Most families have an army wife somewhere in their past. Over the centuries they have followed their men to the front, helped them keep order in far-flung parts of the empire or waited anxiously at home. *Army Wives* uses first hand accounts, letters and diaries to tell their story. We meet the wives who made the arduous journey to the Crimean war and witnessed battle at close quarters. We hear the story of life in the Raj and the, often terrifying, experiences of the women who lived through its dying days. We explore the pressures of being a modern army wife - whether living in barracks or trying to maintain a normal home life outside 'the patch'. In the twentieth century two world wars produced new generations of army wives who forged friendships that lasted into peacetime. *Army Wives* reveals their experience and that of a new breed of independent women who supported their men through the Cold War to the current war on terror. Midge Gillies, author of acclaimed *The Barbed-Wire University*, looks at how industrial warfare means husbands can survive battle with life-changing injuries that are both mental and physical - and what that means for their family. She describes how army wives communicate with their husbands - via letters and coded messages, to more immediate, but less intimate,

texts and Skype. She examines bereavement, from the seances, public memorials and deaths in a foreign field of the Great War to the modern media coverage of flag-draped coffins returning home by military plane. Above all, *Army Wives* examines what it really means to be part of the 'army family'.

New York Times bestselling author and award-winning journalist, Nina Burleigh, explores Donald Trump's attitudes toward women by providing in-depth analysis and background on the women who

have had the most profound influence on his life—the mother and grandmother who raised him, the wives who lived with him, and the daughter who is poised to inherit it all. Has any president in the history of the United States had a more fraught relationship with women than Donald Trump? He flagrantly cheated on all three of his wives, brushed off multiple accusations of sexual assault, publicly ogled his eldest daughter, bought the silence of a porn star and a Playmate, and proclaimed his now-infamous seduction technique: “grab ’em by the pussy.” Golden Handcuffs is a comprehensive and provocative account of the women who have been closest to Trump—his German-immigrant grandmother, Elizabeth, the uncredited founder of the Trump Organization; his Scottish-immigrant mother, Mary, who acquired a taste for wealth as a maid in the Andrew Carnegie mansion; his wives—Ivana, Marla, and Melania (the first and third of whom are immigrants); and his eldest daughter, Ivanka, groomed to take over the Trump brand from a young age. Also examined are Trump’s two older sisters, one of whom is a prominent federal judge; his often-overlooked younger daughter, Tiffany; his female employees; and those he calls “liars”—the women who have accused him of sexual misconduct. Of these women, Burleigh writes, “where they come from and what they do now and in the future matters because they have or have had
