friends should treat friends. Tyaja

learns that she is the “I” in THiNK!

Meet a boy with feelings so big that they glow from his cheeks, spill out of his eyes, and jump up and down on his chest. When a loud truck drives by, he cries. When he hears a joke, he bursts with joy. When his loved ones are having a hard day, he feels their emotions as if they were his own. The boy tries to cope by stuffing down his feelings, but with a little help and artistic inspiration, the boy realizes his feelings are something to be celebrated. Written by debut picture book author Britney Winn Lee and boldly illustrated by Jacob Souva, *The Boy with Big, Big Feelings* is relatable for any child, but especially for children experiencing anxiety and extreme emotions, or who have been diagnosed with autism or as a Highly Sensitive Person.

From acclaimed author and translator Elisa Amado and award-winning illustrator Alfonso Ruano, *My Friend* is the story of the meaning of friendship in the life of an immigrant child. Friendship — to be known, to be accepted as you are, to feel safe, especially when you are vulnerable. The girl in this story has recently arrived in Brooklyn with her family. On her very first day at school she meets a girl who almost instantly becomes her very best friend. She feels known, loved and accepted by her. But when she invites her friend to come for dinner with her family — a family that feels free to eat weird food and, even worse, burst into song with their version of a sentimental classic of longing and homesickness — something shifts and she no longer feels safe at all. What will it be like tomorrow at school? Award-winning illustrator Alfonso Ruano’s art beautifully depicts the depth of feeling that the friends experience in this story from acclaimed author and translator Elisa Amado, about how difficult it is to come from somewhere else and what a difference friendship can make. Discover how education innovations can produce astonishing results in student success both in and out of school. The educators featured in this book were motivated by the conviction that even the best status quo education was not serving current student needs. They responded with radical changes that tap into recent ideas about educational transformation: personalization, student-driven curriculum, student agency and co-ownership of learning direction, school-sheltered student entrepreneurship, student-led civic projects, creativity education, and product-oriented learning. Readers will find carefully researched and detailed stories of on-the-ground models where students learn empathy, cooperation, creativity, and self-management, alongside rigorous academics. Together these stories provide insight into the process of innovation and the elements that can make change successful. An Education Crisis Is a Terrible Thing to Waste will inspire educators in ordinary situations to take extraordinary actions toward a new paradigm of education in which all students can flourish. Book Features: Real-life stories of students, teachers, school principals, and school networks that have made radical innovations in education. Cutting-edge innovations that took place in a broad range of schools—public and private, elementary to high school. Specific strategies and tactics educators can use to counter preconceived or real concerns that prevent them from taking action to change.

A woman discovers her marriage is built on an illusion in this harrowing and ultimately inspiring memoir. “Be forewarned: You won’t sleep until you finish the last page.”—Caroline Leavitt, author of *Cruel Beautiful World* One night. One email. Two realities... Before: Jen Waite has met the partner of her dreams. A handsome, loving man who becomes part of her family, evolving into her husband, her best friend, and the father of her infant daughter. After: A disturbing email sparks suspicion, leading to an investigation of who this man really is and what was really happening in their marriage. In alternating Before and After chapters, Waite obsessively analyzes her relationship, trying to find a single moment from the past five years that isn't part of the long con of lies and manipulation. Instead, she finds more lies, infidelity, and betrayal than she could have imagined. With the pacing and twists of a psychological thriller, *A Beautiful, Terrible Thing* looks at how a fairy tale can become a nightmare and what happens when “it could never happen to me” actually does.

After Sherman sees something terrible happen, he becomes anxious and then angry, so a counselor helps him talk about these emotions. This title discusses, in simple terms, sexual and physical abuse, explains why adults may become abusive, and encourages children to report such abuse to a trusting adult.

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope

remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. We were six years old when I fell in love with Gage Beaumont. We were seventeen when he realized he felt the same. His dad was the town troublemaker, and I was the son of a cop. We couldn't have been more different, yet we were best friends, had each other's backs, and kept each other's secrets. What you are, I am, we always said. Then one night irrevocably changed our lives forever. It's ten years before I see Gage again, and instantly I can tell he's not the same boy I fell in love with. We're both haunted and hardened by the memory of that night--of everything we did and saw. Yet as much as we've changed, the connection between us lingers. Our history is so devastatingly complicated that it's difficult to allow ourselves happiness. With every touch, every laugh, every moment we take back, the more signs I see of the old Gage resurfacing. Little by little, I'm becoming the Joey he remembers too. But it's never that easy. If we truly want to heal, we have to find strength not only in each other, but in ourselves. Life is filled with beautiful and terrible things, and this time, we'll do whatever it takes to hold on to the good, and to each other. Warning: While this is a story about friendship, found family, and two men epically in love, it also deals with difficult themes: childhood physical and verbal abuse, some violence, depression, and anxiety.

