Congregational Music, Conflict and Community is the first study of the music of the contemporary 'worship wars' – conflicts over church music that continue to animate and divide Protestants today – to be based on long-term in-person observation and interviews. It tells the story of the musical lives of three Canadian Mennonite congregations, who sang together despite their musical differences at the height of these debates in the late 1990s and early 2000s. Mennonites are among the most music-centered Christian groups in North America, and each congregation felt deeply about the music they chose as their own. The congregations studied span the spectrum from traditional to blended to contemporary worship styles, and from evangelical to liberal Protestant theologies. At their core, the book argues, worship wars are not

fought in order to please congregants' musical tastes nor to satisfy the theological principles held by a denomination. Instead, the relationships and meanings shaped through individuals' experiences singing in the particular ways afforded by each style of worship are most profoundly at stake in the worship wars. As such, this book will be of keen interest to scholars working across the fields of religious studies and ethnomusicology.

Since its beginnings in the early 1960s the Charismatic Movement has been at its most visible and influential in the sphere of public worship. This book is the first major study of charismatic worship as it is encountered in Church of England parishes. Having traced the historical development of the Charismatic Movement in the Church of England, the book explores the public worship of six selected case study churches. By focusing on patterns of liturgical order, congregational singing, and prayer ministry, various aspects of worship are discussed. These include leadership, use of

music and song, transformation of people and place, and the influence of cultural trends in notions of intimacy and characteristics of live performance (presence, spontaneity, and visibility). The concluding section offers a theological evaluation and investigates charismatic worship from a trinitarian perspective.

Many scholars and church leaders believe that music and worship style are essential in stimulating diversity in congregations. Gerardo Marti draws on interviews with more than 170 congregational leaders and parishioners, as well as his experiences participating in worship services in a wide variety of Protestant, multiracial Southern Californian churches, to present this insightful study of the role of music in creating congregational diversity. *Worship across the Racial Divide* offers a surprising conclusion: that there is no single style of worship or music that determines the likelihood of achieving a multiracial church. Far more important are the complex of practices of the worshipping community in the production and absorption of music. Multiracial churches successfully diversify by stimulating unobtrusive means of interracial and interethnic relations; in fact, preparation for music apart from worship gatherings proves to be just as important as its performance during services. Marti shows that aside from and even in spite of the varying beliefs of attendees and church leaders, diversity happens because music and worship create practical spaces where cross-racial bonds are formed. This groundbreaking book sheds light on how race affects worship in multiracial churches. It will allow a new understanding of the dynamics of such churches, and provide crucial aid to church leaders for avoiding the pitfalls that inadvertently widen the racial divide.

A Guide to the Practice of Church Music by Marion J. Hatchett was published by Church Hymnal Corporation in 1989 and was an invaluable resource for church musicians, clergy, and educational programs in the church, such as the Leadership Program for Musicians (LPM). Since that time our liturgical language expanded and changed the scope of our worship offerings. The hymnody of other cultures, as well as hymn writers from the past thirty years, has influenced congregational song. The use of the Revised Common Lectionary has necessitated the need for new liturgical and music planning texts. *All Things Necessary: A Practical Guide for Episcopal Church Musicians* by Marti Rideout is a resource for musicians serving in Episcopal Churches who come from other denominations; clergy who desire to have a deeper appreciation for church music and who seek a resource that will help them in their ministries; those who are new to church work, and those who have served the church but desire to expand their knowledge. This book provides: - Comprehensive information about the Episcopal Church, *The Book of Common Prayer* (1979), liturgical resources published since then and the opportunities for music within the various rites, *The Hymnal*

1982 and all hymnal supplements and resources written since that publication. - A philosophy of music in the Episcopal Church. - A complete compilation of service music and canticles for the Daily Offices, Holy Eucharist and Sacraments from Church Publishing's six main hymnal sources. - Suggestions for the singing of Psalms and planning liturgies throughout the liturgical year. - Extensive lists of sources for most aspects of church music and liturgy, terms and definitions from an Episcopal perspective, and a practical bibliography.

Paxson Jeancake's 'The Art of Worship' invites readers to explore the intersection of gospel, art, and worship. Each and every Lord's Day, there is the potential for moments of spiritual illumination and transformation to occur in the lives of God's people. In the midst of corporate worship -- through the artistic media of story, imagery, and expression -- people's eyes can be opened to the beautiful, paradoxical truth of the gospel. Gospel-centered worship, however, does not happen in a vacuum. It is crafted and facilitated by human leadership, informed by biblical inquiry and theological conclusions, and fleshed out in the context of a local culture and community. This book explores all of these various facets of worship to help worship leaders, worship planners, pastors, and laypeople experience and plan gospel-centered worship that is contextual and creative, for the glory of God and the edification of his people.

In a time of shifting worldviews and changing expectations of the church, how does a pastor navigate the challenges, joys, and pains of ministry? How does a church support, love, and hold accountable its pastoral leaders? The key lies in the relationship between pastor and congregation – in the duet they are singing, in the rhythms of their life together. In this book, Gary Harder reflects on the difficulties and rewards, the missteps and humour that are part of learning that ministry duet. Here he celebrates the mysterious ways God works through, and sometimes in spite of, the people singing God's songs together. We reach for harmony. We hear dissonant notes. We catch only a glimpse of God's beautiful music. And that is enough.

The number of Hispanics living in Oregon has burgeoned over the past several decades. The number of Spanish-speaking churches in the state has also grown exponentially. However, most non-Hispanic Oregonians know very little about the Hispanic population. This lack of knowledge about Latinos, and about Hispanic ministries specifically, is found among academics and Anglo Protestants alike. This book is the result of my desire to provide information that will serve as a bridge between Spanish-speaking and English-speaking churches and facilitate understanding between groups in the broader population, and provide a well-documented study for the academy.
