For the middle class and the affluent, local ties seem to matter less and less these days, but in the inner city, your life can be irrevocably shaped by what block you live on. *Living the Drama* takes a close look at three neighborhoods in Boston to analyze the many complex ways that the context of community shapes the daily lives and long-term prospects of inner-city boys. David J. Harding studied sixty adolescent boys growing up in two very poor areas and one working-class area. In the first two, violence and neighborhood identification are inextricably linked as rivalries divide the city into spaces safe, neutral, or dangerous. Consequently, Harding discovers, social relationships are determined by residential space. Older boys who can navigate the dangers of the streets serve as role models, and friendships between peers grow out of mutual protection. The impact of community goes beyond the realm of same-sex bonding, Harding reveals, affecting the boys' experiences in school and with the opposite sex. A unique glimpse into the world of urban adolescent boys, *Living the Drama* paints a detailed, insightful portrait of life in the inner city.

'A landmark piece of non-fiction' Janet Maslin, *The New York Times* From the winner of the Pulitzer Prize, this is one of the great untold stories of American history: the migration of black citizens who fled the south and went north in search of a better life From 1915 to 1970, an exodus of almost six million people would change the face of America. With stunning historical detail, Pulitzer prize-winning journalist Isabel Wilkerson gives us this definitive, vividly dramatic account of how these journeys unfolded. Based on interviews with more than a thousand people, and access to new data and official records, *The Warmth of Other Suns* tells the story of America's Great Migration through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career. Wilkerson brilliantly captures their first treacherous and exhausting cross-country journeys, as well as how they changed their new homes forever. 'You will never forget these people' Gay Talese 'A brilliant and stirring epic' John Stauffer, *Wall Street Journal* 'The mass migration of African Americans out of the US south forever changed the country's cultural fabric - and Wilkerson's history of this period is full of sacrifice and hope ... a long overdue account' Lettecha Johnson, *Guardian* 'A

deeply affecting, finely crafted and heroic book. . . .Wilkerson has taken on one of the most important demographic upheavals of the past century and told it through the lives of three people ... lyrical and tragic' Jill Lepore, New Yorker

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, *Black Boy* was both praised and condemned. Orville Prescott of the New York Times wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read *Black Boy* is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time. A look at the flight of African Americans from the rural South to the urban North between 1940 and 1970 presents the migrants' stories about everything from rural sharecropper shacks to urban housing projects. Reprint. 50,000 first printing.

University Press returns with another short and captivating book - a brief history of caste, bias, and discrimination. We have inherited a world full of humans who have been healed and hurt by other humans. There was a time, in an age before this one, when ignorance was forgivable. But that time has passed. Now is not the time for the enlightened to sneer at the brutes. Sneering hurts people. And hurt people hurt people. No. Now is the time for healing. And healing begins with introspection and a recognition of our own caste, our own biases, and our own discrimination. And introspection begins with a glimpse of the past. This short book peels back the veil and provides a brief glimpse into the history of seven virulent and persistent human biases - a glimpse that you can read in about an hour.

From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he

endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. What could possibly go wrong? **Winner of the Pulitzer Prize in History** “Extraordinary...a great American biography” (*The New Yorker*) of the most important African-American of the nineteenth century: Frederick Douglass, the escaped slave who became the greatest

orator of his day and one of the leading abolitionists and writers of the era. As a young man Frederick Douglass (1818–1895) escaped from slavery in Baltimore, Maryland. He was fortunate to have been taught to read by his slave owner mistress, and he would go on to become one of the major literary figures of his time. His very existence gave the lie to slave owners: with dignity and great intelligence he bore witness to the brutality of slavery. Initially mentored by William Lloyd Garrison, Douglass spoke widely, using his own story to condemn slavery. By the Civil War, Douglass had become the most famed and widely travelled orator in the nation. In his unique and eloquent voice, written and spoken, Douglass was a fierce critic of the United States as well as a radical patriot. After the war he sometimes argued politically with younger African Americans, but he never forsook either the Republican party or the cause of black civil and political rights. In this “cinematic and deeply engaging” (The New York Times Book Review) biography, David Blight has drawn on new information held in a private collection that few other historians have consulted, as well as recently discovered issues of Douglass’s newspapers. “Absorbing and even moving...a brilliant book that speaks to our own time as well as Douglass’s” (The Wall Street Journal), Blight’s biography tells the fascinating story of Douglass’s two marriages and his complex extended family. “David Blight has written the definitive biography of Frederick Douglass...a powerful portrait of one of the most important American voices of the nineteenth century” (The Boston Globe). In addition to the Pulitzer Prize, Frederick Douglass won the Bancroft, Parkman, Los Angeles Times (biography), Lincoln, Plutarch, and Christopher awards and was named one of the Best Books of 2018 by The New York Times Book Review, The Wall Street Journal, The Boston Globe, The Chicago Tribune, The San Francisco Chronicle, and Time.

