Brighter Child English & Grammar for Grade 4 helps students master language arts skills. Practice is included for parts of speech, sentence writing, punctuation, proofreading, and more. School success starts here! Workbooks in the popular Brighter Child series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history,

geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well-Trained Mind* will give you the tools you'll need to teach your child with confidence and success.

Offers step-by-step instruction on how to enable an academically rigorous, comprehensive education for children from preschool through high school, outlining a classical educational model while providing book lists, ordering information, and Internet links.

process, and culture, rather than an emphasis on quick fixes or unsustainable efforts. She aims to help regular people be transformed from the inside out by growing in relationship with Jesus Christ through individual and group experiences, thus transforming our parish communities. Start with Jesus will be an essential resource for decision-makers and thought-leaders in parishes, but its true strength lies in its value for the countless Catholics longing for peace, healing, and hope in the context of our parish communities. It will be an inspiration to Catholics who come to Mass each week, parents trying to instill the faith in their children, leaders searching for an effective and sustainable approach to parish renewal, and to all who are curious about developing a relationship with Jesus. ?
