

Uniform Marriage And Divorce Act Uniform Law 707795

Today's wide-ranging family law courses challenge students to assimilate a vast array of material. Make sure your students Understand The scope and depth of the subject by requiring or recommending Family Law: Examples & Explanations . This new paperback simplifies study by stressing clarity and coherence: straightforward presentation, with topics organized into discrete chapters to give quick access to specific principles comprehensive coverage puts family law in perspective and includes subjects not usually found in study guides, such as domestic violence, mediation, and professional responsibility focuses on what the reader wants to know, with clear explanations of difficult areas provides citations for important cases and applicable statutes to serve as a valuable research tool. When you examine this powerful study guide, be sure to notice: the authors use of the proven and popular Examples & Explanations style to reinforce basic knowledge and extend the application of that knowledge to a variety of situations - students must exercise higher level thinking skills, rather than rote recall relevant social science research that supplies an interdisciplinary perspective the text includes discussions of the Uniform Marriage and Divorce Act, relevant federal statutes, And The ALI Principles of the Law of Family Dissolution Family Law: Examples & Explanations is the study guide instructors can require or recommend with confidence.

California passed the first pure no-fault divorce law in the United States and some form of no-fault has been adopted in every state - but the divorce revolution it launched remains unfinished. Now specialists in the field have written a book that appraises the situation today, explains how we got where we are, and explores legislative options for the future. Our first series of guides. For those in law school facing loads of information that culminates in the bar exam. 2-page laminated guide includes: • Pre-Marital Issues - courtship - gifts in contemplation of marriage • Marital Agreements - antenuptial - postnuptial - informal living arrangements • Marriage - Uniform Marriage & Divorce Act - formal requirements - conflict of laws - common-law marriage - putative marriage - subsequent marriages - change of name • Issues within Marriage - general legal issues - procreation - contraception - abortion - illegitimacy • Termination of Marriage - divorce - annulment - separation agreements - adoption - assisted pregnancy - child support - children - parental rights - child custody

"The new edition contains added materials on complex litigation and conflicts in cyberspace, federal state conflicts and the extraterritorial reach of the Constitution, incorporating recently decided Supreme Court cases. In addition, there is expanded treatment of recent family law issues, including: interstate dissolution, child custody, adoption and same-sex couples. This edition continues the tradition of organizing the teaching of conflicts around the broad themes reflected in different intellectual approaches to the problem."--Publisher's website.

The new edition of the popular Conflicts book (formerly Currie, Kay, Kramer and Roosevelt) contains two new main cases for personal jurisdiction, one for extraterritorial application of US law, and one for the New York choice of law approach. In addition, the latest edition features revised materials on the European legal approach to include recent codifications in the Rome I and II conventions. This edition

continues the tradition of organizing the teaching of conflicts around the broad themes reflected in different intellectual approaches to the problem.

Written by an interdisciplinary group comprised of lawyers, judges, psychologists, and adolescent and child psychiatrists, this book identifies and examines the major legal and mental health issues confronted in post-divorce custody and visitation litigation. It examines state legislation and judicial doctrine as well as reform efforts such as the Uniform Marriage and Divorce Act and the American Law Institute's Principles of the Law of Family Dissolution. As the authors themselves suggest, 'a great many important and difficult divorce-custody legal and psychological issues have not been objectively and thoroughly explored in the literature and in courtrooms ? indeed, many of them have been the subjects of misleading and sometimes ignorant reports and testimony ? and judges and children and their parents have been the losers.' The book has been designed to provide a sort of glossary ? an objective description and analysis ? of the underlying mental health aspects of legal issues and mental health professionals' concerns about how those issues are approached and resolved in divorce-custody cases. The book will be useful to practicing lawyers, mental health professionals and judges.

This edition retains the great features that made it a dependable source for students in its First Edition: - offers clear organization and comprehensive coverage of material - includes topics such as alternative dispute resolution, domestic violence, and professional responsibility - breaks family law into distinct, digestible topics, unlike other books of its nature - distinguishes maintenance from property division and custody from modification of custody - challenges students with cutting edge issues, as authors integrate firsthand accounts of material with progressive practitioners to discern new trends in family law and family law practice The Second Edition also includes an abundance of updated & timely information, including: - discussion of innovative new procedures and professional roles, including: i. Parenting coordinators ii. Neutral experts iii. Collaborative law practice - additional emphasis on same-sex marriage, cohabitation, child support, paternity, and alternative dispute resolution - almost entirely new examples and explanations, most of which are based on actual reported cases - additional focus on abortion and other constitutional issues

Dissolution is a new word for divorce. In *Dissolution*, Riane Eisler discusses the fundamental societal and litigious changes of divorce from an action that was until recently an unacceptable social phenomenon to what is now commonplace. The book compares the old divorce laws based on marital fault with new "no-fault" divorce laws, an analysis of the laws and institutions of marriage and divorce, and alternatives (social and litigious) to marriage and divorce. Quotes about *Dissolution*: "Dissolution is must reading for every woman...whether she already believes in equal rights for all beings or belongs to the Phyllis Schlafly school of thought. Riane Eisler's work is the most definitive yet on the female species and her rights." – Rona Barrett, *Good Morning America*, ABC-TV "Only those of us who have gone through divorce without your book can fully appreciate its value. Its factual information gives strength. Its innate empathy comforts. Its totality is an integral part of the body of great feminist writings." – Frances Lear, President, *Lear Purvis*
