In *The Pity of War*, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying

War words have embedded themselves in our collective psyche; British politicians are fond of invoking the 'Dunkirk spirit' whenever the country is faced with major crisis or even minor adversity, and Roosevelt's famous description of Pearl Harbor as 'a date which will live in infamy' was echoed by many US commentators after the 9/11 attacks. So far, so familiar. Or is it? How many of us know, for instance, that 'Keep Calm and Carry On', far from achieving its morale-boosting aim, was considered at the time to be deeply patronizing by the people it was directed at, and so had only limited distribution? *The Word at War* explores 100 phrases spawned and popularized in the lead-up and during the conflict of World War Two. Substantial essays explore and explain the derivations of, and the stories behind, popular terms and phraseology of the period, including wartime speeches (and the words of Churchill, Hitler and FDR); service slang; national stereotypes; food and drink; and codewords.

His heroes of the alphabet range from Edward Lear to Phyllis Pearsall (the inventor of the A–Z), and from the two scribes of Beowulf to rappers. Each chapter takes on a different subject – whether it's codes, umlauts or the writing of dictionaries.
