Daily Warm-Up Exercises for Jazz Ensemble was written as a series of studies to aid the jazz group in performance. It is published in two volumes, Volume I for the young or beginning ensemble, and Volume II for the more advanced group. All musical groups need a short period of time during the beginning of a rehearsal to reacquaint their body functions with the needs of making music. Even though individuals warm-up by themselves in preparation for performance, the group as a whole needs to experience basic musical qualities -- blend, balance, precision, intonation -- together to ensure good ensemble performance. Hopefully, this series will provide the jazz ensemble with materials organized in a logical manner to accomplish these goals.

In this pathbreaking book, Allen Forte uses modern analytical procedures to explore the large repertoire of beautiful love songs written during the heyday of American musical theater, the Big Bands, and Tin Pan Alley. Covering the work of such songwriters as Jerome Kern, Irving Berlin, Cole Porter,

George Gershwin, Richard Rodgers, and Harold Arlen, he seeks to illuminate this extraordinary music indigenous to America by revealing its deeper organizational characteristics. In so doing, he aims to establish it as a unique corpus of music that deserves more intensive study and appreciation by scholars and connoisseurs in the broader fields of American popular music and jazz. Expressing much of the traditional tonality associated with European music in the eighteenth and nineteenth centuries, the love songs of the Golden Age are shown to draw on a rich variety of elements--popular harmony, idiomatic lyric-writing, and Afro-American dance rhythms. His analyses of such songs as "Embraceable You" or "Yesterdays" in particular exemplify his ability to convey the sublime, unpretentious simplicity of this great music.

The ballad is an enduring and universal literary genre. In this book, first published in 1972, David Buchan is concerned to establish the nature of a ballad and of the people who produced it through a study of the regional tradition of the Northeast of Scotland, the most fertile ballad area in Britain. His account of this tradition has two parallel aims, one specifically literary – to investigate the ballad as oral literature – and one broadly ethnographic – to set the regional tradition in its social context. Dr Buchan applies the interesting and important work which has recently been done on oral tradition in Europe on the relationship of the ballad to society to his study of this particular part of Scotland. He examines a nonliterate society to discover what factors besides nonliteracy helped foster its ballad tradition. He analyses the processes of composition and transmission in the oral ballad, and considers the changes which removed nonliteracy, altered social patterns, and seriously affected the ballad tradition. By demonstrating how people who could neither read nor write were able to compose literature of a high order,

His book is also a valuable study in social history of this culturally distinct region, the Northeast of Scotland. A book on English- Text Book. The ebook version does not contain CD.
