Written sometime in the fourteenth-century, "Romance of the Three Kingdoms" by the famed Chinese writer and playwright Luo Guanzhong, is one of the Four Great Classical Novels of Chinese literature and its influence in China and East Asia can be compared to Shakespeare in England and Europe. This popular tale is remarkable for its length at 800,000 words and its impressive cast of nearly one thousand dramatic characters. The story, which contains elements of true historical accounts mixed with myth and legend, is set during the tumultuous end of the Han dynasty in 169 AD and ends with the reunification of the country in 280 AD. This time was known as the "Three Kingdoms" period in Chinese history and is famous for the battles waged by feudal lords and their loyal retainers as they fought with each other to either replace the fading Han dynasty or restore it to its former power. The story follows hundreds of characters during this time of unrest and conflict and focuses on the politics, diplomacy, and struggle for power of the time. This edition is printed on premium acid-free paper and follows the translation of C. H. Brewitt-Taylor. The Philippines series of the PALI Language Texts, under the general editorship of Howard P. McKaughan, consists of lesson textbooks, grammars, and dictionaries for seven major Filipino languages.

New York Times Bestseller: The shadowy world of "off the books" businesses—from marijuana to migrant workers—brought to life by the author of Fast Food Nation. America's black market is much larger than we realize, and it affects us all deeply, whether or not we smoke pot, rent a risqué video, or pay our kids' nannies in cash. In Reefer Madness, the award-winning investigative journalist Eric Schlosser turns his exacting eye to the underbelly of American capitalism and its far-reaching influence on our society. Exposing three American mainstays—pot, porn, and illegal immigrants—Schlosser shows how the black market has burgeoned over the past several decades. He also draws compelling parallels between underground and overground: how tycoons and gangsters rise and fall, how new technology shapes a market, how government intervention can reinvigorate black markets as well as mainstream ones, and how big business learns—and profits—from the underground. "Captivating . . . Compelling tales of crime and punishment as well as an illuminating glimpse at the inner workings of the underground economy. The book revolves around two figures: Mark Young of Indiana, who was sentenced to life in prison without parole for his relatively minor role in a marijuana deal; and Reuben Sturman, an enigmatic Ohio man who built and controlled a formidable pornography distribution empire before finally being convicted of tax evasion. . . . Schlosser unravels an American society that has 'become alienated and at odds with itself.' Like Fast Food Nation, this is an eye-opening book, offering the same high level of reporting and research." —Publishers Weekly

In Dream Story, a married couple are first traumatized and then achieve a new depth of understanding by confessing to each other their sexual fantasies, dream-like adventures and might-have-beens. Taking us on a guided tour of Vienna's seedy cafés, red-light district, decadent villas, hospitals and morgue, Schnitzler brilliantly uncovers the violence and depravity lurking beneath the surface of civilized society. Like his Viennese contemporary Sigmund Freud, the doctor and writer Arthur Schnitzler was a bold pioneer in exploring the dark tangled roots of human sexuality.

Now in its ninth edition, American Constitutional Law is the only book that develops constitutional law in the comprehensive sense. Along with containing analyses and excerpts of court decisions, the book highlights the efforts of legislatures, executives, the states, and the general public to participate in an ongoing political dialogue rather than passively receive a series of unilateral judicial commands. It covers all new developments in case law, congressional statutes, presidential policies, and initiatives undertaken by states under their own constitutions. The book includes readings not only from cases but congressional floor debates, committee reports, committee hearings, presidential vetoes and other statements, state actions, Federalist papers, and professional journals. It also includes a chapter on equal protection that addresses immigration law and the rights of aliens. This book evolved through the efforts of several organizations and the dedication of many individuals. In 1987, we received a request to propose a workshop topic for the Fifth International Theriological Congress (ITC) to be held in August 1989 in Rome, Italy. After looking up the meaning of the word "theriological" in the dictionary and discovering that it pertains to mammalian behavior, we decided a symposium on sensory abilities of whales and dolphins would be an interesting topic. The ITC convenes only every five years and has the distinction of being very well attended by scientists from around the world. We thought that hosting a workshop in conjunction with the ITC would attract a variety of international scientists that rarely have the opportunity to interact. Fortunately for all involved, our prediction was correct. The first two days of the workshop, 23-24 August 1989, were held in conjunction with ITC and the nearly 1,000 attending scientists were able to view our posters and listen to lectures. The third day was limited to only about 65 invited scientists who were divided into topical working groups chaired by a rapporteur.