A "powerful and indispensable" look at the devastating consequences of environmental racism (Gerald Markowitz) -- and

what we can do to remedy its toxic effects on marginalized communities. Did you know... Middle-class African American households with incomes between \$50,000 and \$60,000 live in neighborhoods that are more polluted than those of very poor white households with incomes below \$10,000. When swallowed, a lead-paint chip no larger than a fingernail can send a toddler into a coma -- one-tenth of that amount will lower his IQ. Nearly two of every five African American homes in Baltimore are plagued by lead-based paint. Almost all of the 37,500 Baltimore children who suffered lead poisoning between 2003 and 2015 were African American. From injuries caused by lead poisoning to the devastating effects of atmospheric pollution, infectious disease, and industrial waste, Americans of color are harmed by environmental hazards in staggeringly disproportionate numbers. This systemic onslaught of toxic exposure and institutional negligence causes irreparable physical harm to millions of people across the country-cutting lives tragically short and needlessly burdening our health care system. But these deadly environments create another insidious and often overlooked consequence: robbing communities of color, and America as a whole, of intellectual power. The 1994 publication of *The Bell Curve* and its controversial thesis catapulted the topic of genetic racial differences in IQ to the forefront of a renewed and heated debate. Now, in *A Terrible Thing to Waste*, award-winning science writer Harriet A. Washington adds her incisive analysis to the fray, arguing that IQ is a biased and flawed metric, but that it is useful for tracking cognitive damage. She takes apart the spurious notion of intelligence as an inherited trait, using copious data that instead point to a different cause of the reported African American-white IQ gap: environmental racism - a confluence of racism and other institutional factors that relegate marginalized communities to living and working near sites of toxic waste, pollution, and insufficient sanitation services. She investigates heavy metals, neurotoxins, deficient prenatal care, bad nutrition, and even pathogens as chief agents influencing intelligence to explain why communities of color are disproportionately affected -- and what can be done to remedy this devastating problem. Featuring extensive scientific research and Washington's sharp, lively reporting, *A Terrible Thing to Waste* is sure to outrage, transform the conversation, and inspire debate. Soon to be a major film from Amazon Studios, the prizewinning French bestseller "In this darkly delightful Gothic treasure, Mas explores grief, trauma, and sisterhood behind the walls of Paris's infamous Salpêtrière hospital." —Paula Hawkins, #1 New York Times bestselling author of *The Girl on the Train* *The Salpetriere Asylum: Paris, 1885*. Dr. Charcot holds all of Paris in thrall with his displays of hypnotism on women who have been deemed mad and cast out from society. But the truth is much more complicated—these women are often simply inconvenient, unwanted wives, those who have lost something precious, wayward daughters, or girls born from adulterous relationships. For Parisian society, the highlight of the year is the Lenten ball—the Madwomen's Ball—when the great and good come to gawk at the patients of the Salpetriere dressed up in their finery for one night only. For the women themselves, it is a rare moment of hope.

Genevieve is a senior nurse. After the childhood death of her sister Blandine, she shunned religion and placed her faith in both the celebrated psychiatrist Dr. Charcot and science. But everything begins to change when she meets Eugenie, the 19-year-old daughter of a bourgeois family that has locked her away in the asylum. Because Eugenie has a secret: she sees spirits. Inspired by the scandalous, banned work that all of Paris is talking about, *The Book of Spirits*, Eugenie is determined to escape from the asylum—and the bonds of her gender—and seek out those who will believe in her. And for that she will need Genevieve's help . . .

Grownups who wax nostalgic about their youth are given an in-your-face visual tour through twelve terrible experiences of childhood, including bedtime monsters and "atomic wedgies."

In this allegory, the author's reaction to the Holocaust, the animals of the forest are carried away, one type after another, by the Terrible Things, not realizing that if perhaps they would all stick together and not look the other way, such terrible things might not happen.

Allison Edwards, author of the best-selling book *Why Smart Kids Worry*, gives a glimpse into the ways worry whispers to young minds, and offers a powerful tool all children can use to silence those fears. "Worry's songs tie my tummy up in knots, and the things he says make my heart beat very fast. Sometimes he speaks in a whisper, and other times his voice gets so loud I can't hear anything else." Worry and anxiety are currently the top mental health issues among children and teens. Children have a number of worries throughout childhood that will come and go. The problem is not with the worries themselves, but that children believe the worries to be true. With a relatable story and beautiful artwork, *Worry Says What?* will help children (and adults) flip their thinking when anxious thoughts begin and turn them into powerful reminders of all they are capable of accomplishing.

