

Tncc 7th Edition Changes

Written by a pioneer in critical care ultrasound, this book discusses the basic technique and “signatures” of lung ultrasound and explains its main clinical applications. The tools and clinical uses of the BLUE protocol, which allows diagnosis of most cases of acute respiratory failure, are first described in detail. Careful attention is then devoted to protocols derived from the BLUE protocol – the FALLS protocol for diagnosis and management of acute circulatory failure, the Pink protocol for use in ARDS, and the SESAME protocol for use in cardiac arrest – and to the LUCI-FLR program, a means of answering clinical questions while reducing radiation exposure. Finally, the book discusses all the possible settings in which lung ultrasound can be used, discipline by discipline and condition by condition. Lung Ultrasound in the Critically Ill comprehensively explains how ultrasound can become the stethoscope of modern medicine. It is a superb complement to the author’s previous book, Whole Body Ultrasonography in the Critically Ill.

The most thorough and up-to-date review available for the Certified Emergency Nurse Exam Emergency Nursing Certification is a complete step-by-step guide that thoroughly covers everything you need to know to pass the Certified Emergency Nurse (CEN®) examination. Presented in short, easy-to-read chapters, the book includes subject-specific practice exams, allowing you to target your study and quickly identify weak areas. In addition, the Key Points and Knowledge Competencies features highlight what’s important to know for the exam and alerts you to the number of questions you should expect on every given topic. Everything you need to pass the Certified Emergency Nurse (CEN®) exam: Core areas of Emergency Nursing practice arranged by body system Valuable test-taking tips to help you perform your best on the exam Practice questions at the end of each chapter with multiple choice questions and complete answer explanation Content covers every topic you will see on the exam, including: Cardiovascular Emergences; Gastrointestinal Emergencies; Neurologic Emergencies; Maxillofacial and Ocular Emergencies; Orthopedic and Wound Emergencies; Respiratory Emergencies; Medical Emergencies and Communicable Diseases; Professional Issues

The most popular pocket reference in emergency nursing - now in a new edition! The Emergency & Critical Care Pocket Guide has been an essential resource for physicians, paramedics, and nurses for over a decade. The Pocket Guide consolidates critical information found in desk references into a convenient 3"x5" pocket-size format that is handy enough to take with you anywhere.

When your students need reliable, easy-to-find writing advice for college and beyond, EasyWriter with Exercises gives them what they need in a format that's easy to afford. Andrea Lunsford meets students where there are with friendly advice, research-based tips for solving the Top Twenty writing problems, and an emphasis on making effective rhetorical choices. The seventh edition puts even more emphasis on empowering students to become critical thinkers and ethical communicators with new advice about fact checking and evaluating sources and more advice about choosing language that builds common ground. In addition, the seventh edition offers more support for writing in a variety of disciplines and genres and more models of student writing to help students make effective choices in any context. EasyWriter with Exercises can be packaged at a significant discount with LaunchPad Solo for Lunsford Handbooks, which includes dozens of additional writing models as well as exercises, LearningCurve adaptive quizzing, videos, and podcasts.

This comprehensive, peer-reviewed resource sets the standard for nephrology nursing clinical practice. Written by experts in the field, the 2020 edition presents the newest information regarding kidney disease, its treatment, and the nursing care involved. New and updated content reflects current policy and terminology, including health information technology, collaboration with ESRD Networks, economics of ESRD reimbursement, nutritional needs of patients undergoing bariatric surgery, nutritional needs of pregnant patients, advance care planning, palliative care, and end-of-life care. The seventh edition contains almost 1,800 pages divided into two volumes, includes self-assessment questions, and provides more than 60 nursing continuing professional development contact hours and almost 12 pharmacology hours.

This edition features the exact same content as the traditional text in a convenient, three-hole- punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Elayn Martin-Gay's developmental math textbooks and video resources are motivated by her firm belief that every student can succeed. Martin-Gay's focus on the student shapes her clear, accessible writing, inspires her constant pedagogical innovations, and contributes to the popularity and effectiveness of her video resources (available separately). This revision of Martin-Gay's algebra series continues her focus on students and what they need to be successful.

"Experiencing the World's Religions" is a leading seller because it successfully addresses what a person should know about religions, and why. Michael Molloy provides an exceptionally clear and compelling account of the teaching of the world's religions. The text covers all the essential material and goes beyond traditional approaches to personally connect students with the vitality of the great religions.

