"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

New Adult Paranormal Romance ** Mature Content ** Recommended for ages 16+ due to sexual situations and language This book includes realistic scenes of domestic violence that are not gratuitously graphic, but may be disturbing to sensitive readers. Hearts break. Souls shatter. Love lies in The Space Beyond. As members of the Phoenix, Jeric and Leni are thrust into their new lives, expected to lead Earth's Guardians. But Leni struggles with trusting her own soul, and Jeric is more concerned about keeping Leni safe than meeting others' demands. When Darkness swarms Lake Haven, they embark on their first mission with little preparation and no idea which soul the Dark hunts. Born and raised in Lake Haven, Bex hopes to escape her small-town life, ideally in the arms of her soul mate. She knows he exists, and her heart aches with the need to find him. When her long-lost mama calls to announce she's knockin' on death's door, Bex reluctantly makes the trip to see the uncaring bitch (bless her heart), only to be knocked off her feet by the sexy and charming Dr. Mason Hayes. Is he really The One? Leni's soul felt an instant connection to Bex, but if Bex found her soul mate, she isn't their mission. So who is, and why does Leni instinctively feel drawn to her? Can Leni even trust her intuition? And will Jeric step up and lead when the time comes or continue to hold them back? If they don't learn to trust themselves and each other quickly, Darkness will claim them all...along with the rest of Earth's souls.

Extremely accurate prophecies about the end of the world by Our Saints. In this edition, you will find a (back-)translation of some of the prophecies and the instructions of famous Orthodox Saints and hermits. You will have the opportunity to read the words of people who have long since left this world. The words they have left, as prophecies and instructions to us poor and fools are greatly valuable in strengthening our faith and instruction and confirmation of the authenticity and truthfulness of the Orthodox Christianity as a true path to God. Some of the translations of the texts contain specific prophecies related with the lands of Serbia, Russia and Greece. However, many of them apply to all of us, modern Orthodox Christians, as well as to all people on earth. Their words are a warning of a bleak future that awaits us and our descendants.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely

City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

Physical concepts, mathematical derivations and observational data are combined in a balanced way to provide a unified treatment. Topics such as general relativity and plasma physics, which are not usually covered in physics courses but used extensively in astrophysics, are developed from first principles. There are many helpful tips throughout the book, some quite clever and unexpected. The section on drafting a sloper contains excellent explanations of the various body contours, measuring, and fitting. Text, drawings, and photos of the human body from every angle illustrate the various interrelated contours and just how a pattern accommodates them. This collection brings together some of the most influential sociologists of law to confront the challenges of current transnational constitutionalism. It shows the constitution appearing in a new light: no longer as an essential factor of unity and stabilisation but as a potential defence of pluralism and innovation. The first part of the book is devoted to the analysis of the concept of constitution, highlighting the elements that can contribute from a socio-legal perspective, to clarifying the principle meanings attributed to the constitution. The study goes on to analyse some concrete aspects of the functioning of constitutions in contemporary society. In applying Luhmann's General Systems Theory to a comparative analysis of the concept of constitution, the work contributes to a better understanding of this traditional concept in both its institutionalised and functional aspects. Defining the constitution's contents and functions both at the conceptual level and by taking empirical issues of particular comparative interest into account, this study will be of importance to scholars and students of sociology of law, sociology of politics and comparative public law.

HOLY BIBLE THE BOOK OF GOD (KJV)

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and

then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.
