"I want to be healthy and fit 52 weeks of the year, but that doesn't mean I have to be perfect every day. This philosophy is a year-round common-sense approach to health and fitness that involves doing your best most of the time—and by that I don't mean being naughty for three days and good for four. I mean doing your absolute best most of the time during every week, 52 weeks of the year."—Carrie Underwood Carrie Underwood believes that fitness is a lifelong journey. She wasn't born with the toned arms and strong legs that fans know her for. Like all of us, she has to work hard every day to look the way that she does! In FIND YOUR PATH she shares her secrets with readers, with the ultimate goal of being the strongest version of themselves, and looking as good as they feel. Carrie's book will share secrets for fitting diet and exercise into a packed routine—she's not only a multi-Platinum singer, she's a businesswoman and busy mom with two young children. Based on her own active lifestyle, diet, and workouts, FIND YOUR PATH is packed with meal plans, recipes, weekly workout programs, and guidelines for keeping a weekly food and workout journal. It also introduces readers to Carrie's signature Fit52 workout, which involves a deck of cards and exercises that can be done at home—and it sets her fans on a path to sustainable health and fitness for life. Fit52 begins with embracing the "Pleasure Principle" in eating, making healthy swaps in your favorite recipes, and embracing a long view approach to health—so that a cheat a day won't derail you. Throughout the book, Carrie shares her personal journey towards optimal health, from her passion for sports as a kid, to the pressure to look perfect and fit the mold as she launched her career after winning American Idol, to eventually discovering the importance of balance and the meaning of true health. For Carrie, being fit isn't about crash diets or a workout routine that you're going to dread. It's about healthy choices and simple meals that you can put together from the ingredients in your local grocery store, and making the time, every day, to move, to love your body, and to be the best version of yourself.

Do you ever feel like a hamster, spinning on a wheel in an endless loop and getting nowhere when it comes to your health and fitness? Are you working out regularly and cutting calories but seeing no real improvements? Does it feel like you will never lose those last 10 or 20 pounds? Or do you feel as if you simply don't have the time required to lose the fat and get into shape?

Imagine if you could have the blueprint for the most efficient form of exercise to keep your body healthy and fit and an eating plan to satisfy hunger, taste, and health. Well, now you can. The best part? It will only require 15 minutes of exercise, twice a week, paired with a controlled-carb diet, and on the average, you will lose 10 pounds of fat within five weeks. It's hard to believe, but it works—and 15 Minutes to Fitness:Dr. Ben's SMaRT plan for total Fitness will not only show you how to do it but also explain why it

works. If this sounds like just another “new exercise secret,” please be assured that it is most certainly not. The foundation of this program is based on years of study, observation, and practice, and it has delivered real, measurable results in the overwhelming majority of those who have tried it. Dr. Vincent “Ben” Bocchicchio has spent the last 40 years in the fitness and health field, and as he approaches 70, people are still shocked to hear that he only spends 14 minutes twice a week on working out. But it’s true. With only 7 percent body fat, he is often asked what the secret is and if there’s a “magic bullet.” The answer would be that the magic bullet is knowledge. And now with this book you will understand why genetically our bodies require simple and limited exercise exposure and how you can follow this optimal pattern yourself. The fact is that as humans we are hard-wired to exercise our bodies in very specific ways to reap the highest level of health benefits. I will provide the simple scientific argument for why my combination of high intensity exercise and controlled carbohydrate eating is the most effective means for burning fat, so that you can better understand exactly why this works. Exercise and diet are the two most powerful tools available for attaining high levels of health and function, and 15 Minutes to Fitness will show you just how little it actually takes to achieve a maximum response. Chained up in the hold of a French warship, Lusignan's only hope of escape rests with his captor - Captain Paul. A man with a mysterious past, Captain Paul is transporting Lusignan to exile in the West Indies. Little does he know that his mission is a sham. His prisoner is an innocent man, framed because he fell in love with a Count's daughter. Once the truth is revealed, Paul and Lusignan return to France, determined to seek justice. Inspired by the real life of American Revolutionary War hero John Paul Jones, "Captain Paul" is a rollicking melodrama, packed with action and romance. A fine precursor to Dumas' later classics, it's especially recommended for fans of naval adventures, like C.S. Forester's "Hornblower" series. Alexandre Dumas (1802 - 1870) was a hugely popular 19th Century French writer. Born of mixed French and Haitian heritage, Dumas first rose to prominence in Paris as a playwright, but later gained international fame with his historical fiction. Often co-authored with other writers, these stories wove together swashbuckling adventure, romance, and real events from France's past. Among the best known are "The Three Musketeers", and its sequels "Twenty Years After", and "Le Vicomte de Bragelonne: Ten Years Later". Set across four decades, this trilogy follows the rise of the dashing D'Artagnan—from hot-headed soldier to trusted captain under Louis XIV. Dumas' other novels include "The Count of Monte Cristo" and "The Black Tulip". His works have been adapted into more than 200 movies, including The Man in the Iron Mask starring Leonardo DiCaprio.

Master Pilates trainer Christine Binnendyk shows over-40-year-olds how to slow down the aging process - and jettison pain patterns - with this safe, simplified, and fully illustrated approach to Pilates. In just 15 minutes a day, with no equipment at all, the Ageless Pilates system retrains the body past pain and discomfort, regardless of age or current condition. Binnendyk has revolutionized the practice of Pilates with an easy-to-learn ABC system that creates youthful energy and mobility starting with the very first lesson. The ABCs - Anchor Points, Body Geometry and Comfort Choices - quickly become intuitive, allowing the system to carry from the exercise mat into everyday life. Anchor Points provide stability and safety for every position and movement. Body Geometry creates an efficient structure that works just the right amount to get results, but not so much that it causes undue wear and tear. Comfort Options offer the flexibility to fine tune every exercise based on how the body feels right in this moment. When combined, these concepts transform body mechanics and movement patterns creating a body that is strong and limber,

comfortable and pain-free. Bodies of all ages respond with new comfortable posture, loose and easy movement patterns, and a renewed sense of energy. Each of the 23 Lessons features options that make the exercises accessible to all levels, increasing confidence, strength and flexibility. Master these in 15-minutes a day, then move on to the 18 Workouts for ongoing practice and continued improvement. Whether you're simply looking for a sleek, ageless body, or you're working with an ailment like low-back pain, arthritis, low bone density or diminished mobility, you'll find lessons and workouts designed specifically for you.

In *The New Rules of Lifting for Women*, authors Lou Schuler, Cassandra Forsythe and Alwyn Cosgrove present a comprehensive strength, conditioning and nutrition plan destined to revolutionize the way women work out. All the latest studies prove that strength training, not aerobics, provides the key to losing fat and building a fit, strong body. This book refutes the misconception that women will "bulk up" if they lift heavy weights. Nonsense! It's tough enough for men to pack on muscle, and they have much more of the hormone necessary to build muscle: natural testosterone. Muscles need to be strengthened to achieve a lean, healthy look. Properly conditioned muscles increase metabolism and promote weight loss -- it's that simple. The program demands that women put down the "Barbie" weights, step away from the treadmill and begin a strength and conditioning regime for the natural athlete in every woman. *The New Rules of Lifting for Women* will change the way women see fitness, nutrition and their own bodies.
