This is a story of a person who experienced an extraordinary life during and after the Second World War. He was a Displaced Person (DP) who came to Australia, the promised land, from Germany by the famous USAT General Stuart Heintzelman the first migrant boat arrived in Australia in 1947. The migrants arrived after the Australian Government realised how vulnerable its vast land was to foreign invasion and concluded that Australia had to "populate or perish". The Minister for Immigration instructed the selection officers purposely to find "good types" of immigrants; white skin, with blue eyes and blond hair; in order to make a good impression on a sceptical Australian public, and especially the trade union movement. John Lipsius was one of the first Baltic migrants who fitted the bill for migration to Australia selected as one of the "good type" immigrants, white skin, blue eyes and blond hair.

This handbook is a product of the challenges experienced by potential investors in Nigeria. The key challenge we have witnessed is that there is a gap in accessing relevant information and resource material in key sectors of the country. Access to

reference guides is most important, particularly to foreign investors who require an understanding of the sectors they want to invest in prior to coming into the country. This handbook is therefore intended to serve as a resource material and a reference guide to investors, businessmen and women, Chambers of Commerce, legal practitioners, and anyone interested in knowing the requirements for participation in any of the listed sectors in Nigeria. The handbook makes reference to Nigerian legislation and the relevant sections of the law on permit and licensing requirements within the listed sectors. This handbook covers the major sectors with attractive investment appeals, and thus, it takes account of a broad spectrum of the sectors in country, such as insurance; aviation; taxation; electronic money transfer/payment systems; registration of courier services and clearing and forwarding agents; maritime, including registration of ships; energy/power; solid minerals; oil and gas, including issues bordering on local content development; entertainment; licensing and censorship; radio; sound; television; cable or satellite station; intellectual property, specifically, the registration of trademark, patents, copyrights, and designs. There's also telecommunication licenses; environmental standards and regulations that impact upon operating a business in Nigeria; immigration, including obtaining expatriate quotas; residence permits; and licensing and regulation of private guard companies in Nigeria, etc. It must be pointed out that the handbook does not intend to override or remove the need to consult a legal practitioner with an understanding of the Nigerian legal system when appropriate.