"Built on her wildly popular *Modern Love* column, 'When a Couch is More Than a Couch' (9/23/2016), a breathtaking memoir of living meaningfully with 'death in the room' by the 38 year old great-great-great granddaughter of Ralph Waldo Emerson, mother to two young boys, wife of 16 years, after her terminal cancer diagnosis"--

Winner of the PEN Ackerley Prize • Longlisted for the 2019 PEN Open Book Award “Devastating and lyrical.” —The New York Times “Suspenseful and affecting.” —The New Yorker From the celebrated poet behind *bone*, a collection of poems that tells a story of coming-of-age, uncovering the cruelty and beauty of the world, going under, and finding redemption Through her signature sharp, searing poems, this is the story of Yrsa Daley-Ward and all the things that happened. “Even the terrible things. And God, there were terrible things.” It’s about her childhood in the northwest of England with her beautiful, careworn mother Marcia; the man formerly known as Dad (half fun, half frightening); and her little brother Roo, who sees things written in the stars. It’s also about the surreal magic of adolescence, about growing up and discovering the power and fear of sexuality, about pitch-gray days of pills and powder and connection. It’s about damage and pain, but also joy. With raw intensity and shocking honesty, *The Terrible* is a collection of poems that tells the story of what it means to lose yourself and find your voice. “You may not run away from the thing that you are because it comes and comes and comes as sure as you breathe.”

Miles Murphy is not happy to be moving to Yawnee Valley, a sleepy town that’s famous for one thing and one thing only: cows. In his old school, everyone knew him as the town’s best prankster, but Miles quickly discovers that Yawnee Valley already has a prankster, and a great one. If Miles is going to take the title from this mystery kid, he is going to have to raise his game. It’s prankster against prankster in an epic war of trickery, until the two finally decide to join forces and pull off the biggest prank ever seen: a prank so huge that it would make the members of the International Order of Disorder proud. In *The Terrible Two*, bestselling authors and friends Mac Barnett and Jory John have created a series that has its roots in classic middle-grade literature yet feels fresh and new at the same time. Terribly funny, terribly full of pranks, and terribly wonderful.” —Jon Scieszka, author of *The Stinky Cheese Man* and the *Frank Einstein* series “The *Terrible Two* are my kind of kids. And what’s more, they’re kids’ kind of kids.” —Annie Barrows, author of the *Ivy & Bean* series “Hilarious.” —Dav Pilkey, author of the *Captain Underpants* series

A tale of acceptance from the bestselling author of *The Boy in the Striped Pajamas*. Barnaby Brocket is an ordinary eight-year-old boy in most ways, but he was born different in one important way: he floats. Unlike everyone else, Barnaby does not obey the law of gravity. His parents, who have a fear of being noticed, want desperately for Barnaby to be normal, but he can’t help who he is. And when the unthinkable happens, Barnaby finds himself on a journey that takes him all over

the world. Drifting from Brazil to New York, from Canada to Ireland, and even to space, the floating boy meets all sorts of different people--and discovers who he really is along the way. This whimsical novel will delight middle-graders, while readers of all ages will find themselves questioning what it means to be "normal."

A little squirrel announces that he was once very, very, scared and finds out that he is not alone. Lots of little animals went through scary experiences, but they react in different ways. Turtle hides and gets a tummy ache, monkey clings, dog barks, and elephant doesn't like to talk about it. They need help, and they get help from grown-ups who help them feel safe and learn ways to cope with difficult feelings. This story was written to help children and grown-ups understand how stress can affect children and ways to help them.

There is a grocery store. The last grocery store in the world. It stands alone in the middle of a vast wasteland that was once our world. The open sign is still illuminated, brightening the black landscape. It can be seen from miles away, even through the poisonous red ash. Every night at the exact same time, the store comes alive. It becomes exactly as it was before the world ended. Its shelves are replenished with fresh food and water. Ghostly shoppers walk the aisles. The scent of freshly baked breads can be smelled from the rust-caked parking lot. For generations, a small community of survivors, hideously mutated from the toxic atmosphere, have survived by collecting goods from the store. But it is not an easy task. Decades ago, before the world was destroyed, there was a terrible thing that happened in this place. A group of armed men in brown paper masks descended on the shopping center, massacring everyone in sight. This horrible event reoccurs every night, in the exact same manner. And the only way the wastelanders can gather enough food for their survival is to traverse the killing spree, memorize the patterns, and escape the bloodbath before it's too late. From the godfather of bizarro fiction, Carlton Mellick III, comes an absurd horror story unlike anything you've read before.
