The classic personal account of Watson and Crick's groundbreaking discovery of the structure of DNA, now with an introduction by Sylvia Nasar, author of *A Beautiful Mind*. By identifying the structure of DNA, the molecule of life, Francis Crick and James Watson revolutionized biochemistry and won themselves a Nobel Prize. At the time, Watson was only twenty-four, a young scientist hungry to make his mark. His uncompromisingly honest account of the heady days of their thrilling sprint against other world-class researchers to solve one of science's greatest mysteries gives a dazzlingly clear picture of a world of brilliant scientists with great gifts, very human ambitions, and bitter rivalries. With humility unspoiled by false modesty, Watson relates his and Crick's desperate efforts to beat Linus Pauling to the Holy Grail of life sciences, the identification of the basic building block of life. Never has a scientist been so truthful in capturing in words the flavor of his work.

"La frontera"...I heard it for the first time back in the late 1940s when Papa and Mama told me and Roberto, my older brother, that someday we would take a long trip north, cross la frontera, enter California, and leave our poverty behind." So begins this honest and powerful account of a family's journey to the fields of California -- to a life of constant moving, from strawberry fields to cotton fields, from tent cities to one-room shacks, from picking grapes to topping carrots and thinning lettuce. Seen through the eyes of a boy who longs for an education and the right to call one place home, this is a story of survival, faith, and hope. It is a journey that will open readers' hearts and minds.

A New York Times Outstanding Book for young adult readers, this biography of the famed Underground Railroad abolitionist is a lesson in valor and justice. Born into slavery, Harriet Tubman knew the thirst for freedom. Inspired by rumors of an "underground railroad" that carried slaves to liberation, she dreamed of escaping the nightmarish existence of the Southern plantations and choosing a life of her own making. But after she finally did escape, Tubman made a decision born of profound courage and moral conviction: to go back and help those she'd left behind. As an activist on the Underground Railroad, a series of safe houses running from South to North and eventually into Canada, Tubman delivered more than three hundred souls to freedom. She became an insidious threat to the Southern establishment—and a symbol of hope to slaves everywhere. In this "well-written and moving life of the 'Moses of her people'" (*The Horn Book*), an acclaimed author makes vivid and accessible the life of a

national hero, soon to be immortalized on the twenty-dollar bill. This intimate portrait follows Tubman on her journey from bondage to freedom, from childhood to the frontlines of the abolition movement and even the Civil War. In addition to being named a New York Times Outstanding Book, Harriet Tubman: Conductor on the Underground Railroad was also selected as an American Library Association Notable Book.
