This is the anatomy of our being. This is our flesh, our muscles, our sinews and our limbs all tangled up beside each other. And this, is what they found when we left it all behind.

National Bestseller "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived

failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed

to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

standard against which all other outdoor-industry awards are measured. Located a few miles north from the border of the United States and Mexico, the U.S. Coast Guard has maintained a continual presence in San Diego since 1935. It was in May of that year that a single air detachment, led by Cdr. Elmer F. Stone, began operating out of a commercial hangar at Lindbergh Field. From those humble beginnings, a base was constructed on 23 acres of tidelands adjacent to the airstrip and eventually formed into Sector San Diego. Through the years, their units and missions have evolved as new technology and changing world events dictated new missions for the Coast Guard. Today Coast Guard Sector San Diego stands as a model of interagency cooperation for the Department of Homeland Security as the Coast Guard works with other federal agencies to protect San Diego's maritime domain.

All matters about and around air power are open for consideration in the Pathfinders series: strategy, historical analysis, operations, administration, logistics, education, training, people, command and control, capabilities, technology and so on ... This is the seventh volume in the Pathfinder Collection series. The contemporary air power related articles in this volume demonstrate the progress the Air Force has made in inducting and sustaining technologically sophisticated air power capabilities. Generally, the topics discussed point towards the Air Force's journey in becoming a truly 5th-generation force. Similarly, the historical ones recall the splendid history of the RAAF. As the second oldest air force in the world, it is only natural that our history is something that we should proudly reflect upon"--Foreword.

Making Peace with God and Money This is not a book about how to make money ... or spend it ... or give it away. Rather, it's a book for anyone who has ever worried about money -- about having enough -- and it begins with a startling

assumption: No amount of money will ever lift your anxiety. This may seem counterintuitive, but in Gregory Jeffrey we have an experienced guide. With degrees in business and theology, he has worked as a development consultant for two decades. In meeting with thousands of individuals to ask their support for various causes, he discovered -- to his amazement -- that some people with millions worried constantly about money; others, of very modest means, seemed immune. Apparently, making peace with money entails something other than money. This insight led Jeffrey to question every fundamental assumption we hold about wealth. With warmth, humor, and a writing style as simple as the Dakota prairie he grew up on, he offers a unique perspective on the interplay between our spiritual and financial lives. Rich with images, stories, and compassion for the millions now burdened with financial worries, Jeffrey teases out what is required of the soul who wishes to be free of anxiety. "Practical and timely, this book...will challenge you to grow in wisdom, trust, frugality, and generosity." -- Scott Hahn, best-selling author, speaker, and Scripture scholar "In striving for holiness, conversion is needed in all parts of our lives. Jeffrey goes to that place rarely examined: the intersection where wealth and God meet, and often come into conflict. As a remedy and balm, he shares with visual examples and heartwarming stories a sobering insight: to be at peace with money, you

As the gorge narrowed to barely the width of their equipment-laden rickshaws, the four men stood in the icy water, looking downstream at a five-foot waterfall and then up 100 feet of rock wall at a sliver of Tibetan sky. For weeks, they had pulled the carts across some of the planet's most remote terrain, but it looked as if this might be the end of their quest. With food tightly rationed and another hundred miles to go, their lives might depend on their next decision, but all four could sense they were close to their goal -- the calving grounds of the chiru, an elusive, endangered antelope whose delicate wool, shahtoosh, has for centuries been woven into shawls that command prices that can approach \$20,000 apiece.

In 1999, Conrad Anker found the body of George Mallory on Mount Everest, casting an entirely new light on the mystery of the lost explorer. On 8 June 1924, George Leigh Mallory and Andrew 'Sandy' Irvine were last seen climbing towards the summit of Everest. The clouds closed around them and they were lost to history, leaving the world to wonder whether or not they actually reached the summit - some 29 years before Edmund Hillary and Tensing Norgay. On 1 May 1999, Conrad Anker, one of the world's foremost mountaineers, made the momentous discovery - Mallory's body, lying frozen into the scree at 27,000 feet on Everest's north face. Recounting this day, the authors go on to assess the clues provided by the body, its position, and the possibility that