We were one family among the many thousands. Mama and Daddy leaving home, coming to the city, with their hopes and their courage, their dreams and their children, to make a better life. When Eloise Greenfield was four months old, her family moved from their home in Parmele, North Carolina, to Washington, D.C. Before Jan Spivey Gilchrist was born, her mother moved from Arkansas and her father moved from Mississippi. Both settled in Chicago, Illinois. Though none of them knew it at the time, they had all become part of the Great Migration. In this collection of poems and collage artwork, award winners Eloise Greenfield and Jan Spivey Gilchrist gracefully depict the experiences of families like their own, who found the courage to leave their homes behind and make new lives for themselves elsewhere.

This massive true-life tale is anchored in the lives of three real-life figures, Ida Mae Brandon Gladney, George Swanson Starling, and Robert Pershing Foster, who originated from different southern towns and migrated to different urban cities of the North at different times. They left for a personal set of diverse reasons and lived unique lives that diverged drastically from one another. Although they never knew each other and were unaware of their individual roles in one of the largest migrations movements in modern human history, these three characters were connected by a shared determination to seek freedom in a shared vision of the North. THE TIME NONFICTION BOOK OF THE YEAR 'Required reading for all of humanity' Oprah Winfrey "If you haven't read it yet, you absolutely must." - Edward Enniful, Vogue 'An instant American classic' Dwight Garner, The New York Times 'The hierarchy of caste is not about feelings or morality. It is about power - which groups have it and which do not' Beyond race or class, our lives are defined by a powerful, unspoken system of divisions. In Caste, Pulitzer Prize-winning author Isabel Wilkerson gives an astounding portrait of this hidden phenomenon. Linking America, India and Nazi Germany, Wilkerson reveals how our world has been shaped by caste - and how its rigid, arbitrary hierarchies still divide us today. With clear-sighted rigour, Wilkerson unearths the eight pillars that connect caste systems across civilizations, and demonstrates how our own era of intensifying conflict and upheaval has arisen as a consequence of caste. Weaving in stories of real people, she shows how its insidious undertow emerges every day; she documents its surprising health costs; and she explores its effects on culture and politics. Finally, Wilkerson points forward to the ways we can - and must - move beyond its artificial divisions, towards our common humanity. Beautifully written and deeply original, Caste is an eye-opening examination of what lies beneath the surface of ordinary lives. No one can afford to ignore the moral clarity of its insights, or its urgent call for a freer, fairer world.

INSTANT NEW YORK TIMES BESTSELLER A New York Times Editor's Choice From journalist and New York Times bestselling author Charles Blow comes a powerful manifesto and call to action, "a must-read in the effort to dismantle deep-seated poisons of systemic racism and white supremacy" (San Francisco Chronicle). Race, as we have come to understand it, is a fiction; but, racism, as we have come to live it, is a fact. The point here is not to impose a new racial hierarchy, but to remove an existing one. After centuries of waiting for white majorities to overturn white supremacy, it seems to me that it has fallen to Black people to do it themselves. Acclaimed columnist and author Charles Blow never wanted to write a "race book." But as violence against Black people—both physical and psychological—seemed only to increase in recent years, culminating in the historic pandemic and protests of the summer of 2020, he felt compelled to write a new story for Black Americans. He envisioned a succinct, counterintuitive, and impassioned corrective to the myths that have for too long governed our thinking about race and geography in America. Drawing on both political observations and personal experience as a Black son of the South, Charles set out to offer a call to action by which Black people can finally achieve equality, on their own terms. So what will it take to make lasting change when small steps have so frequently failed? It's going to take an unprecedented shift in power. The Devil You Know is a groundbreaking manifesto, proposing nothing short of the most audacious power play by Black people in the history of this country. This book is a grand exhortation to generations of a people, offering a road map to true and lasting freedom.

