New York is one of those amazing cities one can visit on a last-minute whim. With a near endless array of fantastic attractions and experiences at every turn, and an enormous amount of shareable info, the Big Apple delivers a mammoth sensory overload no matter when/what/how or why one visits. For solo female travelers, New York can be exciting, soul-reviving, incredibly inspiring and even a little overwhelming. Yet this safe, eclectic and insanely vibrant city is one of the world's most ideal destinations for anyone traveling alone. Over the last two decades New York has literally transformed itself from one of the US' most crime-ridden cities, to one of its safest. Boroughs which were once strife with petty and even violent crime, have been restored and gentrified, and are now among the most expensive and sought-after in the country. It's really quite amazing how this city, which has suffered immense trials in its tumultuous history, has risen from the ranks, to stand as one of the most enticing holiday destinations in the world. The abundance of unforgettable sights, amazing shopping, delectable food, art, culture and an infinitely enticing social calendar, The Big Apple will captivate you like nowhere else you've ever been. If you're an adventurous gal looking for a once-in-a-lifetime trip, then you couldn't possibly pick a better place. Or a better travel guide! Want to discern the great from the mediocre and even the immensely atrocious? Then head to New York with our insider's guide! We'll help you navigate your way through the cacophony of sights, crowds and experiences. Know where to go, where to stay, what to do, what to steer clear of and how to get the most of your time here, and your New York holiday will be an unforgettable adventure...for all the right reasons.

The Invisible Hospital and the Secret Garden is a unique commentary on the first years of NHS reform, from the health insider with a patient's perspective. John Spiers has been Chairman of one of the largest NHS hospital trusts, an adviser to the Prime Minister, and is now a health policy specialist with the leading 'think tank', the Social Market Foundation. He is also known to the wider public through broadcasting and journalism. He addresses the key issues of social consent, patient power and the challenges of determining what is clinically effective. He offers discomfiting, original and constructive perspectives for managing change. He argues for both policy and practice to be science-based, open, cost-effective and based on standards set in close consultation with patients. Power must be passed to the consumer wherever possible. The Invisible Hospital and the Secret Garden proposes further ways in which this can be achieved, especially by giving patients influence over how money is spent. His original concepts of 'the invisible hospital' - which patients experience but managers often do not see - and the 'secret garden' - the mystique of medicine which limits necessary change - develop the debate on fundamental cultural issues.

Women in Media Careers takes an in-depth look at women's careers in mass media by outlining job descriptions and providing insider tips on how to begin a career. By investigating positions held by women in top media-owning conglomerates, authors Lee Bollinger and Carole O'Neill assert that while women in the media still struggle against the impenetrable glass ceiling, vibrant changes in the industry have left that ceiling more permeable than ever. Women are inching their way into the executive positions at top media conglomerates making them major power players in the industry. After comparing employment data from the Bureau of Labor Statistics, the Equal Employment Opportunity Commission, and the top Fortune 500 media companies, Bollinger and O'Neill emphasize that despite the great odds set against women, they are succeeding in blazing a career path in mass media. Also discussed are the extraordinary women of the media industry who have gone beyond all boundaries and have succeeded in multiple genres of media or entertainment. Informative and inspiring, Bollinger and O'Neill's encouraging book offers women a reliable resource on the career opportunities in the mass media industry and how they can succeed in securing a position at the top.

A New York Times bestselling author and veteran board member offers an insider's view of corporate boards, their struggles, and why they must adapt to survive. Corporate boards are under great pressure. Scandals and malpractice at companies like Theranos, WeWork, Uber, and Wells Fargo have raised justified questions among regulators, shareholders, and the public about the quality of corporate governance. In *How Boards Work*, prizewinning economist and veteran board director Dambisa Moyo offers an insider's view of corporate boards as they are buffeted by the turbulence of our times. Moyo argues that corporations need boards that are more transparent, more knowledgeable, more diverse, and more deeply involved in setting the strategic course of the companies they lead. *How Boards Work* offers a road map for how boards can steer companies through tomorrow's challenges and ensure they thrive to benefit their employees, shareholders, and society at large.

What if you could gather the smartest people you know into one room and ask them anything? Who would be there? What would you ask? Most likely you would want a wide range of advisors who had been there and done that; people who succeeded. You'd want their sage advice on business and life drawn from their real-life experiences.

"By far the best book on corporate and institutional governance." —Nicholas Katzenbach, former attorney general of the United States In his new foreword to *The Board Book*, former Mellon Foundation and Princeton University president William G. Bowen brings his immense experience to bear on the most pressing questions facing boards of directors and trustees today: seeking collaborative relationships and placing a renewed emphasis on sustainable initiatives. The strategies Bowen relates throughout the book foster the collegiality and sense of purpose—more important in today's turbulent times than ever before—that are integral to any effective board.

