Why do people's financial and economic preferences vary so widely? 'Nurture' variables such as socioeconomic factors partially explain these differences, but scientists have been discovering that 'nature' also plays an important role. This is the first book to bring together these scientific insights for a holistic view of the role of human biology in financial decision-making. Geneticists are now examining which genetic markers are associated with financial and economic preferences. Neuroscientists are now determining where in the brain financial decisions are made and how that varies between people. Endocrinologists relate the level of different hormones circulating in the body to financial risk-taking. Researchers are exploring how physiology and environmental conditions influence investment decisions, and how three types of cognitive ability play essential roles in investment success. This exciting and relevant work being done in these academic silos has generally not been transmitted among the scientific areas, or to industry. For the first time, this book integrates all these areas, explaining the myriad ways in which a person's biology influences their investing decisions. Financial analysts, advisors, market participants, and upper-level undergraduate and postgraduate students of behavioral finance, behavioral economics, and investing will find this book invaluable, enabling a deeper understanding of investors' decision-making processes. To further ensure this new material is accessible to students, PowerPoint slides are available online for instructors' use.

During the Twenties, the Great White Way roared with nearly 300 book musicals. Luminaries who wrote for Broadway during this decade included Irving Berlin, George M. Cohan, Rudolf Friml, George Gershwin, Oscar Hammerstein II, Lorenz Hart, Jerome Kern, Cole Porter, Richard Rodgers, Sigmund Romberg, and Vincent Youmans, and the era's stars included Eddie Cantor, Al Jolson, Ruby Keeler, and Marilyn Miller. Light-hearted Cinderella musicals dominated these years with such hits as Kern's long-running Sally, along with romantic operettas that dealt with princes and princesses in disguise. Plots about bootleggers and Prohibition abounded, but there were also serious musicals, including Kern and Hammerstein's masterpiece Show Boat. In The Complete Book of 1920s Broadway Musicals, Dan Dietz examines in detail every book musical that opened on Broadway during the years 1920-1929. The book discusses the era's major successes as well as its forgotten failures. The hits include A Connecticut Yankee; Hit the Deck!; No, No, Nanette; Rose-Marie; Show Boat; The Student Prince; The Vagabond King; and Whoopee, as well as ambitious failures, including Deep River; Rainbow; and Rodgers' daring Chee-Chee. Other appendixes include a discography, filmography, a list of published scripts, and a list of black-themed musicals. This book contains a wealth of information and provides a comprehensive view of each show. For Christian parents, there is no greater joy than seeing their children learn to walk with the Lord. And there is no greater fear than that their children will walk away from God. After serving together in pastoral ministry for forty years, Phil and Diane Comer know those hopes and fears well. Thirty-seven years ago, they became parents themselves. And like all new parents, they were intimidated and unsure about how to take on the task of spiritually training their young children. Now, with all four of their children grown and establishing their own households of faith, Phil and Diane have embarked on a quest to help the next generation of parents raise passionate Jesus followers. Drawing on years of pastoral counseling, teaching, leading, and decades of watching families from the perspective of pastors and leaders in ministry, Phil and Diane instruct, guide, encourage, and offer hope and practical help to Christian parents. Raising Passionate Jesus Followers is a manual full of practical, biblically based guidelines that parents will be able to turn to again and again through each stage of their children's development. Starting at birth, into grade school, through the daunting teenage years, to launching them into college, and finally letting go, this book contains the why's and the how's parents need. This book will serve as an invaluable resource for any parent whose greatest longing is to shepherd their children into a vibrant faith in God.

How many souls have you won to Christ? How many are still walking with the Lord? All, some, a few? The facts are: Evangelical success is at an all-time low. We're producing more backsliders than true converts. The fall-away rate—from large crusades to local churches—is between 80 to 90 percent. Why are so many unbelievers turning away from the message of the gospel? Doesn't the Bible tell us how to bring sinners to true repentance? If so, where have we missed it? The answer may surprise you. One hundred years ago, Satan buried the crucial key needed to unlock the unbeliever's heart. Now Ray Comfort boldly breaks away from modern tradition and calls for a return to biblical evangelism. If you're experiencing evangelical frustration over lost souls, unrepentant sinners, and backslidden "believers," then look no further. This radical approach could be the missing dimension needed to win our generation to Christ.

Brutified is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.

This is a guidebook to help married and engaged couples build (or rebuild) their relationship by working together on financial issues. With God's principles at work, there is hope for arriving at financial balance! Couples learn to understand and respect each other, and by communicating more effectively, can begin the journey to financial harmony—and joy!

All too often chess openings books consist of reams of variations and sub-variations and bracketed sub-sub-variations, with no apparent explanation for why a move is chosen or why one path deserves precedence over another. Golombek fought tenaciously against this denigration of his art, for he considered chess an art form. The Grandmaster Emeritus always sought to explain the ideas behind the moves and give the strategic justification for any course of action. For this reason alone Golombek's chief openings manual, reprinted here, will outlive the ephemera which largely characterise rival efforts to explain the entire gamut of openings available to the ambitious player. Armed with Golombek you will understand what you are doing -not just become a performing monkey which apes the movements of the masters! Covering the last 50 years of the twentieth century, 'Secret Players' moves back and forth between America and Japan. Opening with a tale of gripping terror aboard ship, it then chronicles the story of the post war lives of an American and Japanese man who first met in that WW II sea battle. 'Secret Players' is about international intrigue and behind-the-scenes power run amok. But is also about how their families become intertwined. The finale is between the two men and their wives who intervene to prevent another mass war. A metaphor for the hate existent in the modern world of terror, the book shakes the reader in light of 9/11 and questions whether there can ever be reconciliation. A challenging read.
