

## Untamed

A compelling book urging modern women to reconnect with their inborn feminine powers. Reclaim your inner witch with the magical rituals, divination tools, spells and ancient wisdom in this revolutionary book. A witch is a woman in her power. She's wise, a healer, someone who is aligned with the cycles of Mother Nature and the phases of the Moon. Yet for so long, the word 'witch' has had negative connotations - being used as an insult, a slur and to perpetuate fear. In this book, third generation hereditary witch Lisa Lister explains the history behind witchcraft, why in past centuries the word 'witch' has led women to be tortured, drowned and burned at the stake, and why the witch is now waking once again in women across the world today. This book will help women to remember, reconnect and reclaim the word 'witch' and its power. It explores the many different versions of witchcraft and their core principles and practices, and shares ancient wisdom made relevant for waking witches, including how to:

- Align your energy with the wheel of the year, the sabbats and the cycles of the Moon
- Connect with and trust your intuition
- Use divination tools such as oracle cards, scrying and rune reading
- Cast circles, create altars and set sacred space
- Work with the elements of nature and use herbs and crystals
- Discover and work with five different aspects of the witch: the Force of Nature, the Creatrix, the Healer, the Oracle and the Sorceress

Rediscover your powers and manifest your reality with spell casting Lisa also shares

her own journey to reclaiming the word 'witch', along with personal, hands-on rituals and spells from her family lineage of gypsy witch magic.

Her perfect life is shattered when Mireille is kidnapped by armed men in front of her father's estate in Haiti and she must endure the horrors and torments of her captors while her father inexplicably resists paying for her ransom.

"This biography for children will trace Goodall's life, but each chapter will also focus on two or more the chimpanzees that she observed, with information in sidebars about these particular animals. Along with biographical details, the book will explore the ethical issues that surround Goodall's work and show what has changed in our understanding of Great Apes. What do we know today about these animals in terms of language, speech, tool use, and DNA? How has sophisticated technology - GPS systems, Satellite imagery, portable digital microphones - been used to gain new information about animal populations."--

One of the major challenges of urban development has been reconciling the way cities develop with the mounting evidence of resource depletion and the negative environmental impacts of predominantly urban-based modes of production and consumption. This book aims to re-politicise the relationship between urban development, sustainability and justice, and to explore the tensions emerging under

real circumstances, as well as their potential for transformative change. For some, cities are the root of all that is unsustainable, while for others cities provide unique opportunities for sustainability-oriented innovations that address equity and ecological challenges. This book is rooted in the latter category, but recognises that if cities continue to evolve along current trajectories they will be where the large bulk of the most unsustainable and inequitable human activities are concentrated. By drawing on a range of case studies from both the global South and global North, this book is unique in its aim to develop an integrated social-ecological perspective on the challenge of sustainable urban development. Through the interdisciplinary and original research of a new generation of urban researchers across the global South and North, this book addresses old debates in new ways and raises new questions about sustainable urban development. .

Baja California, 1979. Viridiana spends her days watching the dead sharks piled beside the seashore, as the fishermen pull their nets. There is nothing else to do, nothing else to watch, under the harsh sun. She's bored. Terribly bored. Yet her head is filled with dreams of Hollywood films, of romance, of a future beyond the drab town where her only option is to marry and have children. Three wealthy American tourists arrive for the summer, and Viridiana is magnetized. She immediately becomes entwined in the glamorous foreigners' lives. They offer excitement, and perhaps an escape from the promise of a humdrum future. When one of them dies, Viridiana lies to protect her friends. Sharks may be dangerous, but there are worse predators nearby, ready to devour a naïve young woman who is quickly being tangled in a web of deceit.

Sixteen-year-old Zoey Redbird is Marked as a fledging vampyre and joins the House of Night, where she will train to become an adult vampyre and where she faces many

challenges throughout her training.

I did it! I'm free. Well sort of. Freedom isn't as cut and dried as the word implies. In this case, I'm at the top of Death's Worst Reaper Ever list. What it signifies remains to be seen. I broke free from Death because there wasn't any other way out of Reaping Vampires. She refused to let me off the hook or consider other arrangements. I'd have been content leaving it at that, but word about my choice got out. Other Reapers clamored for independence too. Death's fury expanded another notch with every defection until nowhere is far enough away for me to run to. If I was only fighting her, it might be manageable. Toss in Vampires who hate my guts, a phalanx of dark gods who want my hide, and a bunch of bigoted mortals who've decided magic is holding them back. Pah. Humans are their own worst enemy, but they're the least of my problems. It's been a rocky journey. Along the way I've uncovered allies and even a man who loves me. Will we be enough to slam the gates and send darkness packing? We have to be. No prisoners. No choices.