*Working Backwards* is an insider's breakdown of Amazon's approach to culture, leadership, and best practices from two long-time Amazon executives. Colin started at Amazon in 1998; Bill joined in 1999. In *Working Backwards*, these two long-serving Amazon executives reveal and codify the principles and practices that drive the success of one of the most extraordinary companies the world has ever known. With twenty-seven years of Amazon experience between them, much of it in the early aughts—a period of unmatched innovation that brought products and services including Kindle, Amazon Prime, Amazon Studios, and Amazon Web Services to life—Bryar and Carr offer unprecedented access to the Amazon way as it was refined, articulated, and proven to be repeatable, scalable, and adaptable. With keen analysis and practical steps for applying it at your own company—no matter the size—the authors illuminate how Amazon's fourteen leadership principles inform decision-making at all levels and reveal how the company's culture has been defined by four characteristics: customer obsession, long-term thinking, eagerness to invent, and operational excellence. Bryar and Carr explain the set of ground-level practices that ensure these are translated into action and flow through all aspects of the business. *Working Backwards* is a practical guidebook and a corporate narrative, filled with the authors' in-the-room recollections of what "Being Amazonian" is like and how it has affected their personal and professional lives. They demonstrate that success on Amazon's scale is not achieved by the genius of any single leader, but rather through commitment to and execution of a set of well-defined, rigorously-executed principles and practices—shared here for the very first time.

The Treasury Committee report, 'Women in the City' was prompted by its work in the banking crisis, which shone a spotlight on the need for reform to increase financial stability, including improving corporate governance within financial institutions. Part of the debate on how to improve corporate governance was around boosting diversity and challenge in the City. Witnesses to the Committee even suggested that greater female representation at senior levels would have made the banking crisis less likely. The report says the lack of diversity on the boards of many, if not most, of our major financial institutions, may have heightened the problems of 'group-think' and made effective challenge and scrutiny of executive decisions less effective. A sector which is failing to properly utilise the talents of over half the population clearly has substantial room for improvement and this entails looking more widely at the industry structure, to ensure that able women who wish to progress are not held back. The report also examines matters such as the long hours culture, the working environment and access to flexible working and family-friendly practices. The report notes that the challenge is not so much to change the legal framework, but to change practice and, where necessary, culture. The onus is on the City to demonstrate that it is committed to improving the representation of women at senior levels within the industry. Whilst the Committee does not believe this should be achieved through the introduction of a quota system, it is clear that such pressure will intensify should the industry fail to act.

It was impossibly expensive, extraordinarily dangerous, and completely unarmed. The U.S. Navy's state-of-the-art NR-1 nuclear powered submersible was the Cold War's most closely guarded - and revolutionary - secret. In 1966, after the U.S. almost lost a hydrogen bomb off the coast of Spain, Admiral Hyman Rickover - father of the nuclear navy - outmaneuvered Congress and steamed full speed ahead on his brainchild: a spy mission and deep ocean recovery submarine with a miniature nuclear reactor that could navigate the ocean floor for weeks at a time. But operating at such depths would also cut off the crew should rescue become necessary. Now, an original crew member reveals the true story of America's Secret Submarine - the triumphs and near disasters of the super-secret NR-1 are told through first person accounts by those who alternately suffered through, and exalted in, its construction and initial operation - and then dared go where no men had gone before.

Being a woman in the health care system is inherently hazardous to your health. Women often experience misdiagnosis and ignorance of their symptoms, in part because for centuries females were excluded from important medical research. This work reveals the gender bias that can cause harm. Tips and tools guide women to better health outcomes.

Based on an ethnographic study of the traditional medicine of African Americans in the rural southern United States, this work concentrates on the original Louisiana Territory, with its Native and African American indigenous traditions, and the French migration and Black Haitian freed and enslaved population influx during the 1700s and 1800s. Fontenot finds strong ties between rural Louisiana practices and Haitian and West African medicine. The ethnographer, a native of the region where she did her research, is respected among local practicing secret doctors and is able to give a unique insider's view. Aside from documenting a rare treasure of our American cultural diversity, this study has a wider purpose in the field of health practices and policy. The high cost of Western medicine, lack of access to quality care, and the patient-doctor ratio are areas of major national concern, and rural residents and people of color are recognized to be the most at-risk populations. The alternative health-care system presented here can strengthen mainstream medicine's understanding of such patient populations while preserving valuable knowledge of healing plants and culturally sensitive therapies.

Opening the tightly guarded doors of the boardroom, *Women on Board* shows the way for directors to achieve high performance and be an essential part of a high-functioning board. This new book by KPMG's Nancy Calderon and *WomenCorporateDirectors'* Susan Stautberg prepares women to take their seat at the boardroom table--and to thrive and add significant value once they get there. Board service today requires a more complex set of skills, experiences, and leadership styles than ever before, making *Women on Board* essential reading both for women considering a directorship and for women currently serving on boards of public companies, private/family firms, or nonprofit organizations. Readers will discover how to make a board of directors visionary, the secrets to getting on the slate as a board candidate, the often unspoken rules of how a board really gets things done, and much more.

"Straight Talk for Startups memorializes age-old best practices and empowers both experienced and new investment professionals to beat the odds."—David Krane, CEO, Google Ventures "Straight Talk for Startups is filled with real, raw, and fact-based 'rules of the road' that you need to know when diving into our ultra-competitive startup world. A must read and a re-read!"—Tony Fadell, Coinventor of the iPod/iPhone & Founder of Nest Labs Veteran venture capitalist Randy Komisar and finance executive Jantoon Reigersman share no-nonsense, counterintuitive guidelines to help anyone build a successful startup. Over the course of their careers, Randy Komisar and Jantoon Reigersman continue to see startups crash and burn because they forget the timeless lessons of entrepreneurship. But, as Komisar and Reigersman show, you can beat the odds if you quickly learn what insiders know about what it takes to build a healthy foundation for a thriving venture. In *Straight Talk for Startups* they walk budding entrepreneurs through 100 essential rules—from pitching your idea to selecting investors to managing your board to deciding how and when to achieve liquidity.
