

Year 10 Gcse Information Booklet 2016 2018

Being taught by a great teacher is one of the great privileges of life. Teach Now! is an exciting new series that opens up the secrets of great teachers and, step-by-step, helps trainees to build the skills and confidence they need to become first-rate classroom practitioners. Written by a highly-skilled practitioner, this practical, classroom-focused guide contains all the support you need to become a great modern foreign languages teacher. Combining a grounded, modern rationale for learning and teaching with highly practical training approaches, the book guides you through all the different aspects of MFL teaching offering clear, straightforward advice on classroom practice, lesson planning and working in schools. Teaching and learning, planning, assessment and behaviour management are all covered in detail, with a host of carefully chosen examples used to demonstrate good practice. There are also chapters on the essentials of the MFL curriculum, pedagogical techniques, strategies to engage students in language learning, and how to succeed in observations and interviews. Throughout the book, there is a great selection of ready-to-use activities, approaches and techniques which will help put you on the fast track to success in the classroom. Covering everything you need to know, this book is your essential guide as you start your exciting and rewarding career as an outstanding MFL teacher.

The new edition of Pearson Edexcel GCSE (9-1) Mathematics Foundation Student Book 1 develops reasoning, fluency and problem-solving to boost students' confidence and give them the best preparation for GCSE study. Purposefully updated based on feedback from thousands of teachers and students, as well as academic research and impact studies Bolsters preparation for GCSE with new questions that reflect the latest exams and a format that seamlessly aligns with our GCSE Maths courses Shown to help GCSE students master maths with confidence with a UK-specific approach that draws upon global best practices and cutting-edge research Tried-and-tested differentiation with a unique unit structure and improved pacing to support every student's progress Extra skills-building support, problem-solving, and meaningful practice to consolidate learning and deepen understanding New additions to boost progression and post-GCSE study such as 'Future skills questions' and 'Working towards A level' features

Endorsed by WJEC Ensure that every student develops the reading, writing and oracy skills they need to fulfil their potential with this confidence-boosting, skills-focused Student's Book that contains a rich bank of stimulus texts and progressive activities designed specifically for the new WJEC specification in Wales. - Guides you and your students through the 2015 English language requirements, mapping the core content thematically to support teaching and learning - Enables students of all ability levels to build and boost their English language skills by working through a variety of developmental activities supported by extension tasks to stretch high achievers - Includes a range of engaging literary and non-fiction texts that aid comprehension, encourage comparison and provide effective models for students' own writing for different purposes and genres - Prepares students for examination by providing numerous opportunities to practise the new question types and sample student answers that show

clearly how they could be improved - Offers trusted, question-focused advice from an author team with extensive teaching and examining experience

Directions gives you all the material you need to teach the scheme of work. The three books follow the Scheme of Work precisely and contain: plenty of challenging ideas and a huge variety of tasks to develop knowledge and understanding across a wide ability range a real balance of learning about and learning from religion through activities plentiful use of quotations, allowing pupils to get to grips with interpretation regular development of pupils' knowledge and correct use of specialist terminology (level 4) website addresses and plenty of opportunities for the use of ICT support for Citizenship at Key Stage 3.

Only SMP Interact for the new two-tier mathematics gives you all these benefits: Teaching materials of outstanding quality; Exact matching to the new AQA, Edexcel and OCR specifications; A unique structure that caters effectively for the wide range of attainment spanned by the new tiers. Each students' book contains review sections and full answers; linked to it are an optional practice book that follows the structure of the main text, making it easy to organise extra practice, homework and revision.

A new series of bespoke, full-coverage resources developed for the 2016 GCSE Computer Science qualifications. Written for the OCR GCSE Computer Science specification for first teaching from 2016, this print Student Book uses an exciting and engaging approach to help students build their knowledge and master underlying computing principles and concepts. Designed to develop computational thinking, programming and problem-solving skills, this resource includes challenges that build on learning objectives, and real-life examples that demonstrate how computer science relates to everyday life. Remember features act as revision references for students and key mathematical skills relevant to computer science are highlighted throughout. A digital Cambridge Elevate-enhanced Edition and a free digital Teacher's Resource are also available.

This text has been completely revised to support the ICAA/CCEA (formerly NDTEF) GCSE ICT specification for September 2001. As well as covering all aspects of the specification thoroughly, the text provides plenty of activities to bring alive the world of ICT for your students.