For the first time, the social problem of untouchability, which is peculiar to India, is being studied mathematically. We have used Fuzzy Cognitive Maps and Neutrosophic Cognitive Maps to analyze the views of the revolutionary Periyar E. V. Ramasamy (17.09.1879 24.12.1973) who relentlessly worked for more than five decades to secure the rights of the oppressed people who were considered untouchables. This thought-provoking book will be of great interest to human rights activists, socio-scientists, historians, and above all, mathematicians. From UNESCO citation: Periyar, The Prophet of the New Age, The Socrates of South East Asia, Father of the Social reform Movement and Arch Enemy of Ignorance, Superstition, Meaningless Customs and Baseless Manners.

Building upon Scott Freeman's unique narrative style that incorporates the Socratic approach and draws you into thinking like a biologist, the Fourth Edition has been carefully refined to motivate and support a broader range of learners as they are introduced to new concepts and encouraged to develop and practice new skills. Each page of the book is designed in the spirit of active learning and instructional reinforcement, equipping novice learners with tools that help them advance in the course—from recognizing essential information in highlighted sections to demonstrating and applying their understanding of concepts in practice exercises that gradually build in difficulty. New to Freeman's MasteringBiology® online tutorial and assessment system are ten classic experiment tutorials and automatically-graded assignment options that are adapted directly from content and exercises in the book. Package Components: Biological Science, Fourth Edition MasteringBiology® with Pearson eText Student Access Kit

This uniquely effective guide helps readers master the 2020 National Electrical Code, using highly detailed, technically accurate illustrations to make even the most complex aspects of the code easier to understand and apply. An experienced author, educator and master electrician, Charles Miller translates the often vague, complicated language of the 2020 NEC into clear, simple instructions accompanied by helpful visuals. Topics are organized logically and presented in a convenient, modular format for easy reference, beginning with fundamental concepts and progressing to requirements for various dwellings, from one-family homes to multi-family housing, commercial locations and special occupancies. In addition, a convenient, modular format makes it easy to reference relevant information anytime. The Eighth Edition of this trusted resource provides detailed information on key updates and additions to the 2020 NEC, so readers can confidently master current industry standards and best practices. Comprehensive coverage, an innovative learning approach perfect for today's visual learners and accurate, up-to-date information make this valuable resource indispensable for beginning and experienced electricians, engineers and other electrical professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

0133828182 / 9780133828184 World Civilizations: The Global Experience, Volume 1, Plus NEW MyHistoryLab with eText -- Access Card Package Package consists of: 0205206549 / 9780205206544 NEW MyHistoryLab with Pearson eText -- Valuepack Access Card 0205986293 / 9780205986293 World Civilizations: The Global Experience, Volume 1 -- Presents a truly global history This global world history text emphasizes the major stages in societies' different interactions and assesses the development of major societies. Encompassing social, cultural, political and economic history, the authors examine key civilizations in world history. World Civilizations balances the discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact. MyHistoryLab is an integral part of the Stearns/Adas/Schwartz/Gilbert program. An integrated etext and and engaging resources bring history to life for students.

This second edition provides the core knowledge required to skillfully carry out all daily clinical responsibilities. Current, updated coverage examines human reproduction, genetics, high-risk pregnancies, labor and delivery risk, and much more.

Awarded second place in the 2018 AJN Book of the Year Awards in Medical-Surgical Nursing! Healthcare is evolving at an incredible pace and with it, the roles and responsibilities of the medical-surgical nurse. Ensure you are fully equipped to thrive and adapt in this ever-changing nursing environment with Ignatavicius, Workman, and Rebar's Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 9th Edition. This trendsetting text not only covers all essential adult health knowledge, but also reinforces the application, conceptual thinking, and clinical judgment skills that today's nurses need to stay one step ahead in delivering exceptional patient care, no matter the environment. As with previous "Iggy" editions, you'll find a unique collaborative care approach to adult health nursing, a thorough integration of QSEN competencies, extensive NCLEX® Exam preparation, and a direct, reader-friendly tone throughout the text. This ninth edition incorporates two emerging and complementary trends — the Core Competencies for Interprofessional Collaborative Practice and a more conceptual approach teaching and learning — areas that will ground you in how to think like a nurse and how to apply the knowledge you gain from the text to clinical practice. There are a lot of med-surg nursing texts out there, but there's only one that combines all the information, concepts, and on-the-job realities in a way that makes perfect sense: "Iggy!" Trendsetting QSEN integration emphasizes patient safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alerts, Critical Rescues, and Action Alerts. UNIQUE! Emphasis on clinical judgment helps you develop skills in clinical reasoning and clinical decision-making when applying concepts to clinical situations. Strong emphasis on NCLEX Exam preparation includes chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections organized by NCLEX Client Needs Categories, plus NCLEX Examination Challenge questions, with an answer key in the back of the book and on the Evolve companion website. Exceptionally readable content features shorter sentences, straightforward vocabulary, and a direct, reader-friendly writing style.

Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly

notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection. Offers an outline of all the major subject areas covered on the American Registry of Radiologic Technology exam in radiography. This book contains revision questions and answers and an employment preparation section.

Pharmacology, 7e by Hitner/Nagle is incredibly readable, with short chapters that link theory to practice; content that is focused on the need-to-know information to not overload the reader; excellent tables and features such as Patient Administration and Monitoring Boxes; and the most up-to-date drug information. This new edition features revised Learning Outcomes for each chapter, with a more streamlined chapter structure to reflect those updates. Chapter reviews have been revisited to more closely mirror typical exam formats, and a variety of additional exercises are available on Connect Plus. The full suite of instructor materials is available. Hitner 7e has Connect Plus, including LearnSmart: Pharmacology, SmartBook, body system and pharmacology animations, dosage calculations exercises, and more.

Contemporary Nursing, Issues, Trends, & Management, 6th Edition prepares you for the rapidly evolving world of health care with a comprehensive yet focused survey of nursing topics affecting practice, as well as the issues facing today's nurse managers and tomorrow's nurse leaders. Newly revised and updated, Barbara Cherry and Susan Jacob provide the most practical and balanced preparation for the issues, trends, and management topics you will encounter in practice. Content mapped to the AACN BSN Essentials emphasizes intraprofessional teams, cultural humility and sensitivity, cultural competence, and the CLAS standards. Vignettes at the beginning of each chapter put nursing history and practice into perspective, followed by Questions to Consider While Reading This Chapter that help you reflect on the Vignettes and prepare you for the material to follow. Case studies throughout the text challenge you to apply key concepts to real-world practice. Coverage of leadership and management in nursing prepares you to function effectively in management roles. Career management strategies include advice for making the transition from student to practitioner and tips on how to pass the NCLEX-RN® examination. Key terms, learning outcomes, and chapter overviews help you study more efficiently and effectively. Helpful websites and online resources provide ways to further explore each chapter topic. Coverage of nursing education brings you up to date on a wide range of topics, from the emergence of interactive learning strategies and e-learning technology, to the effects of the nursing shortage and our aging nursing population. Updated information on paying for health care in America, the Patient Protection and Affordable Care Act, and statistics on health insurance coverage in the United States helps you understand the history and reasons behind healthcare financing reform, the costs of healthcare, and current types of managed care plans. A new section on health information technology familiarizes you with how Electronic Health Records (EHRs), point-of-care technologies, and consumer health information could potentially impact the future of health care. Updated chapter on health policy and politics explores the effect of governmental roles, structures, and actions on health care policy and how you can get involved in political advocacy at the local, state, and federal level to help shape the U.S. health care system. The latest emergency preparedness and response guidelines from the Federal Emergency Management Agency (FEMA), the Centers for Disease Control (CDC), and the World Health Organization (WHO) prepare you for responding to natural and man-made disasters.

Intended to illustrate highlights and emphasize key points and strategies regarding subjects in the parent text. Uses dramatizations to demonstrate techniques for communicating with peers, co-workers, and colleagues and in resolving conflicts in the workplace.

Text only. This product does NOT include a Resource Central Access Code Card. To purchase the text with a Resource Central Access Code Card, please use ISBN: 0-13-281811-6 For more than 30 years, International Trauma Life Support has been at the forefront of trauma education at all levels of emergency care worldwide. This practical, hands-on training offers a complete reference covering all skills necessary for rapid assessment, resuscitation, stabilization, and transportation of the trauma patient. Updated with new photos and the latest approaches to the care of the trauma patient, this seventh edition conforms to the most recent AHA/ILCOR guidelines for artificial ventilation and CPR.

