It is hard to deny that today's world can seem apathetic toward Christians. Some may look down at their iPhones when we mention God, motion for the check when we bring up church, or casually change the subject when we talk about prayer. In a world full of people whose indifference is greater than their desire to know Christ, how can we dream of growing the church? In *Contagious Disciple Making*, David Watson and Paul Watson map out a simple method that has sparked an explosion of homegrown churches in the United States and around the world.

A companion to Cityteam's two previous books, *Miraculous Movements* and *The Father Glorified*, *Contagious Disciple Making* details the method used by Cityteam disciple-makers. This distinctive process focuses on equipping spiritual leaders in communities where churches are planted. Unlike

many evangelism and church-growth products that focus on quick results, contagious disciple-making takes time to cultivate spiritual leadership, resulting in lasting disciple-making movements. Through Contagious Disciple Making readers will come to understand that a strong and equipped leader will continue to grow the church long after church planters move on to the next church. Features include: Engagement tools for use in the field Practical techniques to equip others to make disciples

A vision. You as a leader may have it, but has your organization caught it? If a leader's vision is all about what could be and what should be, why are you buried under what is? Noted author and pastor Andy Stanley points out that if followers don't get the vision, it's because the leaders haven't delivered it. He reveals the three reasons vision doesn't stick. And then he delivers three ways to make vision stick, to make you a leader worth following: 1. Cast vision strategically: defining your vision. 2. Celebrate vision systematically: regularly rejoicing in the successes 3. Live your vision continuously: putting your vision into practice in your own life. With Making Vision Stick, you'll learn how to propel you and your organization forward on the vision God has granted you.

The booming increase of the senior population has become a social phenomenon and a challenge to our societies, and technological advances have undoubtedly contributed to improve the lives of elderly citizens in numerous aspects. In current debates on technology, however, the »human factor« is often largely ignored. The ageing individual is rather seen as a malfunctioning machine whose deficiencies must be diagnosed or as a set of limitations to be overcome by means of technological devices. This volume aims at focusing on the perspective of human beings deriving from the development and use of technology: this change of perspective - taking the human being and not technology first - may help us to become more sensitive to the ambivalences involved in the interaction between humans and technology, as well as to adapt technologies to the people that created the need for its existence, thus contributing to improve the quality of life of senior citizens.

Ever has the power to change the trajectory of your entire life. Story Behind the Book After continually making decisions that were short-sighted and hasty, Andy Stanley sought counsel. Si au cours des 40 dernières années le champ de l'éducation relative à l'environnement s'est largement déployé, la nature des enjeux socioécologiques actuels appelle à un nouvel examen des assises de ce champ et à l'explicitation des courants qui émergent. Le présent ouvrage offre donc une mise à jour de plusieurs fondements de l'action éducative en matière d'environnement. Au fil des chapitres, les auteurs proposent un «patrimoine» de repères contemporains pour inspirer et fonder cette action, c'est-à-dire toute forme d'éducation ayant trait au rapport personnel et social au milieu de vie: l'éducation à la nature, à la conservation, à la santé environnementale, au développement durable, etc. Ces repères sauront rejoindre les enseignants en formation initiale et continue, de même que toutes les personnes qui œuvrent dans les domaines de la formation, de l'éducation spécialisée, de l'animation, de l'interprétation, de la médiation ou de la communication.

Cycling as a way of life and mode of transportation is on the rise in city after city around the world. For those looking to dip their proverbial toes into the waters of urban cycling the prospect at times can be rather intimidating. What kind of bike should I ride? A skinny-wheeled high-end road bike? A fixie? A chunky city commuter bike? A department store bike? How about fashion? Do I have to wear brightly colored skin-tight Lycra outfits? Can I just wear normal clothes? How do I lug my gear around? The Bohemian Guide to Urban Cycling takes the reader into the world and workings of cycling in the

city to uncover the essentials to how to join in on the cycling revolution. Your bicycling guide on this journey is a card-carrying bohemian living in Portland. By using the bike-crazy city of Portland as the backdrop, this book covers all of the basics needed to bike comfortably in the city and to know what the heck you're talking about ... from bike selection to fashion to bike lanes to gentrification and more. After reading this you'll know precisely what to ride, how to ride, what to wear, and how to talk like an insider. Well, maybe not, but it'll still be a fun journey together. But this book is more than about urban-cycling fashion and high-end bikes. It also plunges headlong into conversations about mobility, equity, race, and justice. If there is going to be a book about all-things cycling in the city it must delve into these uncomfortable topics in order to develop a more holistic view of urban cycling. The bottom line must be to affirm all kinds of people pedaling through the streets of our cities on anything that rolls.

The Fire Starter Sessions is an apathy-kicking, integrity-infusing guide to defining success on your own terms. Danielle LaPorte's straight-talk life-and-livelihood sermons have been read by over one million people. Bold but empathetic, in The Fire Starter Sessions she reframes popular self-help and success concepts, including: - Life balance is a myth, and the pursuit of it is causing us more stress than the craving for balance itself. - Being well-rounded is over-rated. When you focus on developing your true strengths, you enter your mastery zone. - Screw your principles (they might be holding you back). - We have ambition backwards. Getting clear on how you want to feel in your life + work is more important than setting goals. It's the most potent form of clarity that you can have, and it's what leads to true fulfillment.
