"Lilly sat with her eyes fixed on the window, watching snowflakes crowding on the alley in front of the house, and slowly, slowly everything was covered with a fluffy coat of snow. She thought about the letter that she wrote for Santa Claus, about the gifts he would place under the Christmas tree tonight. And then she realized she should ask Santa for something else." "The Tiniest Elf" is the whimsical story of a little girl, her innocent wish, and her adventure to find Santa Claus. 5-star review by Mamta Madhavan for Readers' Favorite: "It is the day before Christmas and Lilly is waiting for her mother to arrive so that she can spend Christmas together with her parents. Her mother works in another city and she was unable to make it on the first day of Christmas because it was snowing way too much. In *The Tiniest Elf* by Laurentiu M. Badea, Lilly decides to write another letter to Santa Claus, apart from the earlier one she wrote, because she realized she should ask Santa for something else. In the northernmost realm of Lapland, inside Santa's workshop, Santa's elves are working to finish the last touches of Santa's departure. Like every year, Santa's five trusted elf friends are going with him to share gifts to children all over the world. Lilly is

wondering how she can get her letter to Santa Claus. Will Santa get Lilly's letter on time? I like the concept and the underlying message of the story which will awaken the child inside all of us. It is such a magical and heartwarming story, and the innocent girl and her wish to be with both her parents for Christmas is tangible. It is a good book to read out to youngsters during the Christmas season as it captures the essence and spirit of the season beautifully. Many children will be able to relate to Lilly's feelings. It is a good storybook for both read aloud sessions in classrooms and also bedtime storytelling as it conveys a beautiful message to young readers."

With his Viking ingenuity and a few helpful kittens, Stig overcomes his fear of the sea and woos the bold and beautiful Ingrid.

Since 1989, there have been over 200 post-conviction DNA exonerations in the United States. On the surface, the release of innocent people from prison could be seen as a victory for the criminal justice system: the wrong person went to jail, but the mistake was fixed and the accused set free. A closer look at miscarriages of justice, however, reveals that such errors are not aberrations but deeply revealing, common features of our legal system. The ten original essays in *When Law Fails* view wrongful convictions not as random mistakes but as organic outcomes of a misshaped larger system that is rife with faulty eyewitness identifications, false confessions, biased juries, and racial discrimination. Distinguished legal thinkers Charles J. Ogletree, Jr., and Austin Sarat have

assembled a stellar group of contributors who try to make sense of justice gone wrong and to answer urgent questions. Are miscarriages of justice systemic or symptomatic, or are they mostly idiosyncratic? What are the broader implications of justice gone awry for the ways we think about law? Are there ways of reconceptualizing legal missteps that are particularly useful or illuminating? These instructive essays both address the questions and point the way toward further discussion. When *Law Fails* reveals the dramatic consequences as well as the daily realities of breakdowns in the law's ability to deliver justice swiftly and fairly, and calls on us to look beyond headline-grabbing exonerations to see how failure is embedded in the legal system itself. Once we are able to recognize miscarriages of justice we will be able to begin to fix our broken legal system. Contributors: Douglas A. Berman, Markus D. Dubber, Mary L. Dudziak, Patricia Ewick, Daniel Givelber, Linda Ross Meyer, Charles J. Ogletree, Jr., Austin Sarat, Jonathan Simon, and Robert Weisberg.

for the family's return. As the three men wait for signs of life to return to the city, they wrestle with their shared past, the bitter irony of Jewish slave-owning and the reality of the new world in which they find themselves. The sun sets on the last night of Passover and Simon - having adopted the religion of his masters - prepares a humble Seder to observe the ancient celebration of the freeing of the Hebrew slaves from Egypt, noting with particular satisfaction the parallels to their current situation. But the pain of their enslavement will not be soothed by this tradition, and deep-buried secrets from the past refuse to be hidden forever as the play comes to its shocking climax. The Whipping Man is a play about redemption and forgiveness, about the lasting scars of slavery, and the responsibility that comes with freedom. "A mesmerizing drama." - Peter Filichia, Newark Star-Ledger "A cause for celebration. Mathew Lopez has come as close as any author could to producing a microcosm of the genesis of a wide range of today's Black American males." - Bob Rendell, Talkin' Broadway "I can see why director Lou Bellamy chose this play for Penumbra, whose most famous alumnus is playwright August Wilson. In its complex welter of issues, in its interior explorations...The Whipping Man is Wilsonian." - Rohan Preston, Minneapolis Star-Ledger "Succeeds with an uncanny maturity in using sharply drawn characters and rich metaphor to wrestle Wilson-like with epic American issues of race, religion, and responsibility. Someone must succeed Wilson; it might as well be Lopez" - Tim Gihring, Minnesota Monthly

This analysis identifies tasks that a qualified heavy duty equipment mechanic is called upon to perform in Canada. The equipment is typically found in the fields of construction, transportation, natural resources, and materials handling. The analysis identifies tasks and sub-tasks performed by such a mechanic, arranged in blocks of distinct operations relevant to that occupation. These blocks include workplace safety, work practices and procedures, and tasks related to internal combustion engines, power trains, electrical and electronic systems, hydraulic and hydrostatic drive systems, pneumatics, steering systems, suspension and braking systems, frames, chassis, wheels and tracks, attachments, and ground-engaging and working tools. For each task, the document outlines the element of skill and knowledge needed to perform the task adequately, identifies any shifts or changes in technology that affect the task, lists tools and equipment required for the task, and provides an indication of whether the task has been validated by each province and territory. The appendix includes a list of tools and equipment used in the occupation, and a tabulation of the percentage of time a worker spends performing each block and task in a given year (by province/territory and for Canada as a whole).