Gain the knowledge and skills you need to effectively care for adult patients. Medical-Surgical Nursing, 7th Edition covers both medical-surgical and psychiatric mental health conditions and disorders while building on the fundamentals of nursing. This essential text focuses on nursing roles, settings, trends, body systems and their disorders, and emergency and disaster management. Unique to this edition is the gerontologic nursing unit which addresses physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient - the primary patient group population you'll encounter in practice. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN® test plan content. With updated guidelines on diabetes, heart failure, asthma, COPD, and cancer treatment protocols, no other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. UNIQUE! Gerontologic nursing unit covers physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient, the primary patient group for whom LPNs provide care. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. Nursing care plans reinforce the nursing process and focus on critical thinking. Get Ready for the NCLEX-PN® Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX® Client Needs categories. Coordinated Care boxes highlight team approach to patient care, helping you to prioritize tasks and assign them safely to assistive personnel. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Cultural Considerations boxes discuss the importance of providing culturally competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Nutritional Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Complementary and Alternative Therapies focus on nontraditional therapies along with precautions and possible side effects. Key terms with phonetic pronunciations help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English before they enter clinical practice. NEW! Organization of disorders units consolidates anatomy and physiology, nursing assessment/data collection, and diagnostic tests into one chapter. NEW! Updated guidelines on diabetes, heart failure, asthma, COPD, and cancer provides you with latest treatment protocols.

The book summarizes key concepts and theories in trusted computing, e.g., TPM, TCM, mobile modules, chain of trust, trusted software stack etc, and discusses the configuration of trusted platforms and network connections. It also emphasizes the application of such technologies in practice, extending readers from computer science and information science researchers to industrial engineers.

Written by emergency nurses for emergency nurses, Sheehy's Emergency Nursing: Principles and Practice, 7th Edition covers the issues and procedures unique to the emergency department. This

comprehensive, evidence-based resource is written by the Emergency Nurses Association and includes developments and changes in clinical practice that are incorporated throughout the text. Considered the go-to guide for issues and procedures unique to the emergency department, the user-friendly format features more than 150 high-quality illustrations and tables that highlight essential concepts and offer quick access to vital information. New to this edition is updated key coverage including clinical fundamentals, treatment for trauma and medical-surgical emergencies, the foundations of emergency nursing practice, special populations, and more! Written by the Emergency Nurses Association, ensuring this is the most accurate information on the market. Most comprehensive and authoritative text available on emergency nursing. Logically organized, chapters are grouped into six sections for quick access to important content: Foundations of Emergency Nursing, Professional Practice, Clinical Foundations of Emergency Nursing, Major Trauma Emergencies, Medical and Surgical Emergencies, and Special Patient Populations. Tables and boxes highlight and summarize critical and essential information, while 150 illustrations help you to quickly identify and treat frequently encountered conditions. A separate unit on special patient populations covers topics such as child abuse, elder abuse, intimate partner violence, sexual assault, substance abuse and behavioral/pediatric/obstetrical emergencies. NEW! Coverage includes the latest on topical issues such as ethics, workplace violence, and geriatric trauma. UPDATED pain guidelines feature the latest pain indicators. UPDATED sepsis guidelines provide essential information on pathophysiology and diagnosis, with valuable guidelines for managing these patients. NEW! Fully revised information on communicable diseases. UPDATED Information on non-narcotic use for treatment of pain and increasing rates of addiction. NEW! Discussion of transgender patients covers how to work with this unique population. NEW! Full color photo insert

Written by emergency nurses for emergency nurses, this comprehensive, evidence-based resource covers the issues and procedures that are often unique to the emergency department. New developments and changes in clinical practice are incorporated throughout. The user-friendly format features more than 350 high-quality illustrations and 150 tables that highlight essential concepts and offer quick access to vital information. Key coverage includes clinical fundamentals, treatment for trauma and medical-surgical emergencies, the foundations of emergency nursing practice, and special populations. 58 contributors offer valuable insights from a broad range of clinical positions in rural, suburban, and urban areas. High-quality radiographs and other diagnostic images help you learn to identify common conditions — especially head trauma, fractures, and dislocations. Logically organized, chapters are grouped into six sections for quick access to important content: Foundations of Emergency Nursing, Professional Practice, Clinical Foundations of Emergency Nursing, Major Trauma Emergencies, Medical and Surgical Emergencies, and Special Patient Populations. Tables and boxes highlight and summarize critical information for at-a-glance reference. A separate unit on special patient populations covers topics such as child abuse, elder abuse, intimate partner violence, sexual assault, substance abuse and behavioral/pediatric/obstetrical emergencies. Priority nursing diagnoses are highlighted in a quick-reference appendix to help you focus on the most serious problems. Five new chapters bring you the most reliable, up-to-date information on these key topics: Management of the Critical Care Patient in the Emergency Department Family Presence During Resuscitation Forensic Nursing Nuclear, Biological, and Chemical Agents of Mass Destruction Influenza: Seasonal, Avian, and Pandemic Expanded coverage of shock and sepsis provides essential information on pathophysiology and diagnosis, with valuable guidelines for managing these patients. A detailed discussion of various types of triage systems and triage acuity ratings examines valid and reliable methods for differentiating between patients who require immediate treatment and those who can wait. Additional coverage of behavioral health emergencies includes new information on agitation, substance abuse, and suicide prevention.

