An African-American family is united in love and pride as they struggle to overcome poverty and harsh living conditions, in the award-winning 1959 play about an embattled Chicago family. This special double issue consists of a selection of papers presented at the Ninth World Congress of Comparative Education, held at the University of Sydney, Australia, in July 1996, on the theme of "Tradition, Modernity and Post-modernity in Comparative Education". Before presenting the selection, this introduction will first survey the changing discourse in comparative education over the past few decades and will argue that an unreformulated and uncritical postmodernity holds no greater promise in comparative education, than its uncritical modernist or tradition-oriented rivals. When Nicholas Hans (1949) cited Michael Sadler's early rationale for studying comparative education, it was within the context of a work which sought to identify the traditions that underlay national educational systems. This early work, together with others such as that by Isaac Kandel (1930) was predicated on the assumption of the importance of national character, of which education systems were an important component. Indeed from this perspective, the purpose of comparative education was not merely to analyse the "forces and factors" which produced differences among educational systems, but, implicitly at least, also "to discover the underlying principles which govern the development of all national systems of education" (Hans 1949: 5). Hans was preeminently an historian, of course (as was Kandel to an extent), and therefore saw comparative education first and foremost in this light.

"Adah, a woman from the Ibo tribe, moves to England to live with her Nigerian student husband. She soon discovers that life for a young Nigerian woman living in London in the 1960s is grim. Rejected by British society and thwarted by her husband, who expects her to be subservient to him, she is forced to face up to life as a second-class citizen."--Back cover. The more Chike saw the ferry-boats the more he wanted to make the trip to Asaba. But where would he get the money? He did not know. Still, he hoped. Eleven-year-old Chike longs to cross the Niger River to the city of Asaba, but he doesn't have the sixpence he needs to pay for the ferry ride. With the help of his friend S.M.O.G., he embarks on a series of adventures to help him get there. Along the way, he is exposed to a range of new experiences that are both thrilling and terrifying, from eating his first skewer of suya under the shade of a mango tree, to visiting the village magician who promises to double the money in his pocket. Once he finally makes it across the river, Chike realizes that life on the other side is far different from his expectations, and he must find the courage within him to make it home. Chike and the River is a magical tale of boundaries, bravery, and growth, by Chinua Achebe, one of the world's most beloved and admired storytellers.

The story is set primarily in Lagos, Nigeria, between the 1930s and 1960s. Nnu Ego, a hard-working, optimistic Ibo woman, remains fiercely determined to save her children from the devastation of war, the erosion of village life, and the breakdown of tradition.

Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofu. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

Ruth Finnegan's *Oral Literature in Africa* was first published in 1970, and since then has been widely praised as one of the most important books in its field.

Based on years of fieldwork, the study traces the history of storytelling across the continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. It includes a new

introduction, additional images and an updated bibliography, as well as its original chapters on poetry, prose, "drum language" and drama, and an overview of the social, linguistic and historical background of oral literature in Africa. This book is the first volume in the World Oral Literature Series, an ongoing collaboration between OBP and World Oral Literature Project. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

Fifteen years ago, Mama said, starting her story, I came to Lagos from Ghana. I

came to Nigeria because I was considered an alien in that country. The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper relevance to the politics of race and migration of the twenty first century.

Published in the year 1971, *The History of Education in Ghana* is a valuable contribution to the field of History.

In the 1930s C. G. Jung embarked upon a bold investigation into childhood dreams as remembered by adults to better understand their significance to the lives of the dreamers. Jung presented his findings in a four-year seminar series at the Swiss Federal Institute of Technology in Zurich. *Children's Dreams* marks their first publication in English, and fills a critical gap in Jung's collected works. Here we witness Jung the clinician more vividly than ever before--and he is witty, impatient, sometimes authoritarian, always wise and intellectually daring, but also a teacher who, though brilliant, could be vulnerable, uncertain, and humbled by life's great mysteries. These seminars represent the most penetrating account of Jung's insights into children's dreams and the psychology of childhood. At the same time they offer the best example of group supervision by Jung, presenting his most detailed and thorough exposition of Jungian dream analysis and providing a picture of how he taught others to interpret dreams. Presented here in an inspired English translation commissioned by the Philemon Foundation, these seminars reveal Jung as an impassioned educator in dialogue with his students and developing the practice of analytical psychology. An invaluable document of perhaps the most important psychologist of the twentieth century at work, this splendid volume is the fullest representation of Jung's views on the interpretation of children's dreams, and signals a new wave in the publication of Jung's collected works as well as a renaissance in contemporary Jung studies.

