In the deep woods of East Texas, Henry supports his family by selling bootleg liquor. It's all he can do to keep his compassionate but ailing mother and his stepfather--a fanatical grassroots minister with a bruising rhetoric--from ruin. But they have no idea they've become the obsession of the girl in the woods. Abandoned and nearly feral, Eve has been watching them, seduced by the notion of family--something she's known only in the most brutal sense. Soon she can't resist the temptation to get close. Where Henry's mother sees a poor girl in need, his father sees only wickedness. When Henry forges an unexpected bond with Eve, he believes he might be able to save her. He doesn't know how wrong he is. Eve is about to take charge of her own destiny--and that of Henry's family. As both their worlds spin violently out of control, Henry must make an impossible choice: protect the broken young woman who's claimed a piece of his soul, or put everyone he loves at risk in order to do the right thing.

Based on Deborah Doucette's personal experience raising a grandchild, this book examines the myriad factors involved in kinship care, specifically when grandparents begin to raise their grandchildren. Filled with true stories from people who have raised their children's children, and including advice from Dr. Jeffrey R. LaCure throughout, this family-focused book looks at this fairly common relationship from all sides. Now in its second edition, *Raising Our Children's Children* has been updated to include recent social developments, such as the trend toward multigenerational family living where children, their parents, and their grandparents all live under one roof.

This stunning companion to Kate Atkinson's #1 bestseller *Life After Life*, "one of the best novels I've read this century" (Gillian Flynn), follows Ursula's brother Teddy as he navigates an unknown future after a perilous war. "He had been reconciled to death during the war and then suddenly the war was over and there was a next day and a next day. Part of him never adjusted to having a future." Kate Atkinson's dazzling *Life After Life* explored the possibility of infinite chances and the power of choices, following Ursula Todd as she lived through the turbulent events of the last century over and over again. *A God in Ruins* tells the dramatic story of the 20th Century through Ursula's beloved younger brother Teddy -- would-be poet, heroic pilot, husband, father, and grandfather -- as he navigates the perils and progress of a rapidly changing world. After all that Teddy endures in battle, his greatest challenge is living in a future he never expected to have. An ingenious and moving exploration of one ordinary man's path through extraordinary times, *A God in Ruins* proves once again that Kate Atkinson is one of the finest novelists of our age.

*Ghosts of the Unremembered Past* is a suspenseful story of a young boy growing up in a family shaped by intrusion, loss, and tragedy and of that same boy, as a young adult, seeking help from a gifted psychoanalyst. The juxtaposition of the protagonist's childhood and early adulthood highlights the crippling effects of emotional isolation and the transformative power of relational connection. It is, above all, a story of hope, though sobered by recognition of the inevitability of the pain and loss that accompanies the process of remembering the past so that its ghosts may be finally laid to rest.

**NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER •** An audacious, darkly glittering novel set in the eerie days of civilization's collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Now an original series on HBO Max. Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of *King Lear*. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves *The Traveling Symphony*, and they have dedicated themselves to keeping the remnants of art and humanity

alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. *The Unremembered Places* is a poignant and enthralling take on some of Scotland's most fascinating, yet overlooked, places of interest. Shortlisted for the The Great Outdoors Awards - Outdoor Book of the Year 2020 and the Boardman Tasker Award for Mountain Literature 2020. A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

It seems it was the right choice—she and Austin are still together, and Kennedy is now the editor in chief of the school's award-winning newspaper. But then Kennedy's world is shattered one evening when she walks in on Austin kissing her best friend, and she wonders if maybe her life would have been better if she'd made the other choice. As fate would have it, she's about to find out . . . The very next day, Kennedy falls and hits her head and mysteriously awakes as a student at the Windsor Academy. And not just any student: Kennedy is at the top of her class, she's popular, she has the coolest best friend around, and she's practically a shoo-in for Columbia University. But as she navigates her new world, she starts to wonder whether this alternate version of herself really is as happy as everyone seems to believe. Is it possible this Kennedy is harboring secrets and regrets of her own? A work of fantasy, *I Who Have Never Known Men* is the haunting and unforgettable account of

a near future on a barren earth where women are kept in underground cages guarded by uniformed groups of men. It is narrated by the youngest of the women, the only one with no memory of what the world was like before the cages, who must teach herself, without books or sexual contact, the essential human emotions of longing, loving, learning, companionship, and dying. Part thriller, part mystery, *I Who Have Never Known Men* shows us the power of one person without memories to reinvent herself piece by piece, emotion by emotion, in the process teaching us much about what it means to be human.

