In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National

Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

When another child asked Louis Vendetti about his disability at the age of five, he responded, "My legs have Cerebral Palsy." In this way, he never let his disability define him. In this honest and insightful book, My Disability Doesn't Define Me, Vendetti shares with us his personal journey as a young man with Cerebral Palsy. Through his years in elementary school, secondary school, and then college, Vendetti and his

mom quickly learned that advocating for himself required more than just a meeting with the school and some paperwork. It required a strength, perseverance, and resilience that Vendetti had to discover from within. With his characteristic optimism, Vendetti gives us a glimpse at what it's like to be a handi-capable student, courageously making his way through the public school and higher education systems. He proves that living with the challenges of a physical disability while balancing the demands of receiving an education can be hard, but it is possible. Vendetti's lessons and life experiences apply to anyone who has ever had to overcome a challenge or a struggle to find triumph and joy in the end, and will inspire us all to live our fullest and most capable lives. Use that lesson to help heal inwardly, rise, and take that first step forward out of your ashes. When you fall or make wrong choices on your Journey, it is not The End it´s just the end result of your fall or wrong choice. Your fault, their fault? Doesn´t matter. It´s the Lesson, the growth from that Lesson, and your re-entry onto the Freeway of Your Life that matter. That valley you fall into is actually the training ground and learning curve for your next level/next place/next season in your life. That Valley is the proving ground that prepares you for where you´re

Know how to Turn the Page, Clear your View and See your Next Level. I want people to view themselves differently After the Fire and After the Fall. I ask the readers to view the seasons of their Past through a fresh set of lenses (reflect), rebuild (heal), recalibrate (reset their personal compass), and catch a New Vision for their lives and future. Looking at my daughters wedding photographs five years ago, I noticed a matronly woman on the cusp of entering middle age. I have no intention of ending up looking like my mother or grandmother at that age, plump, not necessarily obese, was the order of the day. I decided to adopt the health, rather than weight control approach, and with my own philosophy in addressing image, weight and confidence issues, that afflict many. I hope by sharing my experiences with others will motivate them to take control of who they want and can be. When my mother died relatively young of a terminal illness

despite her general well-being and love of life, especially her Chinese opera performances and travelling with her friends, it was almost our steady family was shaken up. At the same time my two growing children were exhibiting all the adolescence and teenage growing pains. It forced me to take stock and made phenomenal changes to our lives to keep my family intact. The journey to bring them up in the best way I know how, ensued a learning experience invaluable in my understanding of relationship and how powerful it can be to change lives.

Lauren remembers getting out of bed every morning with a growing hate towards herself. She hated the way she looked. She hated the way she felt. She hated the person she was. Constantly comparing herself to social media influencers and models she wanted to become so badly. Wishing she was someone else. Anyone else but her. Lauren showed signs of Body Dysmorphic Disorder, Anorexia, depression and was clinically diagnosed with Polycystic Ovaries (PCOS). As a repercussion, she is currently battling an undefined chronic illness. The battle she had with herself was all self-inflicted. I had created this life for myself. I never understood why I continued to critique my body. Why I was never happy with it. Why I refused to eat and why it was so important to be 'skinny'. It stemmed from somewhere. We are not born with these thoughts. Along our journeys something has happened which has led to many females becoming so self-conscious and so fixated on achieving that 'perfect body'. But guess what? That perfect body is different for everyone-That perfect body does not mean we must

It doesn't matter if you are a model, an athlete, a professional or a student. These issues can creep up and cause a profound impact on your life. This book enables females to ignite that spark and let them know that there is a way out of this toxic cycle. Self-love is key to giving us the strength. Once you find that inner power from within, you can escape this journey before it starts controlling your life. The moment we truly accept who we are, the moment our lives change. The ease will come, and happiness will follow. A body does not define you.#rawisbeautiful

