Perfect for fans of Jenny Han and Sarah Dessen, and praised as “an intense rush of rebellion and romance” by #1 New York Times bestselling author Stephanie Garber, this romantic and layered Own Voices debut from Abigail Hing Wen is a dazzling, fun-filled romp. “Our cousins have done this program,” Sophie whispers. “Best kept secret. Zero supervision.” And just like that, Ever Wong’s summer takes an unexpected turn. Gone is Chien Tan, the strict educational program in Taiwan that Ever was expecting. In its place, she finds Loveboat: a summer-long free-for-all where hookups abound, adults turn a blind eye, snake-blood sake flows abundantly, and the nightlife runs nonstop. But not every student is quite what they seem: Ever is working toward becoming a doctor but nurses a secret passion for dance. Rick Woo is the Yale-bound child prodigy bane of Ever’s existence whose perfection hides a secret. Boy-crazy, fashion-obsessed Sophie Ha turns out to have more to her than meets the eye. And under sexy Xavier Yeh’s shell is buried a shameful truth he’ll never admit. When these students’ lives collide, it’s guaranteed to be a summer Ever will never forget. “A unique story from an exciting and authentic new voice.” —Sabaah Tahir, #1 New York Times bestselling author of *An Ember in the Ashes* “Equal parts surprising, original, and intelligent. An intense rush of rebellion and romance.” —Stephanie Garber, #1 New York Times bestselling author of *Caraval* “Fresh as a first kiss.” —Stacey Lee, award-winning author of *Outrun the Moon* “Fresh, fun, heartfelt, and totally addictive, a story about finding your place—and your people—where you least expected.” —Kelly Loy Gilbert, author of the William C. Morris Award finalist *Conviction*

This book focuses on teaching English as a foreign language to children aged 7-12. This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

"Garber's gorgeous novel combines the wonder of a Hogwarts-style magic school with the Twilight-esque dynamics of a hidden magical species that has strict rules about interacting with the human world." - BOOKLIST (Starred Review) Some people ARE illegal. Lobizonas do NOT exist. Both of these statements are false. Manuela Azul has been crammed into an existence that feels too small for her. As an undocumented immigrant who's on the run from her father's Argentine crime-family, Manu is confined to a small apartment and a small life in Miami, Florida. Until Manu's protective bubble is shattered. Her surrogate grandmother is attacked, lifelong lies are exposed, and her mother is arrested by ICE. Without a home, without answers, and finally without shackles, Manu investigates the only clue she has about her past—a mysterious "Z" emblem—which leads her to a secret world buried within our own. A world connected to her dead father and his criminal past. A world straight out of Argentine folklore, where the seventh consecutive daughter is born a bruja and the seventh consecutive son is a lobizón, a werewolf. A world where her unusual eyes allow her to belong. As Manu uncovers her own story and traces her real heritage all the way back to a cursed city in Argentina, she learns it's not just her U.S. residency that's illegal. . . .it's her entire existence. "With vivid characters that take on a life of their own, beautiful details that peel back the curtain on Romina's Argentinian heritage, and cutting prose Romina Garber crafts a timely tale of identity and adventure."—Tomi Adeyemi New York Times bestselling author of Children of Blood and Bone

English language education (ELE) has been steadily increasing. Consequently, the nature of ELE has changed drastically in the last decade. This has not only brought about a number of changes in the way English is taught and learnt, but it has also led to various innovative practices around the world. As a result, this edited book aims to shed light on the new theoretical and methodological developments in the field of ELE as well as the major issues and difficulties faced by practitioners in different parts of the globe. One very important variable that the book takes into account is the role that English already plays in a particular society since this may affect the views that teachers and students hold of the language. This in turn can significantly influence the way English is taught and learnt in given political, economic and socio-cultural settings. The purpose of this book is therefore to provide a comprehensive overview of the pedagogical methods, policies and problems that underlie English language education in ten different regions across the world, including: the USA, Canada, the UK, Australia, New Zealand, India, Singapore, Japan, China and Hong Kong. In doing so, the different chapters in the book emphasize the importance of responding to linguistic and other forms of diversity in order to develop English language education in a globalized world. This book will be useful for teachers and students of English language, for English language curriculum and materials developers, and for those involved in educational policy-making and language acquisition research. Written by experts in the field, the range of content covered in the book's chapters will also help policy-makers, researchers and practitioners develop effective English language education practices and policies, and propose solutions to emerging issues in English language teaching and learning in different environments around the world. The newly-developed arguments and concerns pertaining to English language education will serve as future reference for professionals interested in this area of expertise.

On August 9, 2014, Michael Brown, an unarmed African American high school senior, was shot by Officer Darren Wilson in Ferguson, Missouri. For months afterward, protestors took to the streets demanding justice, testifying to the racist and exploitative police department and court system, and connecting the shooting of Brown with the deaths of Trayvon Martin, Eric Garner, and other young black men at the hands of police across the country. In the wake of these protests, the Department of Justice launched a six-month investigation, resulting in a report that Colorlines characterizes as "so caustic it reads like an Onion article" and laying bare what the Huffington Post calls "a totalizing police regime beyond any of Kafka's ghastliest nightmares." Among the report's findings are that the Ferguson Police Department "Engages in a Pattern of Unconstitutional Stops and Arrests in Violation of the Fourth Amendment," "Detain[s] People Without Reasonable Suspicion and Arrest[s] People Without Probable Cause," "Engages in a Pattern of First Amendment Violations," "Engages in a Pattern of Excessive Force," and "Erode[s] Community Trust, Especially Among Ferguson's African-American Residents." Contextualized here in a substantial introduction by renowned legal scholar and former NAACP Legal Defense and Educational Fund president Theodore M. Shaw, The Ferguson Report is a sad, sobering, and important document, providing a snapshot of American law enforcement at the start of the twenty-first century, with resonance far beyond one small town in Missouri.

Every Man in His Humour A Comedy Life Intermediate Teachers Book National Geographic Learning

Declared "the best survival book in a decade" by Outside Magazine, 438 Days is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in modern times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, 438 Days is not only "an intense, immensely absorbing read" (Booklist) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea.

"Since its earliest days, flight has been about pushing the limits of technology and, in many cases, pushing the limits of human endurance. The human body can be the limiting factor in the design of aircraft and spacecraft. Humans cannot survive unaided at high altitudes. There have been a number of books written on the subject of spacesuits, but the literature on the high-altitude pressure suits is lacking. This volume provides a high-level summary of the technological development and operational use of partial- and full-pressure suits, from the earliest models to the current high altitude, full-

pressure suits used for modern aviation, as well as those that were used for launch and entry on the Space Shuttle. The goal of this work is to provide a resource on the technology for suits designed to keep humans alive at the edge of space."--NTRS Web site.