"If you wanted a poem," wrote Gwendolyn Brooks, "you only had to look out of a window. There was material always, walking or running, fighting or screaming or singing." From the life of Chicago's South Side she made a forceful and passionate poetry that fused Modernist aesthetics with African-American cultural tradition, a poetry that registered the life of the streets and the upheavals of the 20th century. Starting with *A Street in Bronzeville* (1945), her epoch-making debut volume, *The Essential Gwendolyn Brooks* traces the full arc of her career in all its ambitious scope and unexpected stylistic shifts. "Her formal range," writes editor Elizabeth Alexander, "is most impressive, as she experiments with sonnets, ballads, spirituals, blues, full and off-rhymes. She is nothing short of a technical virtuoso." That technical virtuosity was matched by a restless curiosity about the life around her in all its explosive variety. By turns compassionate, angry, satiric, and

system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today. Winner of the Pulitzer Prize, the National Book Critics Circle Award, the Robert F. Kennedy Book Award, and the American Book Award, the bestselling *Common Ground* is much more than the story of the busing crisis in Boston as told through the experiences of three families. As Studs Terkel remarked, it's "gripping, indelible...a truth about all large American cities." "An epic of American city life...a story of such hypnotic specificity that we re-experience all the shades of hope and anger, pity and fear that living anywhere in late 20th-century America has inevitably provoked." —Christopher Lehmann-Haupt, *The New York Times*

One of TIME's 100 Must Read Books of 2020 and one of Good Housekeeping's Best Books of the Year "One of the smartest young writers of her generation."—Book Riot Featuring a new afterword from the author, Morgan Jerkins' powerful story of her journey to understand her northern and southern roots, the Great Migration, and the displacement of black people across America. Between 1916 and 1970, six million black Americans left their rural homes in the South for jobs in cities in the North, West, and Midwest in a movement known as The Great Migration. But while this event transformed the complexion of America and provided black people with new economic opportunities, it also disconnected them from their roots, their land, and their sense of identity, argues Morgan Jerkins. In this fascinating and deeply personal exploration, she recreates her ancestors' journeys across America, following the migratory routes they took from Georgia and South Carolina to Louisiana, Oklahoma, and California. Following in their footsteps, Jerkins seeks to understand not only her own past, but the lineage of an entire group of people who have been displaced, disenfranchised, and disrespected throughout our history. Through interviews, photos, and hundreds of pages of transcription, Jerkins braids the loose threads of her family's oral histories, which she was able to trace back 300

A New York Times Editor's Choice 1924. George Mallory is arguably the last great British explorer, having twice tried—and failed—to conquer Mount Everest. The mountain has haunted him, but his attempts have captivated the hearts of a nation desperate to restore its former glory after World War I. Yet George has sworn to his wife, Ruth, that he will not mount a third attempt. He will remain with her and their three children instead of again challenging the unreachable peak. Then, one afternoon, Ruth reads a telegram addressed to George: "Glad to have you aboard again." And with this one sentence, the lives of the Mallorys, and the face of the nation, are irrevocably changed. A beautifully rendered story about the need for redemption and the quest for glory, *Above All Things* is a captivating blend of historical fact and imaginative fiction. It is a heartbreaking tale of obsession, sacrifice, and what we do for love and honor.

A powerful illustrated history of the Great Migration and its sweeping impact on Black and American culture, from Reconstruction to the rise of hip hop. Over the course of six decades, an unprecedented wave of Black Americans left the South and spread across the nation in search of a better life--a migration that sparked stunning demographic and cultural changes in twentieth-century America. Through gripping and accessible historical narrative paired with illustrations, author and activist Blair Imani examines the largely overlooked impact of The Great Migration and how it affected--and continues to affect--Black identity and America as a whole. *Making Our Way Home* explores issues like voting rights, domestic terrorism, discrimination, and segregation alongside the flourishing of arts and culture, activism, and civil rights. Imani shows how these influences shaped America's workforce and wealth distribution by featuring the stories of notable people and events, relevant data, and family histories. The experiences of prominent figures such as James Baldwin, Fannie Lou Hamer, El Hajj Malik El Shabazz (Malcolm X), Ella Baker, and others are woven into the larger historical and cultural narratives of the Great Migration to create a

INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in American Like Me, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize–winner and bestselling author of Caste chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. NATIONAL BOOK CRITICS CIRCLE AWARD WINNER From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his

family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic. "Lord knows that we have more than enough books about ourselves and never enough books about the God that created us. It isn't until we see him that we can then make sense of ourselves. I believe Jen Oshman's book accomplishes that by widening our vision and helping us fall in love with seeing God again." —Jackie Hill Perry, poet; author; hip-hop artist Women today feel a constant pressure to improve themselves and just never feel like they're "enough." All too often, they live their daily lives disheartened, disillusioned, and disappointed. That's because joy doesn't come from a new self-improvement strategy; it comes from rooting their identity in who God says they are and what he has done on their behalf. This book calls women to look away from themselves in order to find the abundant life God offers them—contrasting the cultural emphasis on personal improvement and empowerment with what the Scriptures say about a life rooted, built up, and established in the gospel.
