Ministry is an insightful guide for any leader who yearns for a simpler, more effective approach to ministry. Here are seven strategic principles that when put into play will bring focus and clarity to everything you do and turn your ministry into a winning team. Story Behind the Book Looking for ways to help pastors faced with hectic lives and depleted resources, Andy Stanley, Reggie Joiner, and Lane Jones decided to write a parable about the complicated life of a local pastor. Rather than come straight at those in ministry with formulas and lists, they engage readers in an effort to have them identify with the character. "For many years, I practiced and taught church growth. What I have witnessed as a member at North Point takes church growth to a whole new level. Andy and his team communicate principles that will add value to you and the church you love." -John C. Maxwell, founder, The INJOY Group "Every professional athlete recognizes the value of solid coaching. The best are always working to get better. From what I've seen at North Point, these seven practices can improve the game of any church in America." -John Smoltz, Cy Young Award-winning pitcher "The practices covered in this book are down-to-earth, practical, and come from real difference-makers who know what church leadership is all about. Andy, Reggie, and Lane have definitely hit the ball out of the park with the 7 Practices of Effective Ministry." -Ed Young, Jr., senior pastor, Fellowship Church (Piano Vocal). An arrangement of Irving Berlin's beloved favorite for piano and voice with guitar chord frames.

When considering and confronting the problem of evil, we may be asking the wrong question: Why is there evil in the world if God is good and powerful? It may be wrong because it smuggles in an unbiblical premise: God can and should use his coercive power to relieve suffering since he is both good and able. But what if coercive power does not work to accomplish God's goals? This book is an investigation into the possibility that the noncoercive power of the Cross must be at the center of this issue, and that the Cross could reform this question. We could ask, instead, How is God destroying evil and suffering--and why is he taking so long? The answer to this reframed question might be: He is using evil and suffering to destroy evil and suffering for His People; this is how long it takes. While not a "solution" to the problem of evil, could this help us learn to delight in God in a world in which evil and suffering seem at times so relentless?

I admittedly have a different interpretation on how things work in my world. I have been told I am sanctimonious, sarcastic and irreverent. Another ex-wife said I was cruel and hypercritical. The truth is I have a large number of soft spots and whenever I see a naked Emperor, I have to scream out. I have a particular weakness for the pompous and those who fear sunlight. No, not vampires. Writing helps relieve the sting from the head slapping after I witness my fellow humans in their environment.

Most of us long to be in control—of our schedule, our relationships, and our future. Newlywed Laura Story thought she had control over the great life ahead of her. After all, she followed Jesus and had a promising new job as a worship leader. Why would God not want to fulfill her dreams? But when Laura and her husband, Martin, faced a brain tumor, infertility, and a son's birth defect, she realized she'd been looking for a happiness that comes from circumstances, rather than a deeper joy that comes from God. Again and again, Laura had to surrender her vision for her life so she could embrace God's vision. And again and again she learned that even in the midst of shattered dreams, God's plan brought greater joy than she could have imagined. Now the Grammy Award-winning singer-songwriter known for such hits as "Blessings," "Indescribable," and "Mighty to Save" shares her powerful story of finding blessing in her deepest pain. In, *I Give*

Up, Laura explores: How to delight in God's gifts no matter your circumstances. Why waiting on God is a daily decision, not a step-by-step process. The strength we find from meditating on God's Word. Why surrendering to God leads to reconciliation with others. How the things we consider to be losses are ways for God to display his glory. As Laura writes, she no longer wants to be in control of her life. She wants to be rooted in the God who is in control. I Give Up will help you Discover a deeper life of worship, a fuller life of joy, and a freer life of true surrender as you open your hands to God. And give up.

With over 100 songs on three audio CDs to choose from, children will be singing and dancing along. The text includes an extensive compilation of lyrics and sheet music. Wall Street Journal best-selling author Jon Acuff reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life: Your 20s are a period of Learning. This is the decade of trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead – Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play – Technology has given access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss – The days of “success first, significance later,” have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is

more challenging, because things like fear only bother you when you do work that matters. The good news is Start gives readers practical, honest, actionable insights to be more awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to Start.