Professor Gail Dines has written about and researched the porn industry for over two decades. She attends industry conferences, interviews producers and performers, and speaks to hundreds of men and women each year about their experience with porn. Students and educators describe her work as "life changing." In Pornland—the culmination of her life's work—Dines takes an unflinching look at porn and its affect on our lives. Astonishingly, the average age of first viewing porn is now 11.5 years for boys, and with the advent of the Internet, it's no surprise that young people are consuming more porn than ever. But, as Dines shows, today's porn is strikingly different from yesterday's Playboy. As porn culture has become absorbed into pop culture, a new wave of entrepreneurs are creating porn that is even more hard-core, violent, sexist, and racist. To differentiate their products in a glutted market, producers have created profitable niche products—like teen sex, torture porn, and gonzo—in order to entice a generation of desensitized users. Going from the backstreets to Wall Street, Dines traces the extensive money trail behind this multibillion-dollar industry—one that reaps more profits than the film and music industries combined. Like Big Tobacco—with its powerful lobbying groups and sophisticated business practices—porn companies don't simply sell products. Rather they

influence legislators, partner with mainstream media, and develop new technologies like streaming video for cell phones. Proving that this assembly line of content is actually limiting our sexual freedom, Dines argues that porn's omnipresence has become a public health concern we can no longer ignore.

THERE are some strange summer mornings in the country, when he who is but a sojourner from the city shall early walk forth into the fields, and be wonder-smitten with the trance-like aspect of the green and golden world. Not a flower stirs; the trees forget to wave; the grass itself seems to have ceased to grow; and all Nature, as if suddenly become conscious of her own profound mystery, and feeling no refuge from it but silence, sinks into this wonderful and indescribable repose. Such was the morning in June, when, issuing from the embowered and high-gabled old home of his fathers, Pierre, dewily refreshed and spiritualized by sleep, gayly entered the long, wide, elm-lined street of the village, and half unconsciously bent his steps toward a cottage, which peeped into view near the end of the vista. The verdant tract lay far and wide; and through it nothing came but the brindled kine, dreamily wandering to their pastures, followed, not driven, by ruddy-cheeked, white-footed boys. As touched and bewitched by the loveliness of this silence, Pierre neared the cottage, and lifted his eyes, he swiftly paused, fixing his glance upon one upper, open casement there. Why now this impassioned, youthful pause? Why this enkindled cheek and eye? Upon the sill of the casement, a snow-white glossy pillow reposes, and a trailing shrub has softly rested a rich, crimson flower against it. Well mayst thou seek that pillow, thou odoriferous flower, thought Pierre; not an hour ago, her own cheek must have rested there.

"Lucy!" "Pierre!" As heart rings to heart those voices rang, and for a moment, in the bright hush of the morning, the two stood silently but ardently eying each other, beholding mutual reflections of a boundless admiration and love. "Nothing but Pierre," laughed the youth, at last; "thou hast forgotten to bid me good-morning." "That would be little. Good-mornings, good-evenings, good days, weeks, months, and years to thee, Pierre; - bright Pierre! - Pierre!" Truly, thought the youth, with a still gaze of inexpressible fondness; truly the skies do open, and this invoking angel looks down. - "I would return thee thy manifold good-mornings, Lucy, did not that presume thou had'st lived through a night; and by Heaven, thou belong'st to the regions of an infinite day!" "Fie, now, Pierre; why should ye youths always swear when ye love!" "Because in us love is profane, since it mortally reaches toward the heaven in ye!" "There thou fly'st again, Pierre; thou art always circumventing me." Are you looking for a journal to give the best gift for a couple? NOW A NETFLIX SERIES ENTITLED "SPECIAL" FROM EXECUTIVE PRODUCER JIM PARSONS STARRING RYAN O'CONNELL AS HIMSELF. From the beloved blogger turned voice of an online generation, an unforgettable and hilarious memoir-meets-manifesto exploring what it means to be a millennial gay man living with cerebral palsy, which VICE calls "a younger, gay version of Mary Karr's *Lit*." People are obsessed with Ryan O'Connell's blogs. With tens of thousands reading his pieces on Thought Catalog and Vice, watching his videos on YouTube, and hanging on to each and every #dark tweet, Ryan has established himself as a unique young voice who's not afraid to dole out some real talk. He's that candid, snarky friend you consult when you fear you're spending too much time falling down virtual k-holes stalking your ex on Facebook or when you've made the all-too-common mistake of befriending a psycho while wasted at last night's party and need to find a way to get rid of them the next morning. But Ryan didn't always have the answers to these modern day dilemmas. Growing up gay and disabled with cerebral palsy, he constantly felt like he was one step behind everybody else. Then the rude curveball known as your twenties happened and things got even more confusing. Ryan spent years as a Millennial cliché: he had dead-end internships; dabbled in unemployment; worked in his pajamas as a blogger; communicated mostly via text; looked for love online; spent hundreds on "necessary" items, like candles, while claiming to have no money; and even descended into aimless pill-popping. But through extensive trial and error, Ryan eventually figured out how to take his life from bleak to chic and began limping towards adulthood. Sharp and entertaining, *I'm Special* will educate twentysomethings (or other adolescents-at-heart) on what NOT to do if they ever want to become happy fully functioning grown ups with a 401k and a dog.