A man has lived on his own beside a wild, unforgiving coastline for many years. His companions are the birds, the land and the sea. From a choice made long ago, he keeps himself separate from the world of people and he gains a fierce pleasure from his environment. His solitude is broken by his discovery, one early morning on the flat sands of low tide, of a child washed up on the beach, but still alive. This is a novel of redemption, the story of a man experiencing the world as though for the first time.

In 1956 John Osborne's *Look Back in Anger* changed the course of English theatre. 'Look Back in Anger presents post-war youth as it really is. To have done this at all would be a significant achievement; to have done it in a first play is a minor miracle. All the qualities are there, qualities one had despaired of ever seeing on stage - the drift towards anarchy, the instinctive leftishness, the automatic rejection of "official" attitudes, the surrealist sense of humour . . . the casual promiscuity, the sense of lacking a crusade worth fighting for and, underlying all these, the determination that no one who dies shall go unmourned.' Kenneth Tynan, *Observer*, 13 May 1956 'Look Back in Anger . . . has its inarguable importance as the beginning of a revolution in the British theatre, and as the central and most immediately influential expression of the mood of its time, the mood of the "angry young man".' Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of "the Brotherhood", and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

Lyrical and cadent, dramatic and sometimes playful, these poems speak of love, longing, parting; of freedom and shattered dreams; of Saturday-night partying and the smells and sounds of Southern cities.

Ogadi's life always seemed to take a turn for the worse. Born in Umuneke, a remote African village to a drunkard father and forced to live with Onome, a wicked stepmother, Ogadi thought life couldn't be worse. She quickly found out how wrong she was when she was plucked out of Umuneke and thrown into the city. Amidst the painful feelings of bitterness, suffering, sorrow, poverty, blackmail and joyful celebration, the author evolves the mysteries surrounding poor Ogadi's miserable life.

The Castle of Otranto is a book by Horace Walpole first published in 1764 and generally regarded as the first gothic novel. In the second edition, Walpole applied the word 'Gothic' to the novel in the subtitle - "A Gothic Story". The novel merged medievalism and terror in a style that has endured ever since. The aesthetics of the book shaped modern-day gothic books, films, art, music and the goth subculture

The integrity of knowledge that emerges from research is based on individual and collective adherence to core values of objectivity, honesty, openness, fairness, accountability, and stewardship. Integrity in science means that the organizations in which research is conducted encourage those involved to exemplify these values in every step of the research process. Understanding the dynamics that support " or distort " practices that uphold the integrity of research by all participants ensures that the research enterprise advances knowledge. The 1992 report Responsible Science: Ensuring the Integrity of the Research Process evaluated issues related to scientific responsibility and the conduct of research. It provided a valuable service in describing and analyzing a very complicated set of issues, and has served as a crucial basis for thinking about research integrity for more than two decades. However, as experience has accumulated with various forms of research misconduct, detrimental research practices, and other forms of misconduct, as subsequent empirical research has revealed more about the nature of scientific misconduct, and because technological and social changes have altered the environment in which science is conducted, it is clear that the framework established more than two decades ago needs to be updated.

Responsible Science served as a valuable benchmark to set the context for this most recent analysis and to help guide the committee's thought process.

Fostering Integrity in Research identifies best practices in research and recommends practical options for discouraging and addressing research misconduct and detrimental research practices.

A brilliant philosophical work of Cicero, which constrains the readers to contemplate the world around them. It is remarkable for its rhetorical style and sublime language. A superb classic!...