This revision guide includes questions in the appropriate style for the assessment, exam practice, exam tips and dedicated textbooks for both higher and foundation tier. Written for the new Suffolk (OCR B) specification, it matches its staged assessment exactly.

researchED is an educator-led organisation with the goal of bridging the gap between research and practice. This accessible and punchy series, overseen by founder Tom Bennett, tackles the most important topics in education, with a range of experienced contributors exploring the latest evidence and research and how it can apply in a variety of classroom settings. In this edition, James Murphy examines the latest evidence surrounding student literacy, editing contributions from a wide range of writers.

All parents want their child to be happy and successful at school, but few decisions are harder than identifying the right

school for your child. The Independent Schools Guide, now in its 17th edition, provides all the guidance and advice needed to make the most informed decisions. The book includes an extensive reference section for over 2,000 schools; details on fee planning, scholarships and bursaries; guidance for overseas parents, including language support and guardianship; and detailed profiles of over 200 schools and colleges. For any parent, guardian or carer who is considering the independent sector, the Guide is the definitive reference source.

This Success Revision Guide offers accessible content to help students manage their revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is offered to help build students' confidence. Exam tips and techniques are provided to support students throughout the revision process.

AQA approved. Build your students' scientific thinking, analysis and evaluation with this textbook that leads them seamlessly from basic concepts to more complicated theories, with topical examples, practical activities and mathematical support throughout. Developed specifically for the 2016 AQA GCSE Combined Science Trilogy specification. -Builds experimental, analytical and evaluation skills with activities that introduce the 16 required practicals, along with extra Working Scientifically tasks for broader learning -Provides plenty of opportunity for students to apply their knowledge and understanding with Test Yourself questions, Show You Can challenges, Chapter review questions and synoptic practice questions -Supports Foundation and Higher tier students in one book, with Higher tier-only content clearly marked. Book 2 covers the topics in Biology Paper 2, Chemistry Paper 2 and Physics Paper 2

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Higher tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Higher tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

Schools across the world are struggling to balance the statutory requirements of a national curriculum with their desire to provide the wide, engaging and exciting curriculum that they know children need. Concerns about standards often lead to a narrowing of the curriculum and many schools lack the confidence and approach to design that would enable them to resolve what seems like an impossible dilemma. In this authoritative yet engaging book, Brian Male and Mick Waters look at how schools can meet the requirements of a national curriculum and yet be flexible enough to meet the needs, interests and concerns of pupils, to be rooted in their lives and localities and to give scope for teachers to use their own

creativity. The Secondary Curriculum Design Handbook is a practical guide to designing a curriculum that will engage children's interest, excite their imaginations and at the same time provide them with the knowledge, skills and understanding they need to live successfully in the 21st Century.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Created specifically for the Edexcel GCSE Mathematics Higher tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Higher tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

This second edition updates a course which has proven to be a perfect fit for classes the world over. The Teacher's Resource Book contains the content for the A and B Combos for Starter level in one volume. All unit numbers and page references correspond to the Combos. It contains extra photocopiable grammar and communication activities and full pages of teaching tips and ideas specially written by methodology expert, Mario Rinvoluceri. A Combo Testmaker Audio CD/CD-ROM which allows teachers to create and edit their own tests is also available separately, as is Classware for the full edition which integrates the Student's Book, class audio and video.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English qualifications. Written for the AQA GCSE English Literature specification for first teaching from 2015, this Student Book provides in-depth support for studying Frankenstein. Exploring Mary Shelley's novel chapter-by-chapter and as a whole text, this resource builds students' skills and confidence in understanding and writing about this 19th-century classic. An enhanced digital version and a free Teacher's Resource are also available.

The new edition of Pearson Edexcel GCSE (9-1) Mathematics Higher Student Book 1 develops reasoning, fluency and problem-solving to boost students' confidence and give them the best preparation for GCSE study. Purposefully updated based on feedback from thousands of teachers and students, as well as academic research and impact studies Bolsters preparation for GCSE with new questions that reflect the latest exams and a format that seamlessly aligns with our GCSE Maths courses Shown to help GCSE students master maths with confidence with a UK-specific approach that draws upon global best practices and cutting-edge research Tried-and-tested differentiation with a unique unit structure and improved pacing to support every student's progress Extra skills-building support, problem-solving, and meaningful practice to consolidate learning and deepen understanding New additions to boost progression and post-GCSE study such as 'Future skills questions' and 'Working towards A level' features