From a leading prison abolitionist, a moving memoir about coming of age in Brooklyn and surviving incarceration—and a call to break free from all the cages that confine us. Marlon Peterson grew up in 1980s Crown Heights, raised by Trinidadian immigrants. Amid the routine violence that shaped his neighborhood, Marlon became a high-achieving and devout child, the specter of the American dream opening up before him. But in the aftermath of immense trauma, he participated in a robbery that resulted in two murders. At nineteen, Peterson was charged and later convicted. He served ten long years in prison. While incarcerated, Peterson

immersed himself in anti-violence activism, education, and prison abolition work. In *Bird Uncaged*, Peterson challenges the typical “redemption” narrative and our assumptions about justice. With vulnerability and insight, he uncovers the many cages—from the daily violence and trauma of poverty, to policing, to enforced masculinity, and the brutality of incarceration—created and maintained by American society. *Bird Uncaged* is a twenty-first-century abolitionist memoir, and a powerful debut that demands a shift from punishment to healing, an end to prisons, and a new vision of justice.

"My love, speak to me. Tell me everything." Neferet went to Kalona, kneeling before him, stroking the soft, dark wings that unfurled loosely around the immortal. "What would you have me say?" He didn't meet her eyes. "Zoey lives." Neferet's voice was flat, cold, lifeless. "She does." "Then you owe me the subservience of your immortal soul." She started to walk away from him. quite simple. I will ensure Zoey is drawn back to Oklahoma. There, on my own terms, I will complete the task you failed." Exonerated by the Vampyre High Council and returned to her position of High Priestess at Tulsa's House of Night, Neferet has sworn vengeance on Zoey. Dominion over Kalona is only one of the weapons she plans to use against Z. But Zoey has found sanctuary on the Isle of Skye and is being groomed by Queen Sgiach to take over for her there. Being Queen would be cool, wouldn't it? Why should she return to Tulsa? After losing her human consort, Heath, she will never be the same – and her relationship with her super-hot-warrior, Stark, may never be the same either... And what about Stevie Rae and Rephaim? The Raven Mocker refuses to be used against Stevie Rae, but what choice does he have when no one in the entire world, including Zoey, would be okay with their relationship? Does he betray his father or his heart? In the pulse-pounding 8th book in the bestselling House of Night series, how far will the bonds of friendship stretch and how strong are the ties that bind one girl's heart? This book is about digging deeper within yourself and other people, so that you can be the best that you can be for yourself and those around you. It's not too late to change your life for the better; you haven't made too many mistakes. Your past does not define your future, and your beginning does not define your end. You can heal from the hurt and the pain you've experienced in the past, and the abuse, disappointments and difficulties that you have experienced. This book will help you on your road to success and towards complete emotional

healing, and it will help you to improve every area of your life. To discover true valuable treasures you have to dig for it, anything that's valuable you have to search for in hidden places. Gold, diamonds, and pearls are all valuable things, but you don't find them lying around on the ground, you have to search and dig for it to find it; the same goes with people, books, and Scriptures. You should not judge a book by its cover, because if you look inside you might discover valuable gold where you'd least expect it. If you look beneath people's shells and deeper into who they really are, you might discover a treasurable pearl that you wouldn't want to be without. Do you think that it is right to judge a person based on your first impression of them? Would you want to be judged after just one look? Would people know everything about you if they did? Or do you believe that everybody deserves at least one chance to prove that they are a unique and different person? Do you think you know everything about this book after just one look? Or do you dare to give it a chance? If so, keep on reading, and it may change your life.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers

like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters. Challenges, confusion, heartbreaks, broken promises, lies, freedom, misunderstood, bad choices, I've been there. We've all been there. Many of us haven't let the cat out of the bag because of fear of what others would say or think. The judgment was real, whether intentional or unintentional. If this is the fear you are holding on to, I am here to let you know, you are not alone and don't have to be alone. Ever tried to talk about things and still felt misunderstood? You felt as if the fingers were solely being pointed at you? You were taken as too sensitive, or too spoiled. You felt as if you were speaking to a dead