In *Untamed* and *Unabashed*, Regina Barreca, noted authority on women and humor, examines the use of humor in the works of Jane Austen, Charlotte Bronte, George Eliot, Elizabeth Bowen, Muriel Spark, and Fay Weldon. She analyzes the ways that each writer uses comedic devices, especially those involving language itself, and discusses the gendered basis of their humor, providing a provocative feminist perspective on gender and comedy. Each of the essays argues that conservative critics

have misread and misunderstood the importance of humor in the works of these women authors, and that women's humor serves to explode conventions oppressive to women and to offer women readers a critique of, and an alternative perspective on, the dominant cultural ideologies that contain and oppress them. The book concludes that these authors strategically deployed humor, coded in forms that women readers-but not men readers-would recognize and understand, as a means of educating and empowering those women readers. Barreca asserts that much of women's comic play has to do with power and its systematic misappropriation, allowing women to gain perspective by ridiculing the implicit insanities of a patriarchal culture. Using detailed persuasive new readings of various works of each of her chosen authors, she shows how the straightjacket of conventional femininity is challenged, confronted, and finally, thrown off. This volume demonstrates that comedy can effectively channel anger and rebellion by first making them appear to be acceptable and temporary phenomena, and then by harnessing the released energies, rather than dispersing them. This kind of comedy, which is at the heart of *Untamed* and *Unabashed*, terrifies those who hold order dear. It should.

While on a mission Stanton Rourke suffers a head injury that robs him of his short term

memory, leaving Clarisse Carrington in danger and heartbroken. ADDICTION. SURVIVAL. BETRAYAL. As one of the last Untamed humans left in the world, Seven's life has always been controlled by tight rules. Stay away from the Enhanced. Don't question your leader. And, most importantly, never switch sides—because once you're Enhanced there's no going back. Even if you have become the perfect human being. But after a disastrous raid on an Enhanced city, Seven soon finds herself in her enemy's power. Realizing it's only a matter of time before she too develops a taste for the chemical augmenters responsible for the erosion of humanity, Seven knows she must act quickly if she's to escape and save her family from the same fate. Yet, as one of the most powerful Seers that the Untamed and Enhanced have ever known, Seven quickly discovers that she alone holds the key to the survival of only one race. But things aren't clear-cut anymore, and with Seven now questioning the very beliefs she was raised on, she knows she has an important choice to make. One that has two very different outcomes. Seven must choose wisely whose side she joins, for the War of Humanity is underway, and Death never takes kindly to traitors. Imagine discovering passion for the very first time . . . with your exasperating and irresistible boss. Jovilette Wilder had the heart of a lion and the temper of a wildcat. And when Keane Prescott first crossed her path, she had her claws bared. Jo was certain her beguiling new boss imperiled everything she cared for, but she couldn't deny the overpowering attraction that sizzled between them. And though Keane's kisses left her

breathless with longing, it was the tenderness he showed her that threatened to tame her heart.

**#1 NEW YORK TIMES BESTSELLER • Over two million copies sold! “Packed with incredible insight about what it means to be a woman today.”—Reese Witherspoon (Reese’s Book Club Pick)** In her most revealing and powerful memoir yet, the activist, speaker, bestselling author, and “patron saint of female empowerment” (People) explores the joy and peace we discover when we stop striving to meet others’ expectations and start trusting the voice deep within us. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY O: The Oprah Magazine • The Washington Post • Cosmopolitan • Marie Claire • Bloomberg • Parade • “Untamed will liberate women—emotionally, spiritually, and physically. It is phenomenal.”—Elizabeth Gilbert, author of City of Girls and Eat Pray Love** This is how you find yourself. There is a voice of longing inside each woman. We strive so mightily to be good: good partners, daughters, mothers, employees, and friends. We hope all this striving will make us feel alive. Instead, it leaves us feeling weary, stuck, overwhelmed, and underwhelmed. We look at our lives and wonder: Wasn’t it all supposed to be more beautiful than this? We quickly silence that question, telling ourselves to be grateful, hiding our discontent—even from ourselves. For many years, Glennon Doyle denied her own discontent. Then, while speaking at a conference, she looked at a woman across the room and fell instantly in love. Three words flooded her mind: *There She Is*. At first, Glennon

assumed these words came to her from on high. But she soon realized they had come to her from within. This was her own voice—the one she had buried beneath decades of numbing addictions, cultural conditioning, and institutional allegiances. This was the voice of the girl she had been before the world told her who to be. Glennon decided to quit abandoning herself and to instead abandon the world's expectations of her. She quit being good so she could be free. She quit pleasing and started living. Soulful and uproarious, forceful and tender, *Untamed* is both an intimate memoir and a galvanizing wake-up call. It is the story of how one woman learned that a responsible mother is not one who slowly dies for her children, but one who shows them how to fully live. It is the story of navigating divorce, forming a new blended family, and discovering that the brokenness or wholeness of a family depends not on its structure but on each member's ability to bring her full self to the table. And it is the story of how each of us can begin to trust ourselves enough to set boundaries, make peace with our bodies, honor our anger and heartbreak, and unleash our truest, wildest instincts so that we become women who can finally look at ourselves and say: *There She Is*. *Untamed* shows us how to be brave. As Glennon insists: The braver we are, the luckier we get. "Swear not by the Moon, the inconstant Moon..." Night is falling on the world of the Arcana Council, and the darkest corners of the psychic community are stirring, eager for war no matter the cost. In a last-ditch effort to maintain the balance of magic, Justice Sara Wilde launches an all-out search for the Moon,

