From the creator of modern classic Meerkat Mail comes a very funny woodland story showing the dangers of having too much stuff. Too Much Stuff is set in the same forest as Gravett's award-winning Tidy, it features a host of gorgeous woodland animals, including Pete the badger. Meg and Ash are a pair of magpies who are building a nest for their perfect eggs. Although they begin their nest construction using the usual mud, sticks and grass, Meg and Ash are soon convinced that their nest doesn't have enough stuff and begin to collect more things to add to an ever-growing pile. From cuckoo clocks to mops and socks, a pram and even a car – their need for stuff seems endless. Until – crash! – the inevitable happens. Emily Gravett's engaging, exquisitely illustrated story will appeal to fans of Tidy and of such classics as The Animals of Farthing Wood . Two design styles perfectly embrace tidiness. One was developed in the United States in the 18th century by a devout sect of Quakers who had emigrated from England, the other was formed over thousands of years on the islands of Japan. Although they have no historical link, the Shaker aesthetic, and that of the Japanese Zen style, have much in common. For them both furniture is kept to minimum, objects are hidden away in carefully designed storage spaces, rooms are kept empty with the focus on a few design elements on the walls, natural materials are emphasised both in the construction of rooms and furniture. Here, for the first time, photographer and author Michael Freeman has brought together numerous examples of rooms from both Shaker and Japanese homes to demonstrate how home owners can be inspired by these two remarkable design styles. Divided into chapters on Lessening, Harmonizing, Containing and Storing, the book guides the reader on a journey of beautiful tidiness. Specially designed cut edges to the book and a removable bellyband give the finishing touches to this little gem of a book. A perfect publication to inspire designers and home owners to bring calm to their interior spaces.