Millennia after a god is condemned to live among the hateful creatures he has created, the magical veil entrapping the god and his monsters weakens, compelling bow hunter Than Junell and his companions to undertake a dangerous and secret journey to protect their people. Poems—specifically romantic poems, such as those by Thomas Gray, William Wordsworth, and John Keats—link what goes unremembered in our reading to ethics. In "Tintern Abbey," for example, Wordsworth finds in "little . . . unremembered . . . acts" the chance to hear the "still, sad music of humanity." In *The Poetics of Unremembered Acts*, Brian McGrath shows that poetry's capacity to address its reader stages an ethical dilemma of continued importance. Situating romantic poems in relation to Enlightenment debate over how to teach reading, specifically debate about the role of poetry in the process of learning to read, *The Poetics of Unremembered Acts* develops an alternative understanding of poetry's role in education. McGrath also explores the ways poetry makes ethics possible through its capacity to pass along what we do not remember and cannot know about our reading.

The gods who created this world have abandoned it. In their mercy, however, they chained the rogue god--and the monstrous creatures he created to plague mortalkind--in the vast and inhospitable wasteland of the Bourne. The magical Veil that contains them has protected humankind for millennia and the monsters are little more than tales told to frighten children. But the Veil has become weak and creatures of Nightmare have come through. To fight them, the races of men must form a great alliance to try and stop the creatures. But there is dissent. One king won't answer the call, his pride blinding him even to the poison in his own court. Another would see Convocation fail for his own political advantage. And still others believe Convocation is not enough. Some turn to the talents of the Sheason, who can shape the very essence of the world to their will. But their order is divided, on the brink of collapse. Tahn Junell remembers friends who despaired in a place left barren by war. One of the few who have actually faced the unspeakable horde in battle, Tahn sees something else at work and wonders about the nature of the creatures on the other side of the Veil. He chooses to go to a place of his youth, a place of science, daring to think he can find a way to prevent slaughter, prevent war. And his choices may reshape a world . . . . The second title in the *Vault of Heaven* series, Peter Orullian's *Trial of Intentions* is a mesmerizing fantasy epic that turns the conventions of the genre on its head

PLEASE READ THIS! MY LIFE DEPENDS ON IT! Okay, maybe that was a bit melodramatic, but I'm sorry, I'm feeling a bit melodramatic at the moment. Here's the deal. My name is Brooklyn Pierce, I'm fifteen years old, and I am decisionally challenged. Seriously, I can't remember the last good decision I made. I can remember plenty of crappy ones though. Including that party I threw when my parents were out of town that accidentally burned down a model home. Yeah, not my finest moment, for sure. But see, that's why I started a blog. To enlist readers to make my decisions for me. That's right. I gave up. Threw in the towel. I let someone else decide which book I read for English. And whether or not I accepted an invitation to join the debate team from that cute-in-a-dorky-sort-of-way guy who gave me the Heimlich maneuver in the cafeteria. (Note to self: chew the melon before swallowing it.) I even let them decide who I dated! Well, it turns out there are some things in life you simply can't

choose or have chosen for you—like who you fall in love with. And now everything's more screwed up than ever. But don't take my word for it. Read the book and decide for yourself. You'll laugh, you'll cry, you'll scream in frustration. Or maybe that's just me. After all, it's my life. An introduction to the Bible offers background material on the text, its history, and the Bible world, summaries of each section and book, and information on civilization in Biblical times and the historical context.

So many secrets are buried within these compound walls. I used to be one of those secrets. After returning to the Diotech compound and undergoing an experimental new memory alteration, Seraphina is now a loyal, obedient servant to Dr. Alixter and the powerful company that created her. Happy and in love with Kaelen, another scientifically-enhanced human designed to be her perfect match, Sera's history with a boy named Zen is just a distant memory from a rebellious past she longs to forget. But as Sera and Kaelen embark on a nationwide tour to promote Diotech's new product line—a collection of controversial genetic modifications available to the public—Sera's mind starts to rebel. She can't stop the memories of Zen from creeping back in. As more secrets are revealed, more enemies are uncovered, and the reality of a Diotech-controlled world grows closer every day, Sera will have to choose where her true loyalties lie, but it's a choice that may cost her everything she's ever loved.

The *Unremembered Dead* examines the motif of non-burial in the Hebrew Bible in its ancient Near Eastern contexts. Mansen proposes a new typology for analyzing references to post-mortem abuse and demonstrates the motif's variability of form and range of functions in both biblical and extra-biblical texts. Investigating the social and literary contexts in which the non-burial motif appears, Mansen establishes how gruesome threats functioned as deadly literary weapons within the biblical authors' ideologically-shaped rhetorical arsenal.