one of the Council's most powerful missing members. With a team that includes the darkly formidable Magician, the tech-savant Fool and the incomparable Nikki Dawes...Sara likes her odds for finding her quarry in time. Unfortunately, she's not alone in the hunt. A cry for help from the depths of South America triggers Sara's oldest enemies, the cutthroat artifact hunters of the arcane black market. In a race to find the deeply secretive, elusive Moon, the winner is promised power beyond their wildest imagination. Are these claims pure lies and moonlit fantasy? Or a sign that when the Moon is in play, nothing is ever as it seems? The truth is deadlier than anyone expects. Even your shadow will betray you when you hunt The Untamed Moon.

THE MOST DANGEROUS MAN IS THE ONLY ONE SHE WANTS... Stanton Rourke lives life on the edge. The steely mercenary is a menace in every way...especially to Clarisse Carrington's heart. She and Rourke were playmates as children, but she's not the innocent girl he once knew. When tragedy robbed Clarisse of her entire family, her life was changed forever. Besides, she's a grown woman now, and there are secrets that hold her back from succumbing to her pursuer. As she struggles to keep her distance, sparks as hot as a Texas summer fly between them. But danger is following Clarisse, leaving her no choice but to rely on Rourke, even as the old wounds lying dormant between them flare

up again...

—Oprah Winfrey "This memoir isn't really about Glennon rebuilding her relationship with her husband; it is about Glennon rebuilding her relationship with herself. Utterly refreshing and...badass." —Bustle.com The highly anticipated new memoir by bestselling author Glennon Doyle Melton tells the story of her journey of self-discovery after the implosion of her marriage. Just when Glennon Doyle Melton was beginning to feel she had it all figured out—three happy children, a doting spouse, and a writing career so successful that her first book catapulted to the top of the New York Times bestseller list—her husband revealed his infidelity and she was forced to realize that nothing was as it seemed. A recovering alcoholic and bulimic, Glennon found that rock bottom was a familiar place. In the midst of crisis, she knew to hold on to what she discovered in recovery: that her deepest pain has always held within it an invitation to a richer life. *Love Warrior* is the story of one marriage, but it is also the story of the healing that is possible for any of us when we refuse to settle for good enough and begin to face pain and love head-on. This astonishing memoir reveals how our ideals of masculinity and femininity can make it impossible for a man and a woman to truly know one another—and it captures the beauty that unfolds when one couple commits to unlearning everything they've been taught so that they can finally, after thirteen years of marriage, commit to living true—true to themselves and to each other. *Love Warrior* is a gorgeous and inspiring account of how we are born to be warriors: strong, powerful, and brave; able to confront the pain and claim the love that exists for us all. This chronicle of a

beautiful, brutal journey speaks to anyone who yearns for deeper, truer relationships and a more abundant, authentic life.

An inspiring, thought-provoking, and adventurous biography of one woman's fearless

crusade to save an island from greed and environmental disaster. In a “moving homage and an adventure story that artfully articulates the ferocities of nature and humanity,” Harlan captures the larger-than-life story of Carol Ruckdeschel, the wildest woman in America (Kirkus Reviews). She wrestles alligators, eats roadkill, rides horses bareback, and lives in a ramshackle cabin that she built by hand in an island wilderness. A combination of Henry David Thoreau and Jane Goodall, Carol is a self-taught scientist who has become a tireless defender of sea turtles on Cumberland Island, a national park off the coast of Georgia. Cumberland, the country’s largest and most biologically diverse barrier island, is celebrated for its windswept dunes and feral horses. Steel magnate Thomas Carnegie once owned much of the island, and in recent years, Carnegie heirs and the National Park Service have clashed with Carol over the island’s future. What happens when a dirt-poor naturalist with only a high school diploma becomes an outspoken advocate on a celebrated but divisive island? *Untamed* is the story of an American original standing her ground and fighting for what she believes in, no matter the cost, “an environmental classic that belongs on the shelf alongside Carson, Leopold, Muir, and Thoreau” (Thomas Rain Crowe). “Vivid. . . . Ms. Ruckdeschel’s biography, and the way this wandering soul came to settle for so many decades on Cumberland Island, is big enough on its own, but Mr. Harlan hints at bigger questions.”—Wall Street Journal “Wild country produces wild people, who sometimes are just what’s needed to keep that wild cycle going. This is a memorable portrait.”