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Created specifically for the Edexcel GCSE Mathematics Foundation tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Foundation tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English qualifications. Endorsed for the AQA GCSE English Literature specification for first teaching from 2015, this print Student Book provides specific set text coverage for the Shakespeare aspect of the specification. With progress at its heart and designed for classroom and independent use, students will build their skills through a range of active learning approaches, including class, group and individual activities. Incorporating differentiated support, activities will also help students develop whole-text knowledge. An enhanced digital version and free Teacher's Resource are also available.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Written for the AQA GCSE Mathematics Foundation tier specification for first teaching from 2015, our Homework Book is an ideal companion to the AQA Foundation tier Student Book and can be used as a standalone resource. With exercises that correspond to each section of the Student Book, it offers a wealth of additional questions for practice and consolidation. Our Homework Books contain a breadth and depth of questions covering a variety of skills, including problem-solving and mathematical reasoning, as well as extensive drill questions. Answers to all questions are available free on the Cambridge University Press UK Schools website.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Approved by AQA and created specifically for the GCSE Mathematics Foundation tier specification for first teaching from 2015, this Student Book covers the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource. This student book for year 11 provides all the information needed to cover the specification for GCSE science. It is interactive and includes questions and exercises.

Compute-IT will help you deliver innovative lessons for the new Key Stage 3 Computing curriculum with confidence, using resources and meaningful assessment produced by expert educators. With Compute-IT you will be able to assess and record students' attainment and monitor progression all the way through to Key Stage 4. Developed by members of Computing at School, the national subject association for Computer Science, and a team of Master Teachers who deliver CPD through the Network of Excellence project funded by the Department for Education, Compute-IT provides a cohesive and supportive learning package structured around the key strands of Computing. Creative and flexible in its approach, Compute-IT makes Computing for Key Stage 3 easy to teach, and fun and meaningful to learn, so you can: Follow well-structured and finely paced lessons along a variety of suggested routes through Key Stage 3 Deliver engaging and interesting lessons using a range of files and tutorials provided for a range of different programming languages Ensure progression throughout Key Stage 3 with meaningful tasks underpinned by unparalleled teacher and student support Assess students' work with confidence, using ready-prepared formative and summative tasks that are mapped to meaningful learning outcomes and statements in the new Programme of Study Creative and flexible in its approach, Compute-IT makes Computing for Key Stage 3 easy to teach, and fun and meaningful to learn. This is the third title in the Compute-IT course, which comprises three Student's Books, three Teacher Packs and a range of digital teaching and learning resources delivered through Dynamic Learning.

Emphasis in this book is placed on developing pupils' ability to build and apply ICT skills in a range of contexts. An extended chapter on coursework gives detailed step-by-step guidance on what pupils need to do to gain maximum marks for their projects. Practice exam questions at the end of each chapter help pupils develop confidence.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the Edexcel GCSE Mathematics Foundation tier specification for first teaching from 2015, our Homework Book is an ideal companion to the Edexcel Foundation tier Student Book and can be used as a standalone resource. With exercises that correspond to each section of the Student Book, it offers a wealth of additional questions for practice and consolidation. Our Homework Books contain a breadth and depth of questions covering a

variety of skills, including problem-solving and mathematical reasoning, as well as extensive drill questions. Answers to all questions are available free on the Cambridge University Press UK Schools website.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English Language qualifications. Endorsed for the AQA GCSE English Language specification for first teaching from 2015, this print Student Book is designed for students working from grades 5 to 9. With progress at its heart, this differentiated resource covers a range of 19th-, 20th- and 21st-century texts and has spelling, punctuation and grammar support integrated throughout. The Student Book includes in-depth guidance to help students develop the skills necessary to write about an unseen text, as well as a dedicated spoken language section. An enhanced digital version and free Teacher's Resource are also available.

Using examples of student work from a variety of approaches, this text focuses on helping students to maximise their achievements. It provides guidance on compiling a work journal and the externally set assignment.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, our Homework Book is an ideal companion to the OCR Foundation tier Student Book and can be used as a standalone resource. With exercises that correspond to each section of the Student Book, it offers a wealth of additional questions for practice and consolidation. Our Homework Books contain a breadth and depth of questions covering a variety of skills, including problem-solving and mathematical reasoning, as well as extensive drill questions. Answers to all questions are available free on the Cambridge University Press UK Schools website.

Salters Science is a GCSE science programme which offers a motivating, context-led approach to GCSE science. Its underlying principles make teaching science an interactive process, with the aim of improving the results students achieve by inspiring them to want to learn more.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English qualifications.