This is the first in the PALI Language Text series to deal with a Southeast Asian language. The author's approach in this pronunciation guide owes much to the methodology pioneered by Charles Fries. A basic assumption of this approach is that in learning a new language the problem is not first of all learning vocabulary but "mastery of the sound system." Moreover, the problems of learning a new sound system vary with the native language of the student. This manual is designed specifically for the English-speaking student and concentrates on the particular difficulties an English-speaking person would have in learning to speak Vietnamese. There are no outstanding grammatical differences in the three main Vietnamese dialects, but there are some significant phonological differences. The Saigon dialect forms the main core of the lessons here, but materials and drills of standard Hanoi Vietnamese have been included in review lessons for recognition purposes.

The Turn of the Screw is an 1898 horror novella by Henry James that first appeared in serial format in *Collier's Weekly* magazine (January 27 - April 16, 1898). In October 1898 it appeared in *The Two Magics*, a book published by Macmillan

in New York City and Heinemann in London. Classified as both gothic fiction and a ghost story, the novella focuses on a governess who, caring for two children at a remote estate, becomes convinced that the grounds are haunted.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

There's a common belief that cyberspace cannot be regulated—that it is, in its very essence, immune from the government's (or anyone else's) control. Code argues that this belief is wrong. It is not in the nature of cyberspace to be unregulable; cyberspace has no "nature." It only has code—the software and hardware that make cyberspace what it is. That code can create a place of freedom—as the original architecture of the Net did—or a place of exquisitely oppressive control. If we miss this point, then we will miss how cyberspace is changing. Under the influence of commerce, cyberspace is becoming a highly regulable space, where our behavior is much more tightly controlled than in real space. But that's not inevitable either. We can—we must—choose what kind of cyberspace we want and what freedoms we will guarantee. These choices are all about architecture: about what kind of code will govern cyberspace, and who will control it. In this realm, code is the most significant form of law, and it is up to lawyers, policymakers, and especially citizens to decide what values that code embodies.

CBS camera-man Mike Marriott was on the last plane to escape from Danang before it fell in the spring of 1975. The scene was pure chaos: thousands of panic-stricken Vietnamese storming the airliner, soldiers shooting women and children to get aboard first, refugees being trampled to death. Marriott remembers standing at the door of the aft stairway, which was gaping open as the plane took off. "There were five Vietnamese below me on the steps. As the nose of the aircraft came up, because of the force and speed of the aircraft, the Vietnamese began to fall off. One guy managed to hang on for a while, but at about 600 feet he let go and just floated off—just like a skydiver.... What was going through my head was, I've got to survive this, and at the same time, I've got to capture this on film. This is the start of the fall of a country. This country is gone. This is history, right here and now." In *Tears Before the Rain*, a stunning oral history of the fall of South Vietnam, Larry Engelmann has gathered together the testimony of seventy eyewitnesses (both American and Vietnamese) who, like Mike Marriott, capture the feel of history "right here and now." We hear the voices of nurses, pilots, television and print media figures, the American Ambassador Graham Martin, the CIA station chief Thomas Polgar, Vietnamese generals, Amerasian children, even Vietcong and North Vietnamese soldiers. Through this extraordinary range of perspectives, we experience first-hand the final weeks before Saigon collapsed, from President Thieu's cataclysmic withdrawal from Pleiku and Kontum, (Colonel Le Khac Ly, put in command of the withdrawal, recalls receiving the order: "I opened my eyes large, large, large. I thought I wasn't hearing clearly") to the last-minute airlift of Americans from the embassy courtyard and roof ("I remember when the bird ascended," says Stuart Herrington, who left on one of the last helicopters, "It banked, and there was the Embassy, the parking lot, the street lights. And the silence"). Touching, heroic, harrowing, and utterly unforgettable, these dramatic narratives illuminate one of the central events of modern history. "It was like being at Waterloo," concludes Ed Bradley of 60 Minutes. "It was so important, so historical. And today it is still very obvious that we Americans have not recovered from Vietnam.... Nothing else in my lifetime was as important as that—as important as Vietnam."