*Ourselves*, the fourth volume of Charlotte Mason's *Classic Homeschooling Series*, is a

character curriculum book written directly to children. Book I, Self-Knowledge, is for elementary school students; Book II, Self-Direction, is for older students. Self-Knowledge discusses our human desires and appetites; the "helpers" in our minds, such as intellect, sense of beauty, imagination, and reason; the ways in which we feel and express love for others, including sympathy, kindness, generosity, gratitude, courage, loyalty, and humility; and truth, justice, and integrity; and ends by encouraging children to develop the habit of being useful. Self-Direction is an in-depth discussion of the conscience and virtues such as temperance, chastity, fortitude, and prudence; the will and self-control; and the soul and its capacities, such as prayer, thanksgiving, faith, and praise. Charlotte Mason was a late nineteenth-century British educator whose ideas were far ahead of her time. She believed that children are born persons worthy of respect, rather than blank slates, and that it was better to feed their growing minds with living literature and vital ideas and knowledge, rather than dry facts and knowledge filtered and pre-digested by the teacher. Her method of education, still used by some private schools and many homeschooling families, is gentle and flexible, especially with younger children, and includes first-hand exposure to great and noble ideas through books in each school subject, conveying wonder and arousing curiosity, and through reflection upon great art, music, and poetry; nature observation as the primary means of early science teaching; use of manipulatives and real-life application to understand mathematical concepts and learning to reason, rather than rote memorization and working endless sums; and an emphasis on character and on cultivating and maintaining good personal habits. Schooling is teacher-directed, not child-led, but school time should be short enough to a

The first and most terrifying monster in English literature, from the great early epic Beowulf, tells his own side of the story in this frequently banned book. This classic and much lauded retelling of Beowulf follows the monster Grendel as he learns about humans and fights the war at the center of the Anglo Saxon classic epic. This is the book William Gass called "one of the finest of our contemporary fictions."

Crippled by a world she doesn't know, plagued by abilities she doesn't understand, and haunted by a looming threat she can't remember, Seraphina struggles to piece together her forgotten past and discover who she really is. From the author of Runner, Sam Dryden comes under attack from unknown forces as an unremembered episode from his past threatens more than just his life. On an otherwise normal morning, former Special Forces operative Sam Dryden is the target of an unsuccessful attempted abduction. Using his attacker's cellphone, he learns that another person, a woman named Danica Ellis, is also being targeted. Dryden arrives just in time to save Danica from the assault team sent after her. But neither of them recognize the other, or have any idea why they are being targeted. The only clue is a heavily redacted, official-looking document given to Danica by her stepfather before he was killed. Dryden immediately recognizes it as a "scrub file." A scrub file is a record of what a subject knew before their memories were chemically destroyed. The redacted document refers to witnesses to a secret military site in Ashland, Iowa in 1989. Both Dryden and Danica Ellis lived in Ashland in 1989, when they were both twelve years old, though neither of them has any memory of the other. Switching back and forth between the present day, when Dryden and Danica try to elude the forces that are after them, and the past in Ashland, Iowa, when both were twelve, making a discovery that forever changed their lives, this latest Sam Dryden novel proves yet again that Patrick Lee is one of the most original, compelling thriller writers today.

Wordsworth has traditionally been understood as the 'poet of memory'. This book argues that 'unremembered pleasure', an idea Wordsworth formulates in 'Tintern Abbey' but is often overlooked by modern readers, is central to understanding his writing. Wordsworth's poems discover and articulate a broad range of previously unfelt, unnoticed, and unconscious satisfactions. As well as providing new interpretations of major and under-studied writing by Wordsworth, this volume challenges a long tradition of psychoanalytic reading of romanticism, which uses trauma to explain the limits of literary memory. The book contests key psychoanalytic concepts in literary criticism including repression, sublimation, mourning, and pleasure. It asks what it would mean for us to be 'surprised by joy'.

So many secrets are buried within these compound walls. I used to be one of those secrets. After returning to the Diotech compound and undergoing an experimental new memory alteration, Seraphina is now a loyal, obedient servant to Dr. Alixter and the powerful company that created her. Happy and in love with Kaelen, another scientifically-enhanced human designed to be her perfect match, Sera's history with a boy named Zen is just a distant memory from a rebellious past she longs to forget. But as Sera and Kaelen embark on a nationwide tour to promote Diotech's new product line—a collection of controversial genetic modifications available to the public—Sera's mind starts to rebel. She can't stop the memories of Zen from creeping back in. As more secrets are revealed, more enemies are uncovered, and the reality of a Diotech-controlled world grows closer every day, Sera will have to choose where her true loyalties lie, but it's a choice that may cost her everything she's ever loved.