horse no matter what. It causes you to shut down. It causes you to place yourself in a silent zone and say, "forget it." Therefore, you develop this wall. You find ways to place a smile on the outside while crying on the inside. Crying on the outside becomes embarrassing. You see I went through life scared to open up, scared to speak up about certain situations from fear of judgment or fear of what others would say. The judgment stemmed from people "not knowing" me as much as they thought. They failed to realize everything that I've experienced, led to why I acted the way I did. But how would they know when I was silent about every issue, every hurt. You're probably wondering, why I was silent? Well, I was raised to be a strong, independent, young, Christian, woman. If things were not going the way I desired, fix them. When things seemed to fall downward, pick yourself up and fix them. I was raised to accept the consequences. I was raised to have high expectations for myself. Not wanting to let my parents down, I fought to fulfill that expectation any way possible. I was also raised to keep people out of your business. Yes, somewhat true, but not true to the point where you hold everything inside. It is imperative to have trusted friends in today's society. I'm grateful for the trusted friends I have. I write this book to you in hopes that I will inspire, motivate, and encourage you to keep pushing towards God's plan for you and only you despite what others think of you. Sure! We made bad decisions in life that were not necessarily the best choice, we accepted the consequences for our actions. It can take us into a direction of darkness, leaving us yearning for a way out.

If we are not careful, we could end up in the wrong crowd. If we are not careful, we could end up in bad relationship with men who do not value us as the queen God created. Nevertheless, always remember your past does not define your future. Nothing is impossible to achieve. God never said the road would be easy and He didn't bring you this far to turn His back on you. In fact, God never turns His back on you. He is always there through every obstacle you face. God will give you a way out, but He is waiting for you to listen closely and depend on Him wholeheartedly. I pray, I declare and decree in faith with God that as you read my story, it will place many of you in the mindset of surrendering your past and KNOWING that you can do ALL THINGS through Christ that strengthens you. You can Dance into God's Calling the way I did. I prophesy to you, in the Name of Jesus, this book will bring you to fight for your dream.

Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can use. comes a concise, elegant exploration of time. Why do we remember the past and not the future? What does it mean for time to "flow"? Do we exist in time or does time exist in us? In lyric, accessible prose, Carlo Rovelli invites us to consider questions about the nature of time that continue to puzzle physicists and philosophers alike. For most readers this is unfamiliar terrain. We all experience time, but the more scientists learn about it, the more mysterious it remains. We think of it as uniform and universal, moving steadily from past to future, measured by clocks. Rovelli tears down these assumptions one by one, revealing a strange universe where at the most fundamental level time disappears. He explains how the theory of quantum gravity attempts to understand and give meaning to the resulting extreme landscape of this timeless world. Weaving together ideas from philosophy, science and literature, he suggests that our perception of the flow of time depends on our perspective, better understood starting from the structure of our brain and emotions than from the physical universe. Already a bestseller in Italy, and written with the poetic vitality that made *Seven Brief Lessons on Physics* so appealing, *The Order of Time* offers a profoundly intelligent, culturally rich, novel appreciation of the mysteries of time.

Is your past dictating your future? We have to treat our past hurts and disappointments like outdated clothes; bag it up and throw it away. Our past does not define who we are, it's a memory that can be redefined by the renewing of our mind. We must understand that our mind is the battlefield for Satan to war with God. We were

given a divine instruction to LET GO! "Do not remember the former things, Nor consider the things of old. Behold I will do a new thing; now it shall spring forth; shall ye not know it? I will even make a way in the wilderness, and rivers in the desert. (Isaiah 43:18-19, NKJV). Our destiny is greater than our past. If we have the fortitude to release ourselves from our past, we will then transform from old to new. The purpose of this book is to inspire and transform the reader through the power of TRUTH and FORGIVENESS. It is a lesson about letting go of the past and living in the now.