This encyclopedia presents a wealth of information on early cinema history, with coverage of the techniques and equipment of film production, profiles of the pioneering directors and producers, analysis of individual films and the rapid growth of distinct film genres, and the emergence of something the world had never seen before - the movie star. The work also focuses on how the nature of film exhibition changed as the industry grew, and how the public's reception to films also changed. The pre-cinema period is closely examined to show those mass-cultural forms and practices - such as music hall and vaudeville - from within which cinema was to emerge. A perfect companion for any student of early cinema and film studies.

"Oliver Twist with a twist... Waters spins an absorbing tale that withholds as much as it discloses. A pulsating story."—The New York Times Book Review *The Handmaiden*, a film adaptation of *Fingersmith*, directed by Park Chan-wook and starring Kim Tae-ri, is now available. Sue Trinder is an orphan, left as an infant in the care of Mrs. Sucksby, a "baby farmer," who raised her with unusual tenderness, as if Sue were her own. One day, the most beloved thief of all arrives—Gentleman, an elegant con man, who carries with him an enticing proposition for Sue: If she wins a position as the maid to Maud Lilly, a naïve gentlewoman, and aids Gentleman in her seduction, then they will all share in Maud's vast inheritance. Once the inheritance is secured, Maud will be disposed of—passed off as mad, and made to live out the rest of

her days in a lunatic asylum. With dreams of paying back the kindness of her adopted family, Sue agrees to the plan. Once in, however, Sue begins to pity her helpless mark and care for Maud Lilly in unexpected ways...But no one and nothing is as it seems in this Dickensian novel of thrills and reversals.

In one volume, the screenplays to two contemporary classics, directed by Richard Linklater, and starring Ethan Hawke and Julie Delpy, about the immediate and life-altering attraction between two strangers. On a train from Budapest to Vienna, Jesse, a young American student, at the end of a romance and his European trip, meets Celine, a young French woman. They are immediately attracted. Despite knowing this may be the only time they will see each other, in the next few hours in the city of Vienna, they share everything and promise to meet again. Nearly a decade later, Jesse, now a novelist on a publicity tour, sees Celine in a bookstore in Paris. Again their time is short, and they spend it reestablishing the connection they experienced on their first meeting. Romantic, poignant, understated, and often profound, these two screenplays are sure to become classics in their own right.

The original novel that inspired the films! First published more than fifty years ago, Pierre Boulle's chilling novel launched one of the greatest science fiction sagas in motion picture history. In the not-too-distant future, three astronauts land on what appears to be a planet just like Earth, with lush forests, a temperate climate, and breathable air. But while it appears to be a paradise, nothing is what it seems. They soon discover the terrifying truth: On this world humans are savage beasts, and apes rule as their civilized masters. In an ironic novel of nonstop action and breathless intrigue, one man struggles to unlock the secret of a terrifying civilization, all the while wondering: Will he become the savior of the human race, or the final witness to its damnation? In a shocking climax that rivals that of the original movie, Boulle delivers the answer in a masterpiece of adventure, satire, and suspense.

The films that society has termed pornographic have been with us for over a century now. Yet beyond a handful of scholarly tracts and a few glancing references in certain Hollywood histories, there is no modern history of the subject available. Featuring exclusive interviews, descriptions of over 300 films and written in a conversational style, Black and White and Blue fills that void.