Start here to master the concepts, technology, and procedures of critical care nursing! Introduction to Critical Care Nursing, 8th Edition prepares you to provide safe, effective, patient-centered care in a variety of high-acuity, progressive, and critical care settings. Evidence-based coverage includes realistic case studies and incorporates the latest advances in critical care. Disorders are conveniently organized by body system or special situation, and nursing management chapters include quick-reference nursing care plans. This clear, concise textbook will help you develop the knowledge and clinical reasoning skills needed for success in today's highly complex critical care environments. Critical Reasoning Activities are included throughout the text, promoting development of clinical nursing judgment to help you prepare for the Next-Generation NCLEX-RN® Exam. Emphasis on QSEN competencies enables you to gain the knowledge, skills, and attitudes needed to provide safe, high-quality health care in a variety of high acuity, progressive, and critical care settings. Evidence-Based Practice boxes illustrate how research evidence is used to address problems in patient care and includes nursing implications plus AACN's new system for Levels of Evidence: A, B, C, D, E, and M. Universal Collaborative Plan of Care for the Critically Ill Patient addresses key aspects of collaborative/interprofessional care that apply to virtually all critically ill patients. Individual Plans of Care prepare you for clinical practice by describing patient problems, patient outcomes, and nursing assessments and interventions with rationales. Case studies challenge you to apply concepts to the real world, testing your clinical nursing judgment by asking questions about patient-specific cases with lab results. Clinical Alerts highlight potential problems and concerns to improve patient safety and clinical care. Laboratory Alerts emphasize the importance of laboratory test results to critical care nursing. Medication tables show the actions/usages, indications, dosages/routes, side effects, and nursing implications of medications commonly used in critical care settings. Coverage of cardiac assistive devices includes the ECMO device for extracorporeal life support, as well as other small, portable, bedside cardiac-assistive devices. Hemodynamic monitoring content now emphasizes the noninvasive methods of hemodynamic monitoring that are becoming more prominent. Coverage of infection control addresses the QSEN safety competency and helps provide patient protection against the growing threat of drug-resistant infections. Nearly 300 full-color photographs and drawings visually clarify key concepts and equipment for better understanding of today's complex critical care environment.

With over 136.3 million patient visits to the Emergency Department, emergency nurses are not only in high demand but a continuously growing segment of the nursing profession. Emergency nurses find themselves in high-risk, faced-paced, physically and emotionally demanding, and difficult situations on a constant bases, which many nurses will describe as both stressful and surprisingly, extremely fulfilling. But there are so many variables, moving pieces, and different roles when it comes to emergency nurses. How do you begin to understand or know if this is the right career for you when there is so much to know? Emergency Nurse: The Profession, the Pathway, and the Practice provides students, new nurses, and existing emergency nurses the tools and information they need to pursue and sustain a successful career in emergency healthcare. Author Jeff Solheim informs readers about the career opportunities that exist within emergency nursing, introduces nurses to the emergency department and how it differs from other healthcare settings, and explains the challenges and patient populations that emergency nurses will face on a regular basis. Filled with fun facts, notes, and practical advice, this book is a fantastic resource for a nurse eager to learn more about emergency care.

This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of

unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

Tanks in the Vietnam War. MOUNTED COMBAT. That element of tactical operations which involves tactical maneuver forces fighting while mounted in either ground combat vehicles or armed Army aircraft as the principal means of accomplishing a land force mission. Mounted combat is normally conducted with a force that includes tanks, armored cavalry, air cavalry, and mechanized units supported on the battlefield by mobile artillery and engineers and by a mobile combat service support system

To succeed on the Civil PE exam's transportation depth section, you'll need to know the exam subject matter and how to efficiently solve related problems. The Transportation Depth Reference Manual provides a concise but thorough review of the exam topics and associated equations.
